A suspenseful story about the dangers of unknowingly revealing our most intimate thoughts and actions online. What happens when a naive intern is granted unfettered access to people's most private thoughts and actions? Stephen Thorpe lands a coveted internship at Ubatoo, an Internet empire that provides its users with popular online services, from a search engine and e-mail, to social networking. When Stephen's boss asks him to work on a project with the American Coalition for Civil Liberties, Stephen innocently obliges, believing he is mining Ubatoo's vast databases to protect people unfairly targeted in the name of national security. But nothing is as it

seems. Suspicious individuals surface, doing all they can to access Ubatoo's wealth of confidential information. This need not require technical wizardry—simply knowing how to manipulate a well-intentioned intern may be enough. *The Silicon Jungle* is a cautionary fictional tale of data mining's promise and peril. Baluja raises ethical questions about contemporary technological innovations, and how minute details can be routinely pieced together into rich profiles that reveal our habits, goals, and secret desires—all ready to be exploited.

The #1 New York Times bestselling author of the *Black Dagger Brotherhood* delivers the first novel in an enthralling new series set amid the shifting dynamics of a Southern family defined by wealth and privilege—and compromised by secrets, deceit, and scandal.... For generations, the Bradford family has worn the mantle of kings of the bourbon capital of the world. Their sustained wealth has afforded them prestige and privilege—as well as a hard-won division of class on their sprawling estate, Easterly.

Upstairs, a dynasty that by all appearances plays by the rules of good fortune and good taste. Downstairs, the staff who work tirelessly to maintain the impeccable Bradford facade. And never the twain shall meet. For Lizzie King, Easterly's head gardener, crossing that divide nearly ruined her life. Falling in love with Tulane, the prodigal son of the bourbon dynasty, was nothing that she intended or wanted—and their bitter breakup only served to prove her instincts were right. Now, after two years of staying away, Tulane is finally coming home again, and he is bringing the past with him. No one will be left unmarked: not Tulane's beautiful and

ruthless wife; not his older brother, whose bitterness and bad blood know no bounds; and especially not the ironfisted Bradford patriarch, a man with few morals, fewer scruples, and many, many terrible secrets. As family tensions—professional and intimately private—ignite, Easterly and all its inhabitants are thrown into the grips of an irrevocable transformation, and only the cunning will survive.

The Iron Knight Feiwel & Friends

The sleepy community of Brewster, Rhode Island, is just like any other small American town. It’s a place where most of the population will likely die blocks from where they were born; where gossip spreads like wildfire, and the big

entertainment on weekends is the inevitable fight at the local bar. But recently, something out of the ordinary—perhaps even supernatural—has been stirring in Brewster. While packs of coyotes gather on back roads and the news spreads that a baby has been stolen from Memorial Hospital (and replaced in its bassinet by a snake), a series of inexplicably violent acts begins to confound Detective Woody Potter and the local police—and inspire terror in the hearts and minds of the locals. From award-winning author Stephen Dobyns comes a sardonic yet chillingly suspenseful novel: the literary equivalent of a Richard Russo small-town tableau crossed

with a Stephen King thriller. The Burn Palace is a darkly funny, twisted portrait of chaos and paranoia, with an impressive host of richly rendered, larger-than-life characters and a thrilling plot that will keep readers guessing until the final pages.

Ingeborg Bachmann (1926-1973) is recognized as one of post-war German literature's most important novelists, poets, and playwrights. Influenced by Hans Weigel and the legendary literary circle Gruppe 47, Bachmann gained international renown for her poems, short stories, and novels, and won numerous awards for her work. Sadly, her life ended abruptly in October of 1973 when a lit cigarette burned down her apartment causing Bachmann to suffer severe burns that would eventually prove fatal. The author was only forty-seven, and her tragic death left what could have been a long and lustrous writing career regretfully stunted.

Nearly twenty years after her death, during an estate sale in Vienna, fifteen episodes of the popular Viennese radio drama The Radio Family were discovered. Remarkably, they happened to be written by Ingeborg Bachmann herself, who had been a writer on the show just after she graduated university. The Radio Family was a popular radio soap opera broadcast in the American sector of occupied Vienna in the 1950s. The program focused on a middle-class Viennese family and their everyday life. Topics ranged from birthday parties and holiday plans to profiteering and currency fraud in the commercial sector, and Austrians' involvement in the Nazi past. All

fifteen scripts have now been compiled and masterfully translated, revealing an early and significant piece of Bachmann's body of work, while simultaneously offering a rare glimpse into Vienna's quotidian history.

*The Woman Before Me*

Simon and Schuster

This book examines consumer behavior using the "life course" paradigm, a multidisciplinary framework for studying people's lives, structural contexts, and social change. It contributes to marketing research by providing new insights into the study of consumer behavior and illustrating how to apply the life course paradigm's concepts and theoretical perspectives to study consumer topics in an innovative way. Although a growing

number of marketing researchers, either implicitly or explicitly, subscribe to life course perspectives for studying a variety of consumer behaviors, their efforts have been limited due to a lack of theories and methods that would help them study consumers over the lifecycle. When studying consumers over their lifespan, researchers examine differences in the consumer behaviors of various age groups (e.g., children, baby boomers, elderly, etc.) or family life stages (e.g., bachelors, full nesters, empty nesters, etc.), inferring that consumer behavior changes over time or linking consumption behaviors to previous experiences and future expectations. Such

efforts, however, have yet to benefit from an interdisciplinary research approach. This book fills this gap in consumer research by informing readers about the differences between some of the most commonly used models for studying consumers over their lifespan and the life course paradigm, and providing implications for research, public policy, and marketing practice. Presenting applications of the life course approach in such research topics as decision making, maladaptive behaviors (e.g., compulsive buying, binge eating), consumer well-being, and cognitive decline, this book is beneficial for students, scholars, professors, practitioners, and policy makers in

consumer behavior,  
consumer research,  
consumer psychology,  
and marketing  
research.
