With the proclamation of the Armistice, the whole territory that included Friuli-Venezia Giulia, the Provinces of Ljubljana and Istria, considered of vital importance for the communication lines and for the supply of the German Army in Italy, was absorbed by the Reich, under the jurisdictional form of the so-called Zone of Operations of the Adriatic Coast (O.Z.A.K.). The government of the R.S.I. attempted to restore its authority in the O.Z.A.K. even in the military field, but German interference was always fierce. The reconstituted Legions of the M.V.S.N. were prevented to join the G.N.R. and the Germans imposed on these units the denomination of Territorial Defense Militia (Milizia Difesa Territoriale M.D.T.), formally part of the G.N.R., but autonomous in the reality. The M.D.T. was configured as a "Landschutz", that is a defense unit of the territory. In parallel, the Prefect Cocceani and the Podestà Pagnini promoted the establishment of a self-defense unit, the Civic Guard, in Trieste, an example followed in other cities in the region.

Army Techniques Publication ATP 3-57.70 Civil-Military Operations Center May 2014 provides techniques for Civil Affairs operations (CAO) planning, training, and execution of doctrinal guidance for commanders and their staff and for leaders who are responsible for establishing a civil-military operations center (CMOC) to conduct CAO. These doctrinal principles are intended

to be used as a guide and are not to be considered prescriptive. This manual portrays a framework in which a CMOC supports commands from the tactical to strategic level. This publication includes doctrine discussions that are applicable to all Civil Affairs (CA) units supporting the ever-changing civil component of the operational environment (OE). The CMOC provides supported commanders with the control instrument that plans CAO. It assists commands with coordination of civil-military operations (CMO) by providing cultural awareness military-to-host nation (HN) advisory activities and civilian professional skills that parallel governmental functions facilitating stability-oriented unified land operations. Joint operations recognize that military forces alone are not the only actors in an OE. Commanders must leverage the interests and capabilities of the civil component to achieve unified action. Unified land operations are conducted to synchronize, coordinate, and integrate the activities of governmental and nongovernmental entities to achieve unity of effort. The CMOC is the doctrinal solution that facilitates unity of effort during unified land operations between the civil environment and military forces conducting operations within a given area of operations (AO). The Army conducts unified land operations. Unified land operations represent the Army's contribution to joint operations and the requirement to achieve unified action. This publication is a new publication that illustrates techniques that Army CA forces utilize to establish a CMOC in order to integrate, coordinate, and/or synchronize with unified action partners. CA forces support the manning of a CMOC at all Army echelons from BCT to combatant command. Chapter 1 describes how CA forces form a CMOC to support unified land operations and the decisive action necessary to successfully achieve unity of effort. Stability as one component of decisive action is specifically emphasized because stability is the culmination of offensive and defensive tasks. The CMOC has its greatest impact when supporting stability tasks. Chapter 2 explains how the CMOC is designed to support mission command by reducing the command post's (CP's) scope of responsibility and synchronizing, integrating, and/or coordinating with governmental and nongovernmental organizations (NGOs), as well as indigenous populations and institutions (IPI). The CMOC helps develop the commander's situational understanding by integrating civil information with the joint information preparation of the environment. Chapter 3 depicts how the CMOC executes the operations process as it pertains to achieving unified action with the civil component. Chapter 4 explains the civil information functions of the CMOC that enhance the commander's common operational picture (COP). Chapter 5 explains the support relationships that exist from BCT to theater Army, as well as with joint forces. Chapter 6 explains the table of organization and equipment composition of the CMOC found in the CA company through the CACOM. Chapter 7 illustrates conceptually how the CMOC operates by protecting itself, achieving internal mobility, and communicating with its supported HQ and unified action

partners.

