The Creation of Poverty and Inequality in India S. Chand Publishing

The NCERT Practice Books are designed to provide additional practice to the users of the NCERT.

Longman Vistas 7 RITURAJ SERIES

Poverty in India is intimately connected with caste, untouchability, colonialism and indentured servitude, inseparable from the international experience of slavery and race. Focusing on historical and modern practices, this book goes beyond traditional economic approaches to poverty and demonstrates its genesis in exclusion, isolation, domination and extraction resulting in the removal of human and economic rights. Examining cash and asset transfers, as well as the enhancement of women's rights, primary health and education, it scrutinizes inadequacies in compensatory policies for redressing the balance. This is an original interdisciplinary contribution that offers bold domestic and international policies anchored in human radicalism to eradicate poverty.

Mariners Weather Log EduGorilla

This book collects research papers on the economic and social impact of earth sciences. It covers topics related to weather forecasting, climate modelling, monsoon variability, air pollution, heat and cold wave, deep sea mineral and living resources, ocean state monitoring, tsunami and earthquake monitoring, desalination, coastal research, etc. The book focuses on the activities of the Ministry of Earth Sciences, India, in promoting the societal and economic impacts of earth science research in a

simple language and in the form of stories and case studies, so that people with basic science degree can understand them.

Energy Research Abstracts Policy Press

Composite Mathematics is a series of books for Pre Primer to Class 8 which conforms to the latest CBSE curriculum. The main aim of writing this series is to help the children understand difficult mathematical concepts in a simple manner in easy language.

Journal of Earth System Science Springer Science & Business Media

The series, Awareness Social Sciences for classes VI, VII and VIII is based on the syllabus as specified by NCERT for the latest sessions. The syllabus has tried to link the academic curriculum with real life and, thus, dwelled on connecting the students' understanding with the real world around them. Accordingly, this book has incorporated real life examples, case studies, story lines and narratives which could be immensely helpful in assimilation and to inculcate interests among the students significantly.

Living Science Physics 10 Springer Nature

1. It is a series of English Coursebooks, Workbooks and Literature Readers for classes 1 to 8. 2. Wall of Fame : At the beginning of the book is a gallery of famous authors and characters that the child will meet inside. 3. The use of Graphic Organisers, Timelines and Graphic retelling of stories help develop critical thinking and study skills in learners—two vital tools for learning. 4. Based on the NCF, the series guides learners through the seven stages of a brain-based approach to learning i.e. Pre-exposure, Preparation, Initiation & Acquisition, Elaboration, Incubation & memory encoding, verification & Confidence check, celebration & Integration. 5. The 5Ps address the above stages as follows : Ponder: aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary and in-text questions. Prepare: immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities. Practise: lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it. Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning. 6. Cross-curricular (CC) links weave references from other subjects through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. Life Skills (LS) are enhanced through challenging texts and value-based concept checking questions (CCQs). 9. Tense Timelines (5-8): On the last page of the book is a graphic representation of Tenses. 10. Full page Illustrations and Double-spreads in lower classes make learning fun and interesting.

Academic Map Work in Social Science VII S. Chand Publishing

These books can be used with any English Reader and serve as workbooks or grammar practice books. The exercises are varied and well-graded. They are structured in such a way that the children progress from easy exercises to slightly more complex tasks. They consist of crosswords, wordsearches, word ladders, picture-based drills and other interesting activities. The Composition section includes descriptive and picture compositions. Also available Teacher s Handbooks and web

Climate Prediction and Agriculture S. Chand Publishing

1. It is designed in accordance with the latest guidelines laid by NCERT for classes 1 to 8. 2. Aims to inculcate inquisitiveness and passion for learning. 3. The chapters are designed in a manner that leads to comprehensive learning of concepts, development of investigative and scientific skills and the ability to probe into problems and find a possible solution. 4. The content of the series is supported by alluring illustrations and attractive layout to lend to the visual appeal and also to enhance the learning experience. 5. A clear comprehensive list of learning objectives at the beginning of each chapter. 6. A Kick off activity at the beginning of each chapter to set the pace for learning. 7. Hand-on activities presented using the scientific methodology of having a clear aim and materials required along with recording and discussing the task at hand. 8. A section on 'In Real Life' at the end of each chapter imparts value education and helps the learners become a better citizen. 9. Evaluation tools in the form of test papers and model test papers in classes 1 to 5 and periodic assessments, half yearly paper and a yearly paper in classes 6 to 8.

Oswaal NCERT & CBSE Question Bank Class 7 Science Book (For 2022 Exam) John Wiley & Sons

Lakhmir Singh's Science is a series of books which conforms to the NCERT syllabus. The main aim of writing this series is to help students understand difficult scientific concepts in a simple manner in easy language. The ebook version does not contain CD.

Gul Mohar Reader-7 Swaminarayan Temple

The Buddha's teachings center around two basic principles. One is the Four Noble Truths, in which the Buddha diagnoses the problem of suffering and indicates the treatment necessary to remedy this problem. The other is the Noble Eightfold Path, the practical discipline he prescribes to uproot and eliminate the deep underlying causes of suffering. The present book offers, in simple and clear language, a concise yet thorough explanation of the Eightfold Path. Basing himself solidly upon the Buddha's own words, the author examines each factor of the path to determine exactly what it implies in the way of practical training. Finally, in the concluding chapter, he shows how all eight factors of the path function in unison to bring about the realization of the Buddhist goal: enlightenment and liberation.

Stride Ahead with Science - 2 Buddhist Publication Society

This book delves into various solution paradigms such as artificial neural network, support vector machine, wavelet transforms, evolutionary computing, swarm intelligence. During the last decade, novel solution technologies based on human and species intelligence have gained immense popularity due to their flexible and unconventional approach. New analytical tools are also being developed to handle big data processing and smart decision making. The idea behind compiling this work is to familiarize researchers, academicians, industry persons and students with various applications of intelligent techniques for producing sustainable, cost-effective and robust solutions of frequently encountered complex, real-world problems in engineering and science disciplines. The practical problems in smart grids, communication, waste management, elimination of harmful elements from nature, etc., are identified, and smart and optimal solutions are proposed.
