Sometimes she has to wonder if the career she has put ahead of her personal life for fifteen years is worth it. When Kelly receives a gift subscription to the dating service that's rumored to be powered by the same benevolent artificial intelligence that runs the huge station, she decides to swallow her pride and give it a shot. But as her dates go from bad to worse, she can only hope that the supposedly omniscient AI is planning a happy ending.

IN 1945, FORTUNE MAGAZINE named Betty Crocker the second most popular American woman, right behind Eleanor

Roosevelt, and dubbed Betty America's First Lady of Food. Not bad for a gal who never actually existed. "Born" in 1921 in Minneapolis, Minnesota, to proud corporate parents, Betty Crocker has grown, over eight decades, into one of the most successful branding campaigns the world has ever known. Now, at long last, she has her own biography. Finding Betty Crocker draws on six years of research plus an unprecedented look into the General Mills archives to reveal how a fictitious spokesperson was enthusiastically welcomed into kitchens and shopping carts across the nation. The Washburn Crosby Company (one of the forerunners to General Mills) chose the cheery all-American "Betty" as a first name and paired it with Crocker, after William Crocker, a well-loved company

director. Betty was to be the newest member of the Home Service Department, where she would be a "friend" to consumers in search of advice on baking -- and, in an unexpected twist, their personal lives. Soon Betty Crocker had her own national radio show, which, during the Great Depression and World War II, broadcast money-saving recipes, rationing tips, and messages of hope. Over 700,000 women joined Betty's wartime Home Legion program, while more than one million women -- and men -- registered for the Betty Crocker Cooking School of the Air during its twenty-seven-year run. At the height of Betty Crocker's popularity in the 1940s, she received as many as four to five thousand letters daily, care of General Mills. When her first full-scale cookbook,

Betty Crocker's Picture Cook Book, or "Big Red," as it is affectionately known, was released in 1950, first-year sales rivaled those of the Bible. Today, over two hundred products bear her name, along with thousands of recipe booklets and cookbooks, an interactive website, and a newspaper column. What is it about Betty? In answering the question of why everyone was buying what she was selling, author Susan Marks offers an entertaining, charming, and utterly unique look -- through words and images -- at an American icon situated between profound symbolism and classic kitchen kitsch.

Decorating with Funky Shui encourages you to dig out all those wild and crazy pieces you've been hiding. So c'mon, gather up all those snow globes and let the disco ball sparkle in your living room.

Let your rooms tell people who you really are-if you dare. Your home should be a reflection of your own personality, not a hodgepodge of mass-produced whatnots from a "big-box" chain retail store. Inspired by the popular Chinese art of feng shui, this lighthearted book takes you through the "Fun-damentals," the four directions to make your house yours, all yours: Find the playful center of the room: It can be a random garage-sale treasure, that cool mannequin you didn't think you could find a place for, or the tarnished tuba you inherited from Grandpa. That one goofy, unusual, or chic conversation piece can become the star of your room. Brighten up with color: Not everything has to match your boring beige sofa. Rooms without color lack flavor. Enlighten up: Fun, dynamic

lighting can brighten a room in more ways than one. Candles add coziness; Christmas lights sparkle year-round. A string of hot-pepper lights can spice up a cool room. Abundance through abundance: The souvenirs you pick up during road trips. Your collection of vintage milk-bottle caps. All the Pez dispensers you can't bear to part with. If you've got 'em, flaunt 'em. Artfully display your collections-whatever they may be-to show them off. Decorating with Funky Shui encourages you to stretch your imagination to find a style that's uniquely you.