The contents of Number 6 (Apr. 2014) include scholarly articles and student research, as well as as the extensive, annual survey of Developments in the Law. This year's subject is SEXUAL ORIENTATION AND GENDER IDENTITY. Topics include "Pro-Gay and Anti-Gay Speech in Schools," "Transgender Youth and Access to Gendered Spaces in Education," "Classification and Housing of Transgender Inmates in American Prisons," "Animus and Sexual Regulation," and "Progress Where You Might Least Expect It: The Military's Repeal of 'Don't Ask, Don't Tell.'" Each year, the special Developments issue serves, in effect, as a new and detailed book on a cutting-edge legal subject. The issue also includes an article by Jill C. Anderson, "Misreading Like a Lawyer: Cognitive Bias in Statutory Interpretation," and an article by Ryan Bubb & Richard H. Pildes, "How Behavioral Economics Trims Its Sails and Why." In addition, student case notes explore Recent Cases on such diverse subjects as false advertising by disseminating scientific literature, free speech rights of professors in public universities, voter identification laws, sentencing by imposing the condition of penile plethysmography, aiding and abetting violations in international law, and whether intercepting unencrypted wi-fi violates the Wiretap Act. A further student work explores the recent administrative policy of the Social Security Administration's eliminating a surgical requirement for changing trans individuals' gender designation, and another explores a recent administration white paper on national security and whether bulk metadata collection violates the USA PATRIOT Act. Finally, the issue features several summaries of Recent Publications. The Harvard Law Review is offered in a quality digital edition, featuring active Contents, linked notes, active URLs in notes, and proper ebook and Bluebook formatting. The contents of Number 6 (Apr. 2014) include scholarly essays by leading academic figures, as well as substantial student research. The Review is a student-run organization whose primary purpose is to publish a journal of legal scholarship. The organization is formally independent of the Harvard Law School. Student editors make all editorial and organizational decisions.

Sexual Assault and Sexual Harassment in the U.S. Military Rand Corporation

"While much has been written about the role of caregiving for the elderly and chronically ill and for children with special needs, little is known about "military caregivers" -- the population of those who care for wounded, ill, and injured military personnel and veterans. These caregivers play an essential role in caring for injured or wounded service members and veterans. This enables those for whom they are caring to live better quality lives, and can result in faster and improved rehabilitation and recovery. Yet playing this role can impose a substantial physical, emotional, and financial toll on caregivers. This report summarizes the results of a study designed to describe the magnitude of military caregiving in the United States today, as well as to identify gaps in the array of programs, policies, and initiatives designed to support military caregivers. Improving military caregivers' well-being and ensuring their continued ability to provide care will require multifaceted approaches to reducing the current burdens caregiving may impose, and bolstering their ability to serve as caregivers more effectively. Given the systematic differences among military caregiver groups, it is also important that tailored approaches meet the unique needs and characteristics of post-9/11 caregivers."--Abstract

This report lists hundreds of instances in which the United States has used its Armed Forces abroad in situations of military conflict or potential conflict or for other than normal peacetime purposes. It was compiled in part from various older lists and is intended primarily to provide a rough survey of past U.S. military ventures abroad, without reference to the magnitude of the given instance noted. The listing often contains references, especially from 1980 forward, to continuing military deployments, especially U.S. military participation in multinational operations associated with NATO or the United Nations. Most of these post-1980 instances are summaries based on presidential reports to Congress related to the War Powers Resolution. A comprehensive commentary regarding any of the instances listed is not undertaken here. The instances differ greatly in number of forces, purpose, extent of hostilities, and legal authorization. Eleven times in its history the United States has formally declared war against foreign nations. These 11 U.S. war declarations encompassed 5 separate wars: the war with Great Britain declared in 1812; the war with Mexico declared in 1846; the war with Spain declared in 1898; the First World War, during which the United States declared war with Germany and with Austria-Hungary during 1917; and World War II, during which the United States declared war against Japan, Germany, and Italy in 1941, and against Bulgaria, Hungary, and Rumania in 1942. Some of the instances were extended military engagements that might be considered undeclared wars. These include the Undeclared Naval War with France from 1798 to 1800; the First Barbary War from 1801 to 1805; the Second Barbary War of 1815; the Korean War of 1950-1953; the Vietnam War from 1964 to 1973; the Persian Gulf War of 1991; global actions against foreign terrorists after the September 11, 2001, attacks on the United States; and the war with Iraq in 2003. With the exception of the Korean War, all of these conflicts received congressional authorization in some form short of a formal declaration of war. Other, more recent instances often involve deployment of U.S. military forces as part of a multinational operation associated with NATO or the United Nations. The majority of the instances listed prior to World War II were brief Marine or Navy actions to protect U.S. citizens or promote U.S. interests. A number were actions against pirates or bandits. Covert actions, disaster relief, and routine alliance stationing and training exercises are not included here, nor are the Civil and Revolutionary Wars and the continual use of U.S. military units in the exploration, settlement, and pacification of the western part of the United States.

