A General History of the Science and Practice of Music in Five Volimesby Sir John Hawkins Michael Shaw

For the first time the exercises and teaching methods of world-renowned flutist William Bennett are featured in one workbook. After more than a decade of study with Bennett and many of his students, Roderick Seed has documented the tools that have made Bennett known for his ability to give the flute the depth, dignity, and grandeur of the voice or the stringed instrument. Topics range from how to overcome basic technical difficulties, such as pitch control, to the tools for phrasing, prosody, tone, and intonation needed for playing with different dynamics and ranges of expression. Advanced musicians will find useful exercises and techniques in this book that will deepen their knowledge and enjoyment of making music and help them in their quest to master the flute.

A General History of the Science and Practice of Music, by Sir John Hawkins. Volume the First [- Fifth]. Oxford University Press, USA
Handel's English church music spans the complete period of his active career in London: his first anthem and the Utrecht Te Deum were composed soon after his arrival in London, and his last works nearly 40 years later. The repertory, which includes the Coronation Anthem Zadok the Priest, forms one of the most impressive and engaging areas of Baroque church music. Most of it was stimulated by Handel's creative contact with the English Chapel Royal, a group of professional singers in a different tradition from the opera stars with whom he worked in the theatre. This is the first full-length study of Handel's English

Church music. As well as dealing with the many aspects of the compositions themselves, it traces the background to the diverse items in the repertory, which relates directly to Handel's constant but changing relationship with the Hanoverian/British royal family, and was affected by political and dynastic events. It also examines the circumstances of Handel's performances, the building which (unlike his theatres) still survives in London today.
