 Anyone writing texts in English is constantly faced with the unavoidable question whether to use open spelling (drinking fountain), hyphenation (far-off) or solid spelling (airport) for individual compounds. While some compounds commonly occur with alternative spellings, others show a very clear bias for one form. This book tests over 60 hypotheses and explores the patterns underlying the spelling of English compounds from a variety of perspectives. Based on a sample of 600 biconstituent compounds with identical spelling in all reference works in

which they occur (200 each with open, hyphenated and solid spelling), this empirical study analyses large amounts of data from corpora and dictionaries and concludes that the spelling of English compounds is not chaotic but actually correlates with a large number of statistically significant variables. An easily applicable decision tree is derived from the data and an innovative multi-dimensional prototype model is suggested to account for the results.
Film – An International Bibliography John Benjamins Publishing Company
 The completely redesigned Grammar of Spoken and Written English is a comprehensive corpus-based reference

grammar. GSWE describes the structural characteristics of grammatical constructions in English, as do other reference grammars. But GSWE is unique in that it gives equal attention to describing the patterns of language use for each grammatical feature, based on empirical analyses of grammatical patterns in a 40-million-word corpus of spoken and written registers. Grammar-in-use is characterized by three inter-related kinds of information: frequency of grammatical features in spoken and written registers, frequencies of the most common lexico-grammatical patterns, and analysis of the discourse factors

influencing choices among related grammatical features. GSWE includes over 350 tables and figures highlighting the results of corpus-based investigations. Throughout the book, authentic examples illustrate all research findings. The empirical descriptions document the lexico-grammatical features that are especially common in face-to-face-conversation compared to those that are especially common in academic writing. Analyses of fiction and newspaper articles are included as further benchmarks of language use. GSWE contains over 6,000 authentic examples from these four registers, illustrating the range of lexico-grammatical features

in real-world speech and writing. In addition, comparisons between British and American English reveal specific regional differences. Now completely redesigned and available in an electronic edition, the Grammar of Spoken and Written English remains a unique and indispensable reference work for researchers, language teachers, and students alike.

Variation in the Grammar of Black South African English

Springer Science & Business Media
The ongoing digitalization of social environments and personal lifeworlds has made it crucial to pinpoint the possibilities of digital teaching and learning also in the context of

English language education. This book offers university students, trainee teachers, in-service teachers and teacher educators an in-depth exploration of the intricate relationship between English language education and digital teaching and learning. Located at the intersection of research, theory and teaching practice, it thoroughly legitimizes the use of digital media in English language education and provides concrete scenarios for their competence-oriented and task-based classroom use.

The contributions to this volume explore several focal issues related to the global

spread of English and their implications for English language teaching, providing both theoretical and empirical perspectives on recent research and implications in educational terms. The volume is divided into three thematic sections, namely "Developments in ELF research and pedagogic implications", "Raising teachers' awareness of ELF", and "ELF and ELT practices". The book provides up-to-date perspectives on the issues, implications and repercussions that findings in ELF research can have for ELT practices. The contributors are all scholars and researchers who have long been engaged in ELF-related research, and who have

undertaken operational and practical work in the field, and, as such, offer novel perspectives on the effects of EFL research on the teaching and learning of English. The volume also presents the findings of innovative projects in teacher education, involving pre- and in-service teachers, providing exemplificative good practices of possible new routes into pluralistic, ELF-aware and ELF-oriented didactic perspectives.

Grammar of Spoken and Written English

Narr Francke Attempto Verlag

This foundational coursebook offers an accessible and up-to-date introduction to all relevant areas of Teaching English. Definitions and

practical examples guide the understanding and reflection of basic and advanced concepts of foreign language learning. The fully revised second edition responds to new developments in language education: (1) Recent policies from the Kultusministerkonferenz and updates of the Common European Framework of Reference for Languages with its Companion Volume (2020) pay more attention to language awareness, mediation, and media literacy. (2) New empirical research explores the aims, methods, and impact of professional teacher education, Task-Based Language Teaching, and Content-and-Language-Integrated

Learning. (3) The dramatic need for online teaching has met with refined concepts of multimodal media competence and cutting-edge tools for the digital classroom. This essential introduction and the PowerPoint presentations online facilitate multimodal teaching and learning. *Digital Teaching and Learning: Perspectives for English Language Education* Cambridge University Press Reading and discussing literature is a central topic for advanced learners of English in schools. This book offers future English teachers a comprehensive introduction to this area. It is easy to read and the author explains all the scientific terms you

need to know in order to pass an exam on teaching English literature. Thought provoking questions, a wealth of extracts from literary sources and illustrative diagrams ensure that the essential contents can be quickly learned and easily remembered.

