This is the first volume to present a group of works that the artist has been working on for a long time. Under the title of Revolution, night time seascapes are presented in large format, capturing the course of the moon over a longer period of time. The special way the pictures are exhibited?the images are turned ninety degrees?creates disturbing impressions that, depending on the region of the world and the latitude, exhibit clear distinctions.

SUPERMOM: The Lost Child

De Boeck Superieur

Since German reunification in 1990, there has been widespread concern about marginalized young people who, faced with bleak prospects for their future, have embraced increasingly violent forms of racist nationalism that glorify the country's Nazi past. The Management of Hate, Nitzan Shoshan's riveting account of the year and a half he spent with these young right-wing extremists in East Berlin, reveals how they contest contemporary notions of national identity and defy the clichés that others use to represent them. Shoshan situates them within what he calls the governance of affect, a broad body of

discourses and practices aimed at orchestrating their attitudes toward cultural difference—from legal codes and penal norms to rehabilitative techniques and pedagogical strategies. Governance has conventionally been viewed as rational administration, while emotions have ordinarily been conceived of as individual states. Shoshan, however, convincingly questions both assumptions. Instead, he offers a fresh view of governance as pregnant with affect and of hate as publicly mediated and politically administered. Shoshan argues that the state's policies push these youths into a right-extremist corner instead of

integrating them in ways that could curb their nationalist racism. His point is certain to resonate across European and non-European contexts where, amid robust xenophobic nationalisms, hate becomes precisely the object of public dispute. Powerful and compelling, *The Management of Hate* provides a rare and disturbing look inside Germany's right-wing extremist world, and shines critical light on a German nationhood haunted by its own historical contradictions.

Within the current discussion on grammatical interfaces, the word-classes of adjective and adverb are of particular interest because they appear to

be separated or joined in manifold ways at the level of word-class or syntax, with morphology playing a prominent role, especially in Romance. The volume provides typological and theoretical insights into the common or different usage of adjectives and adverbs in Romance. Diachronic change is discussed alongside with synchronic variation and the representation in grammar. The discussion turns out to be controversial, calling into question traditional assumptions such as the dogma of the invariability and the categorial status of the adverb.

In the world of globalized media, provocative images trigger culture wars between traditionalists and cosmopolitans, between censors and defenders of free expression. But are images censored because of what they mean, what they do, or what they might become? And must audiences be protected because of what they understand, what they feel, or what they might imagine? At the intersection of anthropology, media studies, and critical theory, *Censorium* is a pathbreaking analysis of Indian film censorship.

The book encompasses two moments of moral panic: the consolidation of the cinema in the 1910s and 1920s, and the global avalanche of images unleashed by liberalization since the early 1990s. Exploring breaks and continuities in film censorship across colonial and postcolonial moments, William Mazzarella argues that the censors' obsessive focus on the unacceptable content of certain images and the unruly behavior of particular audiences displaces a problem that they constantly confront yet cannot directly acknowledge: the volatile relation between mass affect and collective meaning. Grounded in a close analysis of cinema regulation in the world's largest democracy, *Censorium* ultimately brings light to the elusive foundations of political and cultural sovereignty in mass-mediated societies.

Longlisted for The Voss Literary Prize 2016 This is the story of John Wonder,

a man with three families, each one kept secret from the other, each one containing two children, a boy and a girl. As he travels from family to family in different cities, he works as an

Authenticator, verifying world records, confirming facts, setting things straight, while his own life is a teetering tower of breathtaking lies and betrayals. 'Some books read as if they are touched by magic, so wondrous and astonishing is the experience of immersing yourself in them. That's how I feel about *The Wonder Lover* .

It is written with confidence and daring, with a joyous freedom and a love for story and language that is only possible when an artist has truly mastered their craft. It is a compulsive and thrilling read, a dazzling achievement.

There is a word that should be used very rarely but I believe is absolutely right for this book: *The Wonder Lover* is superb.' -- Christos Tsiolkas, author of *The Slap*

Houghton Mifflin Harcourt A touching volume that celebrates the life and work of beloved fashion designer Alber Elbaz. On

April 24, 2021, the designer Alber Elbaz passed away due to complications from COVID-19. The creative director of Lanvin from 2001 to 2015, he was the most consequential figure from the fashion community lost to the pandemic. *Love Brings Love*, the celebration of Elbaz's life and work that concluded Paris Fashion Week on October 5, 2021, remains a unique event in the recent history of the industry. In tribute, forty-four designers, from nearly all the French and Italian maisons, as well as his dear friends in Japan and the United States, created dresses for a memorial fashion show—the first collaborative one to have ever been held in Paris. Of the more than seventy looks, thirty were by Elbaz, posthumously executed by his team at AZ Factory. The international fashion community came as one family to publicly mourn and remember one of their own, with a reverence and affection reserved only for someone so universally and genuinely loved. This book is divided into three parts, which include texts written by Elbaz prior to his passing; a sequence of

sketches by forty-four designers and maisons, including Alexander McQueen, Balenciaga, Comme des Garçons, Giambattista Valli, Gucci, Jean Paul Gaultier, Rick Owens, and Valentino, on uncoated stock; and a section of photographs of completed dresses, including dresses designed by Elbaz, on matte coated stock. The sequence describes in ways both conceptual and material how his friends and peers saw him, and how they intimately honored his memory with their own work and in their own words.

Love Brings Love

Set in a fictitious African nation, this novel by the distinguished writer Sony Labou Tansi takes aim at the corruption, degeneracy, violence, and repression of political life in Africa. At the heart of *The Shameful State* is the story of Colonel Martillimi Lopez, the nation's president, whose eccentricity and whims epitomize the "shameful situation in which humanity has elected to live." Lopez stages a series of grotesque and barbaric events while his nation falls apart. Unable to resist the dictator's will,

his desperate citizens are left with nothing but humiliation. The evocation of this deranged world is a showcase for the linguistic and stylistic inventiveness that are the hallmark of Sony Labou Tansi's work. This first English translation by Dominic Thomas includes a foreword by Congolese writer Alain Mabanckou that contextualizes the novel's importance in literary history and the significance of Sony Labou Tansi for future generations of writers. This book owes much of its origin to the encouragement of the Company directors and staff members to have a written record of the McIntosh Companies in New Zealand and their involvement in the Glue Laminated Timber Construction Industry over 50 years. When other people involved in this Industry and in the design of timber structures became aware that I was writing this book, their interest created the realisation that as we were pioneers in the Glulam Industry that the book should also include more of a history of this an addition to our

Company development and activities. Gathering 50 years of relevant information, working through files of meeting minutes, industry bulletins and Companies and Associations in the industry has been time consuming, yet most interesting by refreshing memories of decisions and developments. Several people have said to me "If you don't write this record of the industry then it will never be done, it will be important." So with this responsibility in mind the book has developed.- Ken McIntosh. [The Shameful State](#) Indiana University Press Born a Spanish Jew in the fifteenth century, Ben had many hidden talents that would come to the fore early in his life.
