Drawing on research funded by the European Commission, this book explores how religious diversity has been, and continues to be, represented in cultural contexts in Western Europe, particularly to teenagers: in textbooks, museums and exhibitions, popular youth culture including TV and online, as well as in political speech. Topics include the findings from focus group interviews with teenagers in schools across Europe, the representation of minority religions in museums, migration and youth subculture.

Azmi Bishara's seminal study of the 2011 Egyptian Revolution chronicles in granular detail the lead up to the momentous uprisings and the subsequent transition and coup. The book critically investigates the social and economic conditions that formed the backdrop to the revolution and the complex challenges posed by the transition from authoritarianism to democracy. Part One, 'From July Coup to January Revolution', goes back to what is called the '1952 revolution' or the '1952 Coup d'état' and traces events until 2011 when Hosni Mubarak stepped down as the president of Egypt after weeks of protest. It highlights the relationship between the presidency and the army to show that, contrary to popular belief, the presidency grew gradually stronger at the expense of other institutions, especially the army, and reached its apogee under Mubarak. Part Two 'From Revolution to Coup d'Etat', covers the critical stages from when the military junta took over the governing of Egypt as the Supreme Council of the Armed Forces (SCAF), and the election of Morsi, up until the coup to overthrow his presidency. Using a

democratic transition theory perspective, Azmi Bishara explains the failure of the democratic transition and how it has impacted on Arab revolutions ever since. Written while the revolutions were taking place, this book conveys a sense of immediacy and urgency as Bishara makes wide-ranging assessments with many of his forecasts corroborated in later years. The book is renowned for its use of primary source material - including interviews, statistics and public opinion polls - thus preserving the memory of the revolution and remaining one of the most comprehensive reference books on the subject to date.

Prejudice against Muslims has a long and complex history. In recent decades, discrimination, violence, and human rights abuses against Muslims have taken a significant turn, with rising reports and discussions of Islamophobia across the globe. However, much of the conversation has missed the key features of this increasingly insidious phenomenon. This original book puts race at the center of the analysis, exposing the global racialization of Muslims. With special attention paid to the United States, China, India, and the United Kingdom, the authors examine both the unique national contexts and - crucially - the shared characteristics of anti-Muslim racism. They uncover how a range of counterterrorism policies, from hyper-surveillance to racialized policing, and the ensuing representation of Islam, have taken a decisive role in shaping social life for Muslims and have worked across borders to justify and institutionalize an acceptable, state-sponsored face of racism. Ultimately, A Global Racial Enemy argues that anti-Muslim animus is a symptom of a global and powerful form of twenty-first-century racism.

This book is primarily designed for students preparing for various competitive exam- inations. It will also be helpful for those preparing for midterm exams in schools or universities. The aim of this book is twofold: first, to help the students preparing for competitive examinations, seeking admission to universities or schools, or prepare for job interviews. Second, it will also be helpful for those studying EGYPT. This book contains more than 2830 questions from the core areas of EGYPT. The questions are grouped chapter-wise. There are total 1 chapters, 6 sections and 2830+ MCQ with answers. This reference book provides a single source for mul- tiple choice questions and answers in EGYPT. It is intended for students as well as for developers and researchers in the field. This book is highly useful for faculties and students. One can use this book as a study guide, knowledge test questions bank, practice test kit, quiz book, trivia questions . . . etc. The strategy used in this book is the same as that which mothers and grandmothers have been using for ages to induce kids in the family to sip more soup (or some other nutritious drink). The children are told that some cherries (their favourite noo- dles or cherries) are hidden somewhere in the bowl, and that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious

soup. Now it is your choice to drink the nutritious soups or not!!!

"Erling was flying, and it felt amazing. Up in the air, Erling pulled his legs forward, sailing onwards. His arms spread out like wings. He yelled exuberantly, yanking his chest forward again. It was like walking in the air. Thirty minutes later, the school headmaster came along looking pretty excited. "I have something to tell you," he said to Erling's mum and dad. "We checked the record books, and that jump of Erling's ..." he swallowed a breath. "It was longer than any five-year-old boy has ever jumped anywhere in the world, ever!" The inspiring coming-of-age story of Erling Haaland, the Norwegian superstar, is another gem in the bestselling Football Stars Series. Cristiano Ronaldo - The Rise of a Winner Sole Books

I remember watching Salah for the first time back in 2015-16 when Roma played Real Madrid in UCL R-16. He was a constant nuisance for Ramos and Marcelo on the right. His pace and dribbling troubled Real Madrid's defense all night at Bernabeu and I was highly impressed. The talent and potential were there. However, his finishing let him down on so many occasions in that game. 2 years later, Mohammed Salah is tearing apart Premier League defenses scoring an incredible 23 goals in the league already. His finishing has improved vastly and he is now a complete package. Klopp's system has helped Salah reach his full potential and he is among the best attackers in Europe right now (I am not exaggerating) Liverpool fans love him and he is already a legend in Egypt after helping them qualify for the World Cup in

2018. I think he is excellent and obviously, there is a lot of media coverage about his season. This will obviously continue all the time he keeps scoring. He always did look like he had great potential. I remember a few seasons ago in Europe, around 2012 and 2013, there were two players that gave Chelsea no end of problems when we played them. One was Willian, the other was Salah. I was obviously very pleased when we bought both of them and it was a shame when Salah left but his opportunities were limited with the likes of Hazard, Oscar, Willian, and Schürrle competing for two positions. No doubt he is a better player now than he was then, regular football has helped him reach his potential. What we don't know yet is whether next year will be a flash in the pan or if he will keep playing to the same level or even better. Often after a good season, the next one is much more difficult. Opposition teams start to work you out, pay more attention to stopping your play, and so forth so we will have to see how things go for him next year, but I wish him well, he is an exciting player to watch. However, this season in Liverpool is going well with the African best player at the moment. Having exceeded Didier Drogba who netted 105 goals in 254 matches during his stay in Chelsea. Mo Salah of course as of 24th October 2021 has scored 2 goals in Chelsea and 105 in Liverpool, totaling 107 goals in 167 matches JOIN THE ANALYSIS NOW

The big night arrived. This was it. The final. Earlier, the team had been greeted by the French president in the changing room. The mood was jubilant. There was a feeling in the air that they were going all the way. When the game started, his adrenaline was pumping hard. He was happy. Happy to play in the world's most important game. He was happy because he knew he was there to make a difference. He was there to win. When he closed his eyes, he could see the blue garage door dotted with the marks of old soccer balls. The blue door had been his soccer training ground all those years ago when a little blond kid kicked a ball at it, perfecting his touch; the kid who dared to dream that one day he'd become the champion of the world.