Es ist immer eine gute Idee, einen professionellen Rechtsanwalt oder Anwalt mit rechtlichen Fragen zu beraten. Denken Sie daran, eine Sache, dass das Lernen nie aufhört! Lesen, lesen, lesen! Und schreiben, schreiben, schreiben! Ein

Dankeschön an meine wundervolle Frau Beth (Griffo) Nguyen und meine Söhne erstaunliche Taylor Nguyen und Nguyen Ashton für ihre Liebe und Unterstützung, ohne die emotionale Unterstützung und Hilfe wäre keines dieser Bildungssprache eBooks und Audios möglich.

English Compounds and their Spelling

Nam H Nguyen

The aim of this study is to provide an outline of the development, from the earliest times to the present day, of all the English syntactical constructions with a verbal form as their nucleus. Professor Visser's description is based on a very extensive collection of documentary material covering every kind of writing in prose and

poetry in the Old, Middle and Modern periods, drawing on quotations illustrating syntactical phenomena in Bosworth & Toller, O.E.D., M.M.E.D., E.D.D., and D.O.S.T., but also making reference to obsolete usages not found in any grammar, and to the views of English and American grammarians of the 17th, 18th, and 19th centuries on the various syntactical constructions. The volumes of this work originally appeared in the early sixties and seventies and were well received by readers and reviewers. Volumes 1 and 2 underwent correction in the light of these early reactions. We should like to think that this work will continue to be available to the

scholarly world without great increases in the price. We are however only reprinting the individual volumes in small numbers, and so we have decided that in order to guarantee a consistent reprint and pricing policy for the future, the work should be available henceforth only as a set of four volumes.

Englischunterricht analysieren und gestalten Springer Nature

This ethnographic case study is set within a collaborative research project in which teachers and researchers investigate early English as a Foreign Language (eEFL) tasks in theory and practice in German primary schools. Results are obtained through an interpretation of

multiple sources within an interdiscursive, multi-perspectived research agenda. The results suggest that eEFL tasks can emerge during an interplay of four key teaching practices: doing school, providing space for learners to communicate, building a vocabulary and teaching the spoken language.

Lehrkräfte ab. Der

vorliegende Band in

englischer Sprache

behandelt in 13

Kapiteln grundlegende Themen und Konzepte für deren Entwicklung in Aus- und Fortbildung sowie im

Selbststudium. Der Praxisband geht auf die besonderen

Bedingungen der Bundesrepublik

Deutschland ein und berücksichtigt die

internationalen Forschungen zum

Fremdsprachenunterricht in der Grundschule.

Er ist dabei dem aufgabenorientierten

Lehren und Lernen verpflichtet.

Ausgehend von der Heterogenität heutiger

Grundschul Kinder und der Komplexität des

fremdsprachlichen Klassenzimmers

veranschaulichen die Kapitel den

Zusammenhang von

didaktischer Theorie und Unterrichtspraxis.

Die Themen umfassen

u. a. aufgabenorientiertes Lehren und Lernen, Classroom Management, Integration der Fertigkeiten, Focus on Form, Arbeit mit literarischen Texten, kulturelles Lernen, Einsatz von Medien und Materialien, fächerübergreifendes Lernen und den Übergang in die Sekundarstufe. Hinweise zur vertiefenden Lektüre und zahlreiche Unterrichtsbeispiele ergänzen die Kapitel. Der Band richtet sich an Studierende, an Referendarinnen und Referendare und an Lehrkräfte in der Grundschule, die sich für einen Englischunterricht einsetzen, der die Lebenswelten der Lernenden ernst nimmt

und der die Lernenden bei der Entwicklung ihrer Englischkompetenzen unterstützt. Er eignet sich zur Grundlage von Seminaren und zum Selbststudium.

_____ The present volume provides a comprehensive introduction to the teaching of English at primary school. Following a task-based and learner-oriented approach, the volume focuses on the German teaching context while taking relevant international research into account. Starting from the diverse lived experience of today's primary school children and the complexity of the foreign language classroom, the 13 chapters illustrate how theory and classroom practice relate to each

other. Topics include learning through tasks, classroom management, the integration of skills, focus on form, working with literature, cultural learning, the use of media and teaching materials, integrating subject matter and the transition to secondary school. The chapters present a variety of classroom examples and suggestions for further reading. The volume is aimed at students, trainee teachers and primary school teachers. It is a helpful resource for both pre-service and in-service teacher education.

