## KANE CRISTOPHER

Fantasia on Greensleeves Jessica Kingsley Publishers

Rock music of all varieties has been influenced by classical music and vice versa, both in the form of direct quotes and in the form of borrowings of style, composition, and instrumentation. The average listener may be unaware of the many links between rock music and the classics. One might remember a few examples, such as Walter Murphy's chart-topping "A Fifth of Beethoven" or Eric Carmen's "All by Myself," but pass them off as interesting anomalies. However, the influence of the classics on rock music is pervasive and grows from a long line of precedents. This second supplement to Janell R. Duxbury's original 1985 discography, *Rockin' the Classics and Classicizin' the Rock*, brings the earlier work and first supplement up-to-date with hundreds of new entries documenting recently released or newly discovered examples of the interconnection between these musical genres. Duxbury details nearly 700 new examples of recorded rock instrumentals and songs that borrow musical themes from the classics. Variations range from contemporary renditions of complete classical works to brief classical quotes or phrases subtly incorporated into rock compositions. Duxbury also gives additional examples of recorded orchestral versions of songs originally composed and/or written by rock artists. In these examples, the musical style varies from strict classical interpretations to pop-style orchestral renditions. The second supplement then expands Duxbury's original compilation of sound recordings and live performances of rock groups performing with established orchestras and choruses, selected samples of recorded rock music that simulate baroque or classical sound/structure, examples of the manifest influence of rock on classical music, and instances of rock artists and classical artists switching roles. Lastly, this discography updates the 1985

version and the first supplement with new information, expanded details, and minor corrections to the earlier works. An extended list of selected non-rock background examples is included in several new appendixes. The Preface is updated. A general index includes the names of classical composers, rock artists and groups, orchestras, choruses, orchestra conductors, sound recording producers, and song or instrumental titles. With its incomparable scope and content, this supplement, together with Duxbury's previous discography, and its first supplement will be appreciated by students, researchers, record collectors, trivia buffs, music industry employees, and fans of rock music and the classics. *Classical Music* Workman Publishing Part of the ALL-NEW LADYBIRD EXPERT SERIES. \_\_\_\_\_ How did modern classical music develop over the 20th Century? MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's "Rite of Spring" cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, *Classical Music* provides such essential information as: \*

Rankings of the top 50 composers (Bach is #1. Borodin is #50) \* A detailed and anecdotal look at each composer's life and work \* The five primary works of each composer and specific recommended CDs for each. \* Further great works of each composer--if you really like him \* Concise explanations of musical terminology, forms, and periods \* A guide to the parts and history of the symphony orchestra "This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads." --The Washington Post "One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature....[He] has raised music appreciation from a racket to a service." --The Arizona Daily Star

In this second edition of *Orchestral "Pops" Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current. Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral "Pops" Music* includes at least 1,000 new title listings. *Orchestral "Pops" Music: A*

A dozen of the most beautiful traditional melodies from the British Isles and North America are arranged here as concert pieces, with rich harmonies and variations. Carefully voiced and fingered for fluidity and effectiveness, the collection offers a wide range of style and expression.

"Barbara Allen" and "The Three Ravens" are strongly influenced by the Elizabethan lute tradition, while "John Riley" and "Come All Ye Fair and Tender Ladies" have a more contemporary feel. "Black Is the Color of My True Love's Hair" and "Lament for Owen Roe O'Neill" are studies in somber intensity, the modal "She Moved Through the Fair" sounds the ancient connection between Arabic and Celtic music, and "Banks of the Ohio" provides an interlude of gentle bluegrass swing, with a hint of gospel.
