EMMALEE BAKER

Reality and Illusion Little, Brown Books for Young Readers

Skin color and skin tone has historically played a significant role in determining the life chances of African Americans and other people of color. It has also been important to our understanding of race and the processes of racialization. But what does the relationship between skin tone and stratification outcomes mean? Is skin tone correlated with stratification outcomes because people with darker complexions experience more discrimination than those of the same race with lighter complexions? Is skin tone differentiation a process that operates external to communities of color and is then imposed on people of color? Or, is skin tone discrimination an internally driven process that is actively aided and abetted by members of communities of color themselves? *Color Struck* provides answers to these questions. In addition, it addresses issues such as the relationship between skin tone and wealth inequality, anti-black sentiment and whiteness, Twitter culture, marriage outcomes and attitudes, gender, racial identity, civic engagement and politics at predominately White Institutions. *Color Struck* can be used as required reading for courses on race, ethnicity, religious studies, history, political science, education, mass communications, African and African American Studies, social work, and sociology.

A Story of Hope, Justice, and Freedom Seal Press

Improving education outcomes for Black students begins with resisting racist characterizations of blackness. Chezare A. Warren, a nationally recognized scholar of race and education equity, emphasizes the imperative that possibility drive efforts aimed at transforming education for Black learners. Inspired by the “freedom dreaming” of activists in the Black radical tradition, the book is comprised of nine principles that clarify how centering possibility actively refuses limitations for what Black people can create, accomplish, and achieve. This interdisciplinary volume also features over 30 original images, poems, and lyrics by Black artists from around the United States, each helping to breathe new life into the concept of possibility and its relevance to remaking Black children’s experience of school. Warren draws on research in history, cultural studies, and sociology to cast a vision of Black education futures unencumbered by antiblackness and white supremacy. This justice-oriented text will inspire innovative solutions to eliminating harm and generating education alternatives Black students desire and deserve. **Book Features:** Describes practical, antideficit approaches to educating Black children, youth, and young adults. Focuses on productively reorienting visions, philosophies, and rationales guiding contemporary Black education transformation work. Includes relatable stories and anecdotes written in a conversational style. Filled with provocative pieces of original art by Black artists, such as paintings, drawings, photographs, mixed media, spoken word, poems, and song lyrics.

African Origin of Biological Psychiatry SUNY Press

African history reveals an early African definition of the human Melanin System as a whole body Black Melanin System that serves as the eye of the soul to produce inner vision, true spiritual consciousness, creative genius, beatific vision, to become Godlike, and to have conversation with the immortals (Ancestors). The purpose of ancient African education was to provide knowledge and development of the will of the student that allowed salvation (freedom) of the soul from the fetters (chains) of the physical body (George G. M. James, *Stolen Legacy Black Lives & Brown Freedom: Untold Histories of War, Solidarity, & Genocide* Wings Press Her story begins on a train. The year is 1956, and the Axis powers of the Third Reich and Imperial Japan rule. To commemorate their Great Victory, they host the Axis Tour: an annual motorcycle race across their conjoined continents. The prize? An audience with the highly reclusive Adolf Hitler at the Victor’s ball in Tokyo. Yael, a former death camp prisoner, has witnessed too much suffering, and the five wolves tattooed on her arm are a constant reminder of the loved ones she lost. The resistance has given Yael one goal: Win the race and kill Hitler. A survivor of painful human experimentation, Yael has the power to skinshift and must complete her mission by impersonating last year’s only female racer, Adele Wolfe. This deception becomes more difficult when Felix, Adele’s twin brother, and Luka, her former love interest, enter the race and watch Yael’s every move. But as Yael grows closer to the other competitors, can she be as ruthless as she needs to be to avoid discovery and stay true to her mission? From the author of *The Walled City* comes a fast-paced and innovative novel that will leave you breathless.