English Historical Linguistics 1994 Nam H Nguyen

The dictionary is based on a new concept which takes into account recent

developments and findings in lexicographical research. It combines the best features of monolingual and bilingual dictionaries as well as learner dictionaries. Every sense of a word is first fully explained and then provided with translation equivalents. The grammatical behaviour of the words, their construction patterns are described in a language that is clear and easy to understand. Every sense of a word, every construction pattern is illustrated with an example. These example sentences are given in English and German so that the word looked up is shown in actual use and the translation guarantees its

understanding and promotes retention. Special care is taken to explain differences between English and German in language use and culture. A new reader-friendly layout ensures that users will easily and speedily find the answer to what they want to know.

Teaching English for Tourism initiates a sustained academic discussion on the teaching and learning of English to tourism professionals, or to students who aspire to build a career in the tourism industry.

Responding to a gap in the field, this is the first book of its kind to explore the implications of research in English for tourism (Eft) within the field of English for specific purposes. This edited volume brings together teachers and researchers of Eft from diverse national and institutional contexts, focusing on connecting current research in Eft contexts to classroom implications. It considers a wide range of themes related to

the teaching of Eft, including theoretical concepts, methodological frameworks, and specific teaching methods. The book explores topics relating to the impact of changing technologies, the need for cultural understanding, and support for writing development, among others. Teaching English for Tourism explores this growing area of English for specific purposes and allows for researchers and practitioners to share their findings in an academic context. This unique book is ideal reading for researchers, post-graduate students, and professionals working in the fields of English language teaching and learning.

Teaching English as a

Foreign Language

Walter de Gruyter
This two volume handbook provides a comprehensive examination of policy, practice, research and theory related to English Language Teaching in international contexts. More than 70 chapters highlight the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second language acquisition and pedagogy. The Handbook provides a unique resource for policy makers, educational administrators, and researchers concerned with meeting the increasing demand for effective English language teaching. It offers a strongly socio-

cultural view of language learning and teaching. It is comprehensive and global in perspective with a range of fresh new voices in English language teaching research.

English

Walter de Gruyter GmbH & Co KG
Black South African English, the variety of English used by mother-tongue speakers of South

Africa's indigenous languages, has received considerable attention during the last two decades. However, so far most of the accounts of this variety have been only qualitative in nature. This book reports on one of the first studies offering extensive quantitative analyses of four typical features of Black South African English grammar: omission of past tense marking, extended use of the progressive aspect, article omission, and use of left dislocation. Drawing on a corpus of spoken data, the study's focus lies on the investigation of the stability of the selected features and hence aims to ascertain which of these are characteristic of Black South African English

as a whole. Speakers exhibiting differing levels of competence in English are compared. It is shown that the analysed features are used by speakers of Black South African English regardless of their proficiency level, but, at the same time, there are considerable differences concerning the frequency of occurrence of these features.

Teaching English in the Primary School GRIN Verlag

An increasing number of multilingual students, often with a migration background, are attending elementary schools in Germany these days. Also on the rise is the number of schools offering a bilingual program, where content subjects such

as science and mathematics are taught in a foreign language. This book explores minority and majority language students' German and English reading and writing skills in elementary schools which offer either regular English-as-subject lessons or bilingual programs with varying degrees of English intensity. The focus is on effects of foreign language input intensity with respect to students' language background, gender, cognitive abilities, and socio-economic background. This book also provides recommendations for English reading and writing activities in the elementary school classroom.

The Many Faces of English -ing Brill

Archive

This volume documents international, national, and small-scale testing and assessment projects of English language education for young learners, across a range of educational contexts. It covers three main areas: age-appropriate 'can do statements' and task types for teaching and testing learners between the ages of 6 to 13; innovative approaches to self-assessment, diagnostic testing, self-perception, and computer-based testing; and findings on how young learners perform on vocabulary, listening, speaking, pronunciation, and reading comprehension tests in European and Asian contexts. Early language learning has

become a major trend in English language education around the globe. As a result of the spread of teaching English to a growing number of young children, assessment of and for learning have emerged as key issues. In line with this development, there is a clear and emerging need to make early language programs

accountable and to assess both the progress children make over time and to quantify their achievement at various stages of development. This volume informs stakeholders about the realistic goals of early language learning, their efficiency, and how much progress children make over time.
