As Consciousness Is Harnessed to Flesh Abrams

Celebrate all the ways love makes us who we are with the sequel to the New York Times bestseller *Every Day*, now a major motion picture. Every day a new body. Every day a new life. Every day a

new choice. For as long as A can remember, life has meant waking up in a different person's body every day, forced to live as that person until the day ended. A always thought there wasn't anyone else who had a life like this. But A was wrong. There are others. A has already been wrestling with powerful feelings of love and loneliness. Now comes an understanding of the extremes that love and loneliness can lead to -- and what it's like to discover that you are not alone in the world. In *Someday*, David Levithan takes readers further into the lives of A, Rhiannon, Nathan, and the person they may think they know as Reverend Poole, exploring more deeply the questions at the core of *Every Day* and *Another Day*: What is a soul? And what makes us human?

In *Topographies of Class*, Sabine Hake explores why Weimar Berlin has had such a powerful hold on the urban imagination. Approaching Weimar architectural culture from the perspective of

mass discourse and class analysis, Hake examines the way in which architectural projects; debates; and representations in literature, photography, and film played a key role in establishing the terms under which contemporaries made sense of the rise of white-collar society. Focusing on the so-called stabilization period, *Topographies of Class* maps out complex relationships between modern architecture and mass society, from Martin Wagner's planning initiatives and Erich Mendelsohn's functionalist buildings, to the most famous Berlin texts of the period, Alfred Döblin's city novel *Berlin Alexanderplatz* (1929) and Walter Ruttmann's city film *Berlin, Symphony of the Big City* (1927). Hake draws on critical, philosophical, literary, photographic, and filmic texts to reconstruct the urban imagination at a key point in the history of German modernity, making this the first study—in English or German—to take an interdisciplinary approach to the rich architectural culture of Weimar Berlin. Sabine Hake is Professor and Texas Chair of German Literature and Culture at the University of Texas at Austin. She is the author of numerous books, including *German National Cinema and Popular Cinema of the Third Reich*. For fans of Marie Lu comes the first book in an epic series that bends the sci-fi genre into a new dimension. "A truly beautiful novel that redefines the form." —Victoria Aveyard, bestselling author of *Red Queen* This morning, Kady thought breaking up with Ezra was the hardest thing she'd have to do. This afternoon, her planet was invaded. The year is 2575, and two rival

But their problems are just getting started. A plague has broken out and is mutating with terrifying results; the fleet's AI may actually be their enemy; and nobody in charge will say what's really going on. As Kady hacks into a web of data to find the truth, it's clear the only person who can help her is the ex-boyfriend she swore she'd never speak to again. The Prize recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, The Prize is a book of extraordinary breadth, riveting excitement -- and great importance.

"Taking Life Head On!" is the inspiring true story of one young man with an astonishing drive to succeed against all odds. shows readers how to truly and unconditionally love the life they have while empowering them to creating the life of their dreams. *Taking Life Head On! (the Hal Elrod Story)* Springer-Verlag
 Australian feminist philosopher Val Plumwood coined the term "critical ecofeminism" to "situate humans in ecological terms and non-humans in ethical terms," for "the two tasks are interconnected, and cannot be addressed properly in isolation from each other." Various using the terms "critical ecological feminism," "critical anti-dualist ecological feminism," and "critical ecofeminism," Plumwood's work developed amid a range of perspectives describing feminist intersections with ecopolitical issues—i.e., toxic production and toxic wastes, indigenous sovereignty, global economic justice, species justice, colonialism and dominant masculinity. Well over a decade before the emergence of posthumanist theory and the new materialisms, Plumwood's critical ecofeminist framework articulates an implicit posthumanism and respect for the animacy of all earthothers, exposing the linkages among diverse forms of oppression, and providing a theoretical basis for further activist coalitions and interdisciplinary scholarship. Had Plumwood lived another ten years, she might have described her work as "Anthropocene Ecofeminism," "Critical Material Ecofeminism," "Posthumanist Anticolonial Ecofeminism"—all of these inflections are present in her work. Here, Critical Ecofeminism advances upon Plumwood's intellectual, activist, and scholarly work by exploring its implications for a range of contemporary perspectives and issues—critical animal studies, plant studies, sustainability studies, environmental justice, climate change and climate justice, masculinities and sexualities. With the insights available through

a critical ecofeminism, these diverse eco-justice perspectives become more robust.

Vor 500 Jahren, 1516, erschien Thomas Morus' „Utopia“. Der Text machte Furore. Er begründete eine politisch-literarische Gattung und wurde zum Namensgeber einer Tradition des politischen Denkens. Im Laufe der fünf Jahrhunderte mehrfach totgesagt, hat

sich die Utopie immer wieder erneuert und ist nach wie vor lebendig. Ihre Formen reichen vom klassischen Staatsroman über Architektur, Film und Musik bis zu konkreten Umsetzungsversuchen als gelebte Utopie; ihre Intentionen von Kritik über politische Manifeste bis hin zu dystopischen Warnungen. In dieser Festschrift zum 75. Geburtstag des Utopieforschers Richard Saage werden die Gattung Utopie und ihre Geschichte aus unterschiedlichen Perspektiven betrachtet: ausgehend von der „Utopia“ bis hin zu gegenwärtigen Utopien und Dystopien.

