Between Death and Life

Chris Comish

In the current model of health dispensation in South Africa there are two major paradigms, the spirit-inspired tradition of izangoma sinyanga and biomedicine. These operate at best in parallel, but more often than not are at odds with one another. This book, based on the author's personal experience as a

practitioner of traditional African medicine, considers the effects of the absence of spirit in biomedicine on collaborative relationships. Given the unprecedented challenge of the HIV/AIDS epidemic in the country, the author suggests that more cooperation is vital. Taking a critical look at the role of anthropology in this endeavor, she proposes the development of a "language of spirit" by means of which the spirit-inspired aetiology of

izangoma sinyanga may be made comprehensible to academic scientists and applicable to medical interventions. The author discusses white izangoma in the context of current debates on healing and hybridity and insists that there exists a powerful role for izangoma in the realm of societal healing. Above all, the book constitutes a start in what the author hopes will develop into an ongoing intellectual conversation between traditional African healing, academe, and biomedicine in South

Africa.

Calling My Spirit Back

Indigenous Peoples have always carried the knowledge necessary to heal. When our people heal, our families heal, our communities heal and our land will heal. You cannot have one without the other. These stories

are teachings, prophecy and protocols shared throughout the years by elders, language speakers, medicine people and helpers. They have been the foundation to individual healing and learning self-love. They teach us how to make good decisions for ourselves and for all other aspects in our lives. When our people were young, they were sent on the land to gather as much experience and knowledge as they could, and when they returned, they would contribute

what they learned. I am Syilx and Secwepemc and although many of my teachings come from this place, they also intertwine with indigenous knowledge shared through ceremony from many other nations. People from all backgrounds have embraced concepts from other parts of the world that promote self-love, healing and well-being through practices of discipline and meditation. Very little has been shared about indigenous systems and how it

promotes self-love and approach to healing. Evidence of Eternity Granite Publishing

This multidisciplinary collection probes ways in which emerging and established scholars perceive and theorize decolonization and resistance in their own

fields of work, from education to political and social studies, to psychology, medicine, and beyond. In this time of renewed global spiritual awakening, indigenous communities are revisiting ways of knowing and evoking theories of resistance informed by communal theories of solidarity. Using an intersectional lens, chapter authors present or imagine modes of solidarity, resistance, and political action that subvert colonial and neocolonial formations.

Placing emphasis on the importance of theorizing the spirit, a discourse that is deeply embedded in our unique cultures and ancestries, this book is able to capture and better understand these moments and processes of spiritual emergence/re-emergence.

Poet Alice Walker has described culture as something in which one should thrive; further, that healing means putting the heart, courage, and energy back into one's

self within one's own culture. Similarly, the "yes, yes ya'll," phrase, used by classic 1990's-era hip hop DJs and artists, evokes the passion in Black American culture. Written with that same celebratory spirit--and using the idea of culture and SOUL synonymously--this book explores of the ways in which integrating SOUL (culture) with contemplative practices can foster healing and restoration, expanding our understanding of leadership and community interaction

and impact. With years of experience in higher education and as a mentor and teacher living in Senegal, the author stresses the importance of celebrating Black cultures, including the role of ancestry, community interdependence, elder-mentors and institutions such as HBCUs. From Halloween expert Morton, a level-headed and entertaining history of our desire and attempts to hold

conversations with the dead. Calling the Spirits investigates the eerie history of our conversations with the dead, from necromancy in Homer's *Odyssey* to the emergence of Spiritualism—when Victorians were entranced by mediums and the seance was born. Among our cast are the Fox sisters, teenagers surrounded by “spirit rappings”; Daniel Dunglas Home, the “greatest medium of all time”; Houdini and Sir Arthur Conan Doyle, whose

unlikely friendship was forged, then riven, by the afterlife; and Helen Duncan, the medium whose trial in 1944 for witchcraft proved more popular to the public than news about the war. The book also considers Ouija boards, modern psychics, and paranormal investigations, and is illustrated with engravings, fine art (from beyond), and photographs. Hugely entertaining, it begs the question: is anybody there . . . ?
