This collection of essays  
explores how

Enlightenment and post-Enlightenment developments in the earth sciences and related fields (paleontology, mining, archeology, seismology, oceanography, evolution, etc.) impacted on contemporary French culture. They reveal that geological ideas were a much more pervasive and influential cultural force than has hitherto been supposed. From the mid-eighteenth century, with the publication of Buffon's seminal *Théorie de la Terre* (1749), until the early twentieth century,

concepts and figures drawn from the earth sciences inspired some of the most important French philosophers, novelists, political theorists, historians and popularizers of science of the time. This book charts the original and influential ways in which French writers and thinkers, such as Buffon, d'Holbach, Balzac, Sand, Verne, Gide and Malraux, exploited the earth sciences for very different ends. This volume will be of interest to students, researchers and scholars of French

literature in the modern period, cultural historians of modern France, scholars of European studies, of French political history, of the History of Ideas or the History of Science as well as researchers in landscape and physical geography.

Originally published in  
 1963 this volume surveys  
 various aspects of the  
 complex relations  
 between rights in land,  
 social organization and  
 economic interests in  
 tropical Africa. The papers  
 - in English and French  
 but with summaries in the  
 other language - analyse  
 case studies illustrating  
 the various basic factors  
 and problems connected  
 with land in Tropical

Africa. Indigenous systems of tenure and their adaptation to commercial agriculture, the balance between rights and obligations of groups and individuals, and the authority and duties of chiefs and headmen are discussed in detail for many different areas. Against this background important contributions are made towards the better understanding of problems raised by economic and political development, population increase, migration and

scarcity of land.

Parfaitement en accord avec les Saintes Ecritures,cette nouvelle vague de passages interprétés a pour but d'expliquer sans parti pris,certains textes bibliques qui sont de nature à créer confusion dans le monde évangélique.Par dessus tout,le vrai objectif de l'ouvrage est d'arriver à montrer que dans son passage ici-bas,que Christ aura exercé un Triple Ministère,de la terre au séjour des morts.Ce nouveau commentaire biblique à format réduit

n'est pas seulement un document à se procurer ou un ouvrage à occuper inutilement le rayon de votre bibliothèque,mais c'est aussi et surtout un livre à lire et à étudier. >n'est pas une oeuvre littéraire réalisée sur simple dilettantisme ou de fantaisie d'auteur,mais elle a été traitée avec un soin extrême et une rare compétence avant d'être soumise à la lecture de tous.Pour la réalisation et la composition de ce livre,l'inspiration était telle que c'est pour la première fois que j'ai écrit

un manuscrit avec une aussi grande rapidité.Ce livre sera sous peu revu et augmenté pour les deux versions(française et anglaise).N'étant pas écrit exclusivement pour une catégorie de gens,qui que vous soyez,je vous encourage à étudier ce livre afin de découvrir la personne de Christ et d'entrer avec lui dans une nouvelle relation spirituelle.Que la lecture de cet ouvrage vous rapproche un peu plus de Jésus-Christ et qu'il devienne votre Sauveur personnel.