A Short History of Drunkenness Simon and Schuster

From the internationally bestselling author of *The Etymologicon*, a lively and fascinating exploration of how, throughout history, each civilization has found a way to celebrate, or to control, the eternal human drive to get sloshed “An entertaining bar hop though the past 10,000 years.”—*The New York Times Book Review* Almost every culture on earth has drink, and where there's drink there's drunkenness. But in every age and in every place drunkenness is a little bit different. It can be religious, it can be sexual, it can be the duty of kings or the relief of peasants. It can be an offering to the ancestors, or a way of marking the end of a day's work. It can send you to sleep, or send you into battle. Making stops all over the world, *A Short History of Drunkenness* traces humankind's love affair with booze from our primate ancestors through to the twentieth century, answering every possible question along the way: What did people drink? How much? Who did the drinking? Of the many possible reasons, why? On the way, learn about the Neolithic Shamans, who drank to communicate with the spirit world (no

pun intended), marvel at how Greeks got giddy and Sumerians got sauced, and find out how bars in the Wild West were never quite like in the movies. This is a history of the world at its inebriated best.

11 Eine Subjektivierung des Musikerlebnisses bringt dann die Neuzeit mit sich. Musik er freut nach Descartes, wenn ihre

mathematische Struktur für den Sinn klar erkennbar ist, ohne einförmig zu sein. Zweck der Musik ist eigentlich die Sinnesfreude, die freilich eine Form mathematischer Erkenntnis (zugleich) ist. Erst mit der Ersterhebung der Kunstphilosophie und Ästhetik, endgültig im 18. Jahrhundert, gerät Musik in einen neuen Zusammenhang. Nun wechselt sie aus dem Bereich der artes liberales, also dem der Wissenschaft und ontologischen Rationalität, in den Kreis der schönen Künste über und wird damit zu einem primär oder ausschließlich ästhetischen Phänomen. Nun wird sie zum Produkt des unbewußt schaffenden Genies. Die bildende Kunst ahmt eher die äußere sichtbare Natur und der Menschen nach; die unsichtbare, innere Natur des Menschen, Gemüt und Leidenschaften, sind nun Inhalt musikalischen Ausdrucks. Damit gehört Musik auch nicht mehr den nachahmenden Künsten an und konstituiert sich als Ausdruckskunst: "Als ihr Gehalt erweisen sich bald nicht mehr die tabellarisch erfaßten bestimmten Affekte, sondern das viel weitere Feld der Empfindungen. Diese werden von der Empfindungstheorie der Leibniz-Schule als ein Kontinuum klarer, aber verworrener Vorstellungen beschrieben (clara et confusa re praesentatio)" (ebd., S. 250). In der Aufklärung zum Ausdrucksorgan der Subjektivität geworden, wird Musik in der Romantik über das Gefühl als Ahnung und Gegenwart des Absoluten interpretiert: Die Seele weitet sich. Diese zwar wirkungsvolle Unbestimmtheit wirft das Problem der Form-Inhalt-Beziehung auf.

Mehr als 1100 Objekte aus dem alten Königreich Benin befinden sich heute in deutschen Museen. Und bis auf wenige Ausnahmen war ihre Beschaffung unrechtmäßig. Britische Streitkräfte hatten 1897 den Königspalast in Benin-Stadt erobert, geplündert und niedergebrannt. Die gesamte Hofkunst gelangte daraufhin in britische Museen, einen Teil verkauften die Kolonialisten in Sammlungen außer Landes. Inzwischen schlummern diese Stücke nicht mehr ungestört in den Depots. Eine Debatte über die Rückgabe der Beutekunst an ihr Ursprungsland Nigeria ist entbrannt, auch in Deutschland. Es liegen mittlerweile sogar konkrete Beschlüsse vor. Unser Autor Joachim Willeitner schildert

ab S. 12 den genauen Stand im Fall der Beninbronzen. Zudem ist er noch einer weiteren Sache auf den Grund gegangen: Was war der einstige Zweck der Objekte, wofür waren sie gefertigt worden? Ab S. 24 berichtet er Ihnen, was Expertinnen und Experten über das verlorene Königreich Benin und dessen Hofkunst wissen. Eine Kontroverse löste vor 100 Jahren auch ein Gerichtsprozess in Berlin aus. Der Armenier Soghomon Tehlirian hatte auf offener Straße den türkischen Politiker Mehmed Talât Pascha erschossen, einen der Drahtzieher des Genozids an den Armeniern. Welche Debatte sich um den Völkermord daraufhin entspann und wie der Prozess gegen Tehliri an endete, hat unser Autor Winfried Dolderer ab S. 42 aufgeschrieben. Eine aufschlussreiche Lektüre wünscht Ihnen Karin Schlott, Redaktion Spektrum der Wissenschaft.

In Times of Fading Light University of Michigan Press

An enthrallingly expansive family saga set against the backdrop of the collapse of East German communism, from a major new international voice * Over 450,000 copies sold in Germany alone * Rights sold in 20 countries * Winner of the German Book Prize * A PW "First Fiction" pick * In Times of Fading Light begins in September 2001 as Alexander Umnitzer, who has just been diagnosed with terminal cancer, leaves behind his ailing father to fly to Mexico, where his grandparents lived as exiles in the 1940s. The novel then takes us both forward and back in time, creating a panoramic view of the family's history: from Alexander's grandparents' return to the GDR to build the socialist state, to his father's decade spent in a gulag for criticizing the Soviet regime, to his son's desire to leave the political struggles of the twentieth century in the past. With wisdom, humor, and great empathy,

Eugen Ruge draws on his own family history as he masterfully brings to life the tragic intertwining of politics, love, and family under the East German regime.
