Based, in part, on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of "wild" reading. "When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures." —Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* "With *Reading in the Wild*, Donalyn Miller gives educators another important book. In other words, Donalyn Miller has solved one of the central problems in language education." —Stephen Krashen, professor emeritus, University of Southern California

Learn how to put children's diverse and storied experiences at the center of the curriculum. Schools are more diverse than ever before, but the texts and materials that typify classroom curricula continue to prioritize so-called mainstream stories and perspectives. These canonical texts often exclude the nuanced identities and rich lived experiences of the very children sitting in today's classrooms. But kids thrive when they see themselves in texts and learn about the world around them by connecting with the experiences of others. Based on the authors' work with elementary school teachers over the last decade, this resource offers strategies for moving away from canonical texts. The authors present a four-part framework for selecting, using, and engaging students with texts that promote children's identity development, literacy engagement and comprehension, and learning across the content areas. The practical text provides guidance for setting learning goals that align with relevant standards and curricular directives, as well as classrooms examples, teaching strategies, and reflective questions. **Book Features**: An actionable way for teachers to move from theory to practice, using what we know about culturally relevant practice and critical literacy to create instruction that enhances children's classroom experiences and learning. Kalwant Bhopal and Patrick Danaher examine 'race', identity and gender within education and explore the difficulties of relating these concepts to the experience of students in higher education. In drawing together the experience of local and international students in the UK and in Australia, they examine the ways identities are understood and conceptualized within higher education in local contexts and on a global level. Literacy Workshop Taylor & Francis

Functional literacy, cultural literacy, and progressive literacy are just a few of the many terms one can invoke when attempting to define literacy. From a critical perspective, for a democratic society to exist, a critical literacy is of crucial importance. Critical literacy aims to empower individuals and transform society. It is grounded in critical theory and, like critical pedagogy, investigates ways in which social, cultural, racial, sexual, and economic inequalities are reproduced. By investigating the ideological, political, and social structures that perpetuate such inequalities, it hopes to raise consciousness and move towards creating a more socially just society. This book examines the approaches set forth by Atwell, Calkins, and Rief in their books, *In the Middle* (1998); *The Art of Teaching Writing* (1994); and *Seeking Diversity* (1992), respectively. This book is of relevance to teacher educators and English Language Arts teachers. It enables one to become familiar with the

main components of the Readers'/Writers' workshop and develop an awareness of how literacy may be conceptualized and reconceptualized through this approach. Teacher educators will find this text useful for raising preservice teachers' awareness of the ideologies that inform literacy education and in developing their understanding of how students are positioned socially, culturally, politically and economically by such ideologies. English Language Arts teachers will find this book informative in understanding how they can be positioned by teacher texts to teach towards certain ideologies of literacy. Finally, it allows teacher educators and English Language Arts teachers to consider what kind of literacy education is provided for through the Readers'/Writers' workshop, and whether space may be negotiated within the Readers'/Writers' workshop, for the teaching of critical literacy.

It is vital for educators to be aware of how traumatic experiences affect today's students, yet few teachers learn the tools needed to successfully teach these students. This book highlights how English Language Arts teachers, who are typically not licensed or specifically trained to work with trauma issues, can design and implement instruction that helps students see that they are supported. This book provides specific strategies for teaching literacy based on the authors' extensive knowledge and experience in trauma-sensitive instruction, adolescent literacy, and culturally responsive-sustaining pedagogies. The authors show how to support middle and high school students with specific literacy practices (reading, speaking, listening, and writing) that build resilience. *Trauma-Sensitive Literacy Instruction* is for the many teachers who are unsure how to invite students and their traumas into classroom instruction and embed critical discussions and learning within their teaching practices and pedagogy. It will help ELA teachers navigate student trauma in a way that empowers both students and teachers. Book Features: Responds to research that consistently shows how schools are often places that marginalize—and sometimes traumatize or retraumatize—children. Offers specific information related to literature, writing, discussion, and inquiry activities focused on various traumatic experiences. Provides rationales and research, along with examples, teacher vignettes, and steps for incorporating relevant practices in classrooms (grades 6–12). "In this book, ELA teachers will find actionable pedagogical practices toward the transformative teaching trauma demands and the respect, care, and support along the way that ELA educators need and deserve." —From the Foreword by Elizabeth Dutro, professor, University of Colorado Boulder

Mentor Texts John Wiley & Sons

In their first edition of *Mentor Texts*, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. In *Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition* the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the

gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four "Getting Ready" sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens.