We Are Not the Same Teachers College Press

LOS ANGELES TIMES BOOK PRIZE FINALIST * NAACP IMAGE AWARD NOMINEE * A “powerful and devastating” (The Washington Post) call to free those buried alive by America’s legal system, and an inspiring true story about unwavering belief in humanity—from a gifted young lawyer and important new voice in the movement to transform the system. “An essential book for our time . . . Brittany K. Barnett is a star.”—Van Jones, CEO of REFORM Alliance, CNN Host, and New York Times bestselling author Brittany K. Barnett was only a law student when she came across the case that would change her life forever—that of Sharanda Jones, single mother, business owner, and, like Brittany, Black daughter of the rural South. A victim of America’s devastating war on drugs, Sharanda had been torn away from her young daughter and was serving a life sentence without parole—for a first-time drug offense. In Sharanda, Brittany saw haunting echoes of her own life, as the daughter of a formerly incarcerated mother. As she studied this case, a system came into focus in which widespread racial injustice forms the core of America’s addiction to incarceration. Moved by Sharanda’s plight, Brittany set to work to gain her freedom. This had never been the plan. Bright and ambitious, Brittany was a successful accountant on her way to a high-powered future in corporate law. But Sharanda’s case opened the door to a harrowing journey through the criminal justice system. By day she moved billion-dollar deals, and by night she worked pro bono to free clients in near hopeless legal battles. Ultimately, her path transformed her understanding of injustice in the courts, of genius languishing behind bars, and the very definition of freedom itself. Brittany’s riveting memoir is at once a coming-of-age story and a powerful evocation of what it takes to bring hope and justice to a system built to resist them both. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS

The Ankh Little, Brown Books for Young Readers

This book is for those on a quest to find out what diet is the best for melanin dominant individuals who are rated highest in the leading causes of disease in America. Heart disease, cancer and diabetes are wiping us out one by one and there seems to be no specific reason why from the medical community. The reason is because you have melanin and must learn how different you are from every other race.

America's Legacy of Enduring Injury and Healing Cornell University Press

African Origin of Biological Psychiatry produces data pertaining to the diagnosis of genetic predispositions of historical Blackness. World experts in science have always clashed in debating the origin of man however, a Geneticist from the University of California in Berkeley, using gene analysis, recently asserted that, “all modern races derived from an African Woman.” As far as biochemist is concerned, the genetic evidence for evolution of modern people is so conclusive that the counter arguments have no validity. For most Americans and African Americans, the study of origins has been approached from a Eurocentric worldview. The effect of this worldview on African Americans has been the development of mental slavery. King’s research brings provisions that may challenge the very existence of biological racism that European science established to control behavior. His research is in rhythm with Neely Fuller Jr’s views on African American priorities

Springer

#1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

I was born in Harare, the capital of Zimbabwe. My dad was a freedom fighter, waging war for an independent state: South Sudan. We lived in a small country town, in the deep south of Western Australia. I never knew black people could be Muslim until I met my North African friends. My mum and my dad courted illegally under the Apartheid regime. My first impression of Australia was a housing commission in the north of Tasmania. Somalis use this term, “Dhaqan Celis”. “Dhaqan” means culture and “Celis” means return. Learning to kick a football in a suburban schoolyard. Finding your feet as a young black dancer. Discovering your grandfather’s poetry. Meeting Nelson Mandela at your local church. Facing racism from those who should protect you. Dreading a visit to the hairdresser. House-hopping across the suburbs. Being too black. Not being black enough. Singing to find your soul, and then losing yourself again. Welcome to African Australia. Compiled by award-winning author Maxine Beneba Clarke, with curatorial assistance from writers Ahmed Yussuf and Magan Magan, this anthology brings together voices from the regions of Africa and the African diaspora, including the Caribbean and the Americas. Told with passion, power and poise, these are the stories of African-diaspora Australians. Contributors include Faustina Agolley, Santilla Chingaipe, Carly Findlay, Khalid Warsame, Nyadol Nyuon, Tariro Mavondo and many, many more. ‘A deeply moving and unforgettable read - there is something to learn from each page. FOUR AND A HALF STARS’ —Books+Publishing ‘A complex tapestry of stories specific in every thread and illuminating as a whole ... The wonderful strength of this anthology lies in the easily understood and the never imagined.’ —Readings ‘In the face of structural barriers to health care, education, housing and employment, the narratives in *Growing Up African* are tempered with stories of deep courage, hope, resilience and endurance.’ —The Conversation ‘*Growing Up African* in Australia is almost painfully timely. It speaks to the richness of a diaspora that is all too often deprived of its nuances ... Lively, moving, and often deeply affecting, it is an absolute must-read. FOUR AND A HALF STARS’ —The AU Review

