As the "Boat Doctor" in Boating magazine, Allen Berrien helped two generations of readers keep their boats alive and well. Now his practical know-how and wisdom is collected in Powerboat Care and Repair, the only book that focuses on do-it-yourself maintenance and repair of small powerboats. Berrien provides tips on how to avoid and solve a host of common problems, such as electrolysis, pitted gelcoat, and battery failures. He also offers step-by-step guidance on spring commissioning and winterizing; inboard, outboard, and stern drive engine troubleshooting; exterior

maintenance; emergency preparedness; and much more.

Boating DIANE Publishing

This very practical book begins by describing how the various parts of both marine diesel and gasoline engines work. It then goes on to show the basic service maintenance necessary for both the general running and winter layup, and pinpoints common faults and suggests remedies.