This publication isn't intended to cover bankruptcy law in general, or to provide detailed discussions of the tax rules for the more complex corporate bankruptcy reorganizations or other highly technical transactions. Additionally, this publication isn't updated on an annual basis and may not reflect recent developments in bankruptcy or tax law. If you need more guidance on the bankruptcy or tax laws applicable to your case, you should seek professional advice. This publication explains the basic federal income tax aspects of bankruptcy. A fundamental goal of the bankruptcy laws enacted by Congress is to give an honest debtor a financial "fresh start". This is accomplished through the bankruptcy discharge, which is a permanent injunction (court-ordered prohibition) against the collection of certain debts as a personal liability of the debtor. Bankruptcy proceedings begin with the filing of either a voluntary petition in the United States Bankruptcy Court, or in certain cases an involuntary petition filed by creditors.

In this vivid first-person narrative, a Special Operations Joint Terminal Attack Controller (JTAC) and his commanding general give fascinating and detailed accounts of America's fight against one of the most barbaric insurgencies the world has ever seen. In the summer of 2014, three years after America's full troop withdrawal from the Iraq War, President Barack Obama authorized a small task force to push back into Baghdad. Their mission: Protect the Iraqi capital and U.S. embassy from a rapidly emerging terrorist threat. A plague of brutality, that would come to be known as ISIS, had created a foothold in northwest Iraq and northeast Syria. It had declared itself a Caliphate—an independent nation-state administered by an extreme and cruel form of Islamic law—and was spreading like a newly evolved virus. Soon, a massive and devastating U.S. military response had unfolded. Hear the ground truth on the senior military and political interactions that shaped America's war against ISIS, a war unprecedented in both its methodology and its application of modern military technology. Enter the world of the Strike Cell, secretive operations centers where America's greatest enemies are hunted and killed day and night. Plunge into the realm of the Special Operations JTAC, American warfighters with the highest enemy kill counts on the battlefield. And gain the wisdom of a cumulative half-century of military experience as Dana Pittard and Wes Bryant lay out the path to a sustained victory over ISIS. "On point" is a military term used to designate the infantryman who will lead patrol, the riskiest of all positions. Writing is risky business, too. For the veteran suffering from post-traumatic stress, writing can trigger painful and disturbing flashbacks. But writing is also risky for the ego. It's one thing to write a military story, especially a story based on authentic experiences; it is quite another to muster the courage to share that story with others for critique and feedback. In *On Point*, Tracy Crow, an award-winning military journalist, former Marine Corps officer, college writing professor, military novelist, memoirist, and editor, presents a roadmap for writing an authentic military story. Drawing from her personal experiences and those of other veteran writers, and from the insights of noteworthy writing and teaching professionals, *On Point* is the guide Crow wished she'd had when she first began writing about her military experience. While writing guidebooks abound, no book specifically addresses the unique challenges and rewards facing soldiers who risk reliving their personal traumas to craft a military story drawn with courage and candor. *On Point* is a guide for any writer who wishes to tell an authentic military story, developed especially for veterans and their families for whom writing may serve as a form of healing.