Think Like a White Man Laurence King Publishing

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

Featuring Interracial Relationships You Should Read In 2020 One of Marie Claire's 2020 Books You Should Add to Your Reading List When a Nigerian woman falls for a man she knows will break her mother's heart, she must choose between love and her family. At twelve years old, Azere promised her dying father she would marry a Nigerian man and preserve her culture, even after immigrating to Canada. Her mother has been vigilant about helping—well forcing—her to stay within the Nigerian dating pool ever since. But when another match-made-by-mom goes wrong, Azere ends up at a bar, enjoying the company and later sharing the bed of Rafael Castellano, a man who is tall, handsome, and...white. When their one-night stand unexpectedly evolves into something serious, Azere is caught between her feelings for Rafael and the compulsive need to please her mother. Soon, Azere can't help wondering if loving Rafael makes her any less of a Nigerian. Can she be with him without compromising her identity? The answer will either cause Azere to be audacious and fight for her happiness or continue as the compliant daughter.

From acclaimed author and researcher Dr. Joy DeGruy comes this fascinating book that explores the psychological and emotional impact on African Americans after enduring the horrific Middle Passage, over 300 years of slavery, followed by continued discrimination. From the beginning of American chattel slavery in the 1500's, until the ratification of the Thirteenth Amendment in 1865, Africans were hunted like animals, captured, sold, tortured, and raped. They experienced the worst kind of physical, emotional, psychological, and spiritual abuse. Given such history, Dr. Joy DeGruy asked the question, "Isn't it likely those enslaved were severely traumatized? Furthermore, did the trauma and the effects of such horrific abuse end with the abolition of slavery?" Emancipation was followed by another hundred years of institutionalized subjugation through the enactment of Black Codes and Jim Crow laws, peonage and convict leasing, and domestic terrorism and lynching. Today the violations continue, and when combined with the crimes of the past, they result in further unmeasured injury. What do repeated traumas visited upon generation after generation of a people produce? What are the impacts of the ordeals associated with chattel slavery, and with the institutions that followed, on African Americans today? Dr. DeGruy answers these questions and more as she encourages African Americans to view their attitudes, assumptions, and emotions through the lens of history. By doing so, she argues they will gain a greater understanding of the impact centuries of slavery and oppression has had on African Americans. Post Traumatic Slave Syndrome is an important read for all Americans, as the institution of slavery has had an impact on every race and culture. "A masterpiece. [DeGruy's] deep understanding, critical analysis, and determination to illuminate core truths are essential to addressing the long-lived devastation of slavery. Her book is the balm we need to heal ourselves and our relationships. It is a gift of wholeness."—Susan Taylor, former Editorial Director of Essence magazine

"This book is a revolution! It goes way beyond the beliefs that have fueled modern pharmaceutical medicine for decades and gives you all the science you'll ever need to prove that there is another way." - Christiane Northrup, M.D., New York Times bestselling author of *Goddesses Never Age* Modern medicine and human health are at a critical crossroads, and the truth is that you and not your genes are in the driver's seat. You are the one who gets to make informed decisions on how you use and nourish the evolutionary miracle that is your body. Combining analysis of cutting-edge scientific findings with our deepest ancestral wisdom and health-promoting practices, Sayer Ji, founder of GreenMedInfo, offers a time-tested program to help prevent and manage the most common health afflictions of our day—cancer, heart disease, neurodegenerative diseases, and metabolic syndrome. Antiquated thinking and scientific dogma have long obstructed our understanding of our innate untapped potential for self-regeneration and radical healing. But the New Biology explains why biological time is not a downward spiral and how chronic illness is not inevitable when you implement nature's resiliency tools. In his thorough and thoughtful exploration of the New Biology, Sayer Ji illuminates: • the fascinating new science of food as information • the truth about cancer and heart disease screening and what real prevention looks like • how to reverse the most common forms of degeneration using food-based approaches • how the body extracts energy from sources other than food, including water and melanin; and • how to make sense of conflicting dietary recommendations and out-of-date food philosophies Encoded within every tissue of your body is your ability to regenerate. Unlock your radical resiliency through this roadmap for diet, exercise, stress reduction, and the cultivation of the environment in which you choose to live.

