SUGAR IS TAKING OVER OUR LIVES. But why? And is it only those sweet, refined white crystals that are causing us problems, or could there be more to the story? Let's be honest: The problem isn't just sugar itself. It's the refined, nutrient-poor carbohydrates that carry tons of calories, but no real nutrition. In our world, these are the easiest foods to grab on the go, but they leave us fat, sick, tired, and downright unhappy. The effect that sugar, "hidden" carbs, and refined, processed foods have on our bodies goes far beyond our waistlines. We can't focus, we can't sleep, we have irrational mid-afternoon cravings, and we can't even make it through the day without wanting—or needing—to prop up our energy levels with caffeine or even more sugar! What can we do to break free from this cycle? The 21-Day Sugar Detox is here to help. The 21-Day Sugar Detox is a clear-cut, effective, whole-foods-based nutrition action plan that will reset your body and your habits! Tens of thousands of people have already used this groundbreaking guide to shatter the vicious sugar stronghold. Now it's your turn! Use the easy-to-follow meal plans and more than 90 simple recipes in this book to bust a lifetime of sugar and carb cravings in just three weeks. Three levels of the program make it approachable for anyone, whether you're starting from scratch or from a gluten-free, grain-free, and/or Paleo/primal lifestyle. The 21-Day Sugar Detox even includes special modifications for athletes (endurance, CrossFit, HIIT-style, and beyond), pregnant/nursing moms, pescetarians, and people with autoimmune conditions. What you'll experience on this program will be different from a lot of other "diet" programs out there that promote extremely restricted eating; encourage you to consume only shakes, juices, or smoothies; or rely heavily on supplements and very-low-calorie or very-low-fat diets to ensure success. The goal of any detox program should be to support your body in naturally cleansing itself of substances that create negative health effects—and that's exactly what The 21-Day Sugar Detox does. By focusing on quality protein, healthy fats, and good carbs, this program will help you change not only the foods you eat, but also your habits around food, and even the way your palate reacts to sweet foods. You'll likely complete the program and continue eating this way much of the time thereafter because you'll feel so amazing. After changing your everyday eating habits, you will begin to gain a new understanding of how food works in your body—and just how much nutrition affects your entire life. There's no reason to wait!

Do you feel like it's time to start taking better care of yourself? Do you want to look and feel better? If you ask my dad what "clean eating" is, he'll act confused and tell you it probably means not to eat things off the floor. What do you think of when you hear "clean eating"? Do you imagine some locally grown organic lettuce leaves sitting sadly on a plate? Do you think of green juice or health supplements? Yoga and detox diets? Well, you won't find any of that in this book. Instead, we're going to focus on healthy and more realistic ways of eating - common sense that isn't all that common anymore. Clean eating is a lifestyle and an attitude more than it is a set of forbidden foods. Though some might disagree, you can eat meat, wheat, and dairy and still have a "clean" diet, and you most certainly don't need to spend a lot of money on "superfoods". During this challenge, you'll try to let go of the mythical ideal diet; we will focus on continuous improvement rather than perfection. And, most importantly, flexibility and joy rather than deprivation. The only one who knows if a diet is good for you or not is your own body. So ask it! During the 21 days of the challenge, we'll look at opportunities to clear away foods that are hindering your health and replace them with better ones. You will be amazed by how much impact healthy eating will have on your overall well-being and the way you look. The 21-Day Clean Eating Challenge will help you to: - Make better food choices throughout the day - Wake up every morning feeling refreshed and well rested - Normalize blood pressure, cholesterol levels, and digestion - And more!
