Anthony Lane on Con Air— “Advance word on Con Air said that it was all about an airplane with an unusually dangerous and potentially lethal load. Big deal. You should try the lunches they serve out of Newark. Compared with the chicken napalm I ate on my last flight, the men in Con Air are about as dangerous as balloons.”

Anthony Lane on The Bridges of Madison County— “I got my copy at the airport, behind a guy who was buying Playboy’s Book of Lingerie, and I think he had the better deal. He certainly looked happy with his purchase, whereas I had to ask for a paper bag.” Anthony Lane on Martha Stewart— “Super-skilled, free of fear, the last word in human efficiency, Martha Stewart is the woman who convinced a million Americans that they have the time, the means, the

right, and—damn it—the duty to pipe a little squirt of soft cheese into the middle of a snow pea, and to continue piping until there are ‘fifty to sixty’ stuffed peas raring to go.” For ten years, Anthony Lane has delighted New Yorker readers with his film reviews, book reviews, and profiles that range from Buster Keaton to Vladimir Nabokov to Ernest Shackleton. Nobody’s Perfect is an unforgettable collection of Lane’s trademark wit, satire, and insight that will satisfy both the long

addicted and the not so familiar.

Offers new and compelling perspectives on the deeply moral nature of Hitchcock's films. In his essays and interviews, Alfred Hitchcock was guarded about substantive matters of morality, preferring instead to focus on

discussions of technique. That has not, however, discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty, fidelity, jealousy, courage, love, and loyalty. Through discussions and analyses of such films as *Strangers on a Train*, *Rear Window*, *Vertigo*, *North by Northwest*, and *Frenzy*, the contributors to this book strive to throw light on the way Hitchcock depicts a moral—if not amoral or immoral—world. Drawing

on perspectives from film studies, philosophy, literature, and other disciplines, they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema. A spirited collection of stories revealing the extremes of the human experience from the author of *The Ice Storm* In his first story collection, Rick Moody provides readers with a poignant, brazenly honest glimpse into the lives of a wide array of characters, from a paranoid husband obsessively listening in on

his wife's phone calls to the junkies and sex addicts of New York City's underworld. Whether they're grasping for connection or struggling to survive in a dismal and indifferent environment, these individuals' haunting voices and the evocative worlds they inhabit make for a diverse and powerful volume. Experimenting with form—one story is told as a term paper, another as an annotated bibliography—Moody demonstrates the vast range of his fascinations

and talents, as well as his arresting command of language. Candid depictions of contemporary society and the inner-workings of distinctive characters' minds bring these inquisitive, heartrending, and at times undeniably funny accounts to life. This ebook features an illustrated biography of Rick Moody including rare images from the author's personal collection. With the release of *Avatar* in December 2009, James Cameron cements his reputation as king of sci-fi and blockbuster

filmmaking. It's a distinction he's long been building, through a directing career that includes such cinematic landmarks as *The Terminator*, *Aliens*, *The Abyss*, and the highest grossing movie of all time, *Titanic*. *The Futurist* is the first in-depth look at every aspect of this audacious creative genius—culminating in an exclusive behind-the-scenes glimpse of the making of *Avatar*, the movie that promises to utterly transform the way motion pictures are

created and perceived. As decisive a break with the past as the transition from silents to talkies, *Avatar* pushes 3-D, live action, and photo-realistic CGI to a new level. It rips through the emotional barrier of the screen to transport the audience to a fabulous new virtual world. With cooperation from the often reclusive Cameron, author Rebecca Keegan has crafted a singularly revealing portrait of the director's life and work. We meet the young truck driver who sees *Star Wars* and

sets out to learn how to make even better movies himself—starting by taking apart the first 35mm camera he rented to see how it works. We observe the neophyte director deciding over lunch with Arnold Schwarzenegger that the ex-body builder turned actor is wrong in every way for the Terminator role as written, but perfect regardless. After the success of *The Terminator*, Cameron refines his special-effects wizardry with a big-time Hollywood budget in the