Post Traumatic Slave Syndrome Eworld

An urgent account of sexual politics, feminism, and the rules of power in America—and a potent vision for the way forward As a veteran feminist and agenda-setting sex educator, Jaclyn Friedman is on the frontlines of the war for equity between the sexes. In *Unscrewed*, Friedman brings her sharp

expertise and incisive observations on the state of sexual politics to the fore, sparking a culture-wide rethink about sex, power and what we accept. With reportage and verve, *Unscrewed* builds a searing investigation into the state of sexual power in America, and outlines how to make real progress toward equality. Friedman reveals that the anxiety and fear women in our country feel around issues of their sexuality are not, in fact, their fault, but instead are side effects of what she calls our "era of fauxpowerment," wherein women have the illusion of sexual power, with no actual power to support it. Exploring the fault lines where media, religion, politics, and education impinge on our intimate lives, *Unscrewed* breaks down the causes and signs of fauxpowerment, then gives readers tools to take it on themselves.

[The Power of Melanin in the Brain](#) Simon and Schuster

Ever since nature and consciousness were separated in the late Middle Ages, giving rise to a science of matter alone, the spiritual beings who are the universe have felt abandoned and unable to complete their work, for this work depends for its success on human collaboration. At the same time, human beings have also felt abandoned, condemned to a speck of dust in an infinitely decaying universe. In these remarkable lectures, Rudolf Steiner reestablishes the human being as a participant in an evolving, dynamic universe of living spiritual beings: a living universe, whole and divine. And he does so in concrete images, capable of being grasped by human consciousness as if from within. How is this possible? Implicit in Rudolf Steiner's view is the fact that, fundamentally, the universe consists of consciousness. Everything else is illusion. Hence to understand the evolution of the cosmos and humanity in any terms other than consciousness is also illusion. Whenever we have to do with mighty cosmic facts, we have to do with states of consciousness. But states of consciousness never exist apart from the beings who embody them. Therefore, the only true realities are beings in different states of consciousness. In this sense, Rudolf Steiner's spiritual science is a science of states of consciousness and the beings who embody them. Indeed, rightly considered, all science—physics, chemistry, botany, zoology, geology, psychology, astronomy, etc.—is a science of beings. And the sensory perception, the physical trace, is but the outer vestment of the activity of beings in different states of consciousness. To describe these beings, Steiner uses the names made familiar by the wisdom tradition of the West. He speaks of the evolutionary states of Saturn, Sun, Moon, Earth, Jupiter, Venus, and Vulcan; and the nine "choirs" of angels (Seraphim, Cherubim, and Thrones; Dominions, Virtues, and Powers; Principalities, Archangels, and Angels); as well as of elemental beings and nature spirits; and the elements of fire, earth, air, and water.

Black Like Me Simon and Schuster

"Meticulously researched and beautifully crafted.... This is glorious work." — Washington Post "A gripping, deeply relevant book." — New York Times Book Review From Paulette Jiles, author of the critically acclaimed New York Times bestsellers *Enemy Women* and *Stormy Weather*, comes a stirring work of fiction set on the untamed Texas frontier in the aftermath of the Civil War. One of only twelve books longlisted for the 2009 Scotiabank Giller Prize—one of Canada's most prestigious literary awards—*The Color of Lightning* is a beautifully rendered and unforgettable re-examination of one of the darkest periods in U.S. history.

[A Key to Freedom, with an Extensive Glossary & Bibliography](#) Penguin Books

The first book to examine the spiritual and therapeutic practice of retreat in physical darkness to explore inner light • Shows how experiencing complete darkness over prolonged periods helps in developing mental clarity and creativity • Draws upon many indigenous and spiritual traditions that use this technique The use of ceremonial darkness is a classic and cross-cultural method for exploring hidden aspects of unconscious and super-conscious states, accessing invisible landscapes, and embracing the deeper recesses of the self. In *Darkness Visible* Heaven and Buxton examine the spiritual and therapeutic practice of taking retreat in physical darkness. For millennia mystics and sages have used darkness as a spiritual tool for breaking with their pasts, prior conditioning, and the limited reality of their societies. Spiritual seekers from many traditions—Celtic, Eastern, indigenous North and South American, Tibetan, and African—have used darkness as a tool for spiritual enlightenment. Heaven and Buxton show how experiencing complete darkness, even for only a period of hours, brings about a remarkable clarity and mental stillness and thus provides a springboard for creativity, intuition, and spiritual development. They include exercises that explore lucid levels of dream consciousness, drawing both from their experience as teachers of this method and from the many cultures that include this practice in their spiritual traditions. *Darkness Visible* shows how deprivation of sight can truly teach us to see.
