Heinrich Schenker ranks among the most important figures in the development of western music theory in the twentieth century. His approach to the analysis of music permeates nearly every aspect of the field and continues to this day to be a topic of great interest among music theorists, historians, composers and performers. In his four volume work, *Die letzten Sonaten von Beethoven: Kritische Ausgabe mit Einführung und Erläuterung* (The Last Piano Sonatas by Beethoven: Critical edition with Introduction and Commentary) Schenker presented editions of Beethoven's Opp. 109, 110, 111 and 101 that were, at the time, unprecedented in their faithfulness to such authoritative sources as Beethoven's autograph manuscripts. He included a movement-by-movement and section-by-section discussion of form and content that grew increasingly penetrating from one volume to the next as the musical theory for which he is now known was developed, alongside inspired and detailed suggestions for the performance of each section of each work. In *Beethoven's Last Piano Sonatas: An Edition, with Elucidation*, noted Schenker scholar John Rothgeb presents the first English language edition and translation of these important works. Rothgeb builds upon Schenker's text, adding explanations of certain points in the commentary, references to corrections and other remarks entered by Schenker in his personal copies of the volumes, and graphic presentations of several passages (a practice that became standard in Schenker's own analytical work later in his career). Making these seminal works accessible to English speaking scholars and students for the first time, *Beethoven's Last Piano Sonatas* is an essential reference for music theorists, historians, performers, and composers alike.

"These volumes form a complete encyclopedia and history of music and musicians. They comprise a library covering the whole field of musical literature. The material has been written by more than forty of the greatest musicians, critics, and experts on musical subjects in this country and Europe." copyright 1914.

### **Minor v. Marysville Land Co., 229 MICH 72 (1924)**

Cambridge University Press

According to a long-standing astronomical tradition, the naming of minor planets in the solar system is the privilege of the discoverers. Contrary to most other kinds of celestial objects which receive complex alpha-numerical designations, the names of minor planets often say more about the discoverers than about the object in question. There is a rich and colourful variety of ingenious names, from those of heavenly goddesses in the nineteenth century, to the more prosaic and sometimes very specific names of observatories, towns and mountains, computers and persons, given by present-day discoverers. Commission 20 of the International Astronomical Union, under whose auspices the naming of minor planets falls, has long been concerned with the need to establish a complete catalogue of these names, as well as of the interpretation of their meanings. For this purpose, a Study Group on the Origin of Minor Planet Names was set up at the time of the IAU General Assembly in Baltimore in August 1988. The Working Group immediately started to collect information about these matters from all available sources, including some earlier, incomplete compilations made in the U.S. and in Europe, and also by personal interaction with living discoverers of minor planets.

### **Homiletical Commentary on the Minor Prophets**

The most famous representative of the school of Antioch, Theodore of Mopsuestia penned a number of commentaries on biblical books in both Testaments. This volume offers not only an introduction to Theodore's life and work but also the first modern-language translation of his commentaries on Paul's minor epistles (Galatians-Philemon). The English translation is accompanied by a facing Latin/Greek text based on H. B. Swete's 1880-1882 critical edition of these early fifth-century commentaries. As a prime example of "Antiochene" exegesis and theology, they are of considerable interest, providing valuable evidence for Theodore's exegetical principles and practice, his Christology and doctrines of grace and free will, and his understanding of crucial developments in Christian ministry and church polity from the time of Paul to his own day.