creation of the relentlessly exciting *Aliens*. He builds an immense underwater set for *The Abyss* in the massive containment vessel of an abandoned nuclear power plant—where he pushes his scuba-breathing cast to and sometimes past their physical and emotional breaking points (including a white rat that Cameron saved from drowning by performing CPR). And on the set of *Titanic*, the director struggles to stay in charge when someone

maliciously spikes craft services' mussel chowder with a massive dose of PCP, rendering most of the cast and crew temporarily psychotic. Now, after his movies have earned over \$5 billion at the box office, James Cameron is astounding the world with the most expensive, innovative, and ambitious movie of his career. For decades the moviemaker has been ready to tell the *Avatar* story but was forced to hold off his ambitions until technology caught up with his vision.

Going beyond the technical ingenuity and narrative power that Cameron has long demonstrated, *Avatar* shatters old cinematic paradigms and ushers in a new era of storytelling. *The Futurist* is the story of the man who finally brought movies into the twenty-first century. *Mrs. Warren's Profession* Farrar, Straus and Giroux When Harold Ross founded *The New Yorker* in 1925, he called it a “comic weekly.” And although it has become much more than that, it

has remained true in its irreverent heart to the founder’s description, publishing the most illustrious literary humorists in the modern era—among them Robert Benchley, Dorothy Parker, Groucho Marx, James Thurber, S. J. Perelman, Mike Nichols, Woody Allen, Calvin Trillin, Garrison Keillor, Ian Frazier, Roy Blount, Jr., Steve Martin, and Christopher Buckley. *Fierce Pajamas* is a treasury of laughter from the magazine *W. hilarious, *The Dud Avocado* gained instant cult status when it was first published and it remains a timeless portrait of a woman hell-bent on living. Reality and fantasy collide with shocking results in this riveting account of the notorious case of Mark Twitchell - and the police investigation into one of the most bizarre murders in recent memory. In October 2008, Johnny Altinger, a 38-year-old Edmonton man, was on his way to a tryst with a woman he had met on an online dating website when he emailed the directions to their rendezvous to a concerned friend. He was

never seen again. Two weeks before Altinger's disappearance, independent filmmaker Mark Twitchell began shooting a low-budget horror film about a serial killer who impersonates a woman on an online dating website to lure his victims to their gruesome deaths. But these are just the starting points of the stranger-than-fiction case of Mark Twitchell, a man with a startling plan to turn his life-long love of fantasy and desire for fame into reality: - Did Twitchell, in a horrific

example of life imitating art, act out the grisly premise of his own script? - Obsessed with Dexter, the popular TV show and book series about a fictional vigilante serial killer, Twitchell assumed Dexter Morgan's profile on Facebook. But how far did he intend to take his fascination with Dexter? - Is the shocking document "S.K. Confessions" a graphic work of fiction that, as Twitchell claims, he wrote to promote his film? Or is it a diary he kept of his transformation into a killer, and proof

that the police stopped a prolific serial killer at the very beginning? Veteran journalist Steve Lillebuen provides a gripping investigative account of the nesting doll intricacies of the case, plunging us into the world of pop culture fanaticism and into the mind of a self-professed psychopath. Drawing on extensive interviews, Lillebuen illuminates what can happen when some of our culture's darkest obsessions are pushed to extremes.

A bewitching memoir about the lures, torments, and rewards of making and performing music in the indie rock world Dean Wareham's seminal bands Galaxie 500 and Luna have long been adored by a devoted cult following and extolled by rock critics. Now he brings us the blunt, heartbreaking, and wickedly charismatic account of his personal journey through the music world-the artistry and the hustle, the effortless

success and the high living, as well as the bitter pills and self-inflicted wounds. It captures, unsparingly, what has happened to the entire ecosystem of popular music over a time of

radical change, when categories such as "indie" and "alternative" meant nothing to those creating the music, but everything to the major labels willing to pay for it. Black

Postcards is a must-have for Wareham's many fans, anyone who has ever been in a band, or the listeners who have taken an interest in the indie rock scene over the last twenty years.