Amped Perigee Books

The Taste of Art offers a sample of scholarly essays that examine the role of food in Western contemporary art practices. The contributors are scholars

from a range of disciplines, including art history, philosophy, film studies, and history. As a whole, the volume illustrates how artists engage with food as matter and process in order to explore alternative aesthetic strategies and indicate countercultural shifts in society. The collection opens by exploring the theoretical intersections of art and food, food art's historical root in Futurism, and the ways in which food carries gendered meaning in popular film. Subsequent sections analyze the ways in which artists challenge mainstream ideas through food in a variety of scenarios. Beginning from a focus on the body and subjectivity, the authors zoom out to look at the domestic sphere, and finally the public sphere. Here are essays that study a range of

artists including, among others, Filippo Tommaso Marinetti, Daniel Spoerri, Dieter Roth, Joseph Beuys, Al Ruppertsberg, Alison Knowles, Martha Rosler, Robin Weltsch, Vicki Hodgetts, Paul McCarthy, Luciano Fabro, Carries Mae Weems, Peter Fischli and David Weiss, Janine Antoni, Elżbieta Jabłońska, Liza Lou, Tom Marioni, Rirkrit Tiravanija, Michael Rakowitz, and Natalie Jeremijenko.

"It's fun, it's retro?and it's back in style. Take a fond look back at the kitschy crafts of the 40s, 50s, 60s, 70s, and 80s, from crocheted doilies to shell-art nightlights. All these nostalgic creations appear in appropriately fashioned period settings that will captivate browsers, and come with instructions for those who just can't resist creating their own string-art pictures, pink flamingo items, far-out tie dyes, kooky candles, macrame; plant hangers, and the one-time must-have on every coffee table: a resin-cast grape cluster. And, of course, who can live

without the hottest toy of all? The Sock Monkey Doll. Everyone will have a blast poring over these?even those who have never made a craft in their lives"-- Publisher's description.

Union Station Omnibus: Books 11 - 15 Weldon Owen International

Tenth anniversary omnibus collects the first five books of the EarthCent Ambassador series. Get on board with Union Station's vibrant mix of cultures, technological wonders, and hilarious interspecies misunderstandings. Each book is a standalone adventure, packed with humor, heart, and optimism for humanity's future. Book One Alien artificial intelligence has brought humanity onto a galactic tunnel network

Finding a match for the top human diplomat on Union Station is another story... Kelly Frank is EarthCent's top diplomat on Union Station, but her job description has always been a bit vague. The pay is horrible and she's in hock up to her ears for her furniture, which is likely to end up in a corridor because she's behind on rent for her room. But as her dates go from bad to worse, she can only hope that the supposedly omniscient AI is

planning a happy ending. Book Two The alien diplomats are finally willing to talk to the ambassador. They must want something. Five years after her promotion, Kelly has settled into married life and her job as the EarthCent ambassador. The only fly in the ointment is that most of the aliens on Union Station refuse to talk to her. But a mysterious new game is sweeping the galaxy, changing the balance of power between species and bringing game-savvy humans front-and-center. As the invitations to diplomatic functions pour in, Kelly finds herself struggling to understand exactly what's going on, not to mention finding babysitters on short notice. Fortunately, diplomats and alcohol go together like, well, diplomats and alcohol, and Joe has started micro-

brewery business in Mac's Bones. The only thing left that could go wrong is a visit from her mother. Book Three A wealthy alien species is getting rid of all their stuff. There's only one catch. Two years after the events of Alien Night on Union Station, Kelly faces new challenges as the EarthCent Ambassador. The growing acceptance of humans by their alien neighbors plus a measure of her own personal fame (or infamy) is resulting in too much work for an embassy with only two full-time staffers. Friends and family must wonder if the stress is finally getting to Kelly when she starts acting even more peculiar than usual. Just leave it to the Stryx to throw a monkey wrench in the works by offering her a vital new assignment that can't be refused. Book

Four Humanity needs a galactic intelligence agency, but where to start? The story picks up less than a year after the events of High Priest on Union Station, with Kelly coming to the conclusion that EarthCent needs an intelligence service. Of course, EarthCent has no institutional knowledge of what spies do, or how they work, so the new agency gets off to a slow start. Then Kelly and the Union Station crew come up with a brilliant idea. Book Five It's time for a friendly competition, and every species picks its own event. The first carnival to take place on Union Station since humanity joined the galactic community is coming, and the ambassadors of the different species are all entered in the election to become Carnival King or Queen. It's not a job

that Kelly wants, and fortunately for her, the humans get a late start at electioneering. The cloned species known as the Gem are held in even lower regard than humans, but maybe carnival will give them a chance to redeem themselves - or herself:-)
