This book is meant for the work-at-home mompreneur who is juggling her marriage, household chores, childcare, AND a remote team or agency. She is frazzled at times, sometimes discouraged, but knows it in her heart there's nowhere else she'd rather be. In this book, I am revealing my most honest confessions about my own journey of going independent, and lessons

on faith and hope as a mom and entrepreneur. I talk about the highs and lows of entrepreneurs hip, alongside marriage and motherhood. The reader will also be able to find tips and insights on running an efficient remote team for an online business. Learn why SIZE does matter in business and in life How to deal with MOMPREENEUR -Overwhelm The 3 People You Need in Your Life Why

Outsourcing IS Key The Dream of a 6-Figure Income Why there is NEVER a Guarantee Lean Season vs Abundant Season in business How to Have Faith When Crisis Hits Pregnancy While Running a Business What It Means to Know that I'm a MOM First I also shared some of my best posts from my blog: Thehomeandbusinessmom.com. It contains some of the life lessons I encountered

alongside present experiences as a millennial mom of two. It is my highest hope that my reader will be able to connect with my experiences, and feel a sense of affirmation that, despite all her doubts and troubles, she is doing well. And she'll be fine.

The Unofficial Guide to Starting a Small Business

John Wiley & Sons

Are you paying more taxes than you have to?

There are more than nineteen million home-based businesses in the United States—56 percent of all businesses—and they generate \$102 billion in annual revenue. As

far as the IRS is concerned, a home business is no different than any other business. But there is a difference: not only can you deduct the business expenses that every business is entitled to, you can turn personal, nondeductible expenses into tax-deductible business expenses—if you are careful to follow the rules. No tax software or accountant knows the details of your home-based

business like you do, and the IRS is certainly not going to tell you about a deduction you failed to take. This invaluable book not only lists the individual items that are deductible in your home-based business—from utilities to that part of the home where you work—but also explains where to list them on your income tax forms.  What this book will give you Just because you buy a home—or buy stock or save money—doesn't make it smart. It's what you do with the asset—whether it's a home or stock purchase or savings in some account—that is smart. It's

whether the asset ends up being an investment that works to grow your net worth or just an expensive product you own. What you'll find in this book are strategies for maintaining, protecting and increasing the value of your home, while finding small and big ways to save money.

 Enterprise JavaBeans (EJB). As the industry standard for platform-independent reusable business components, EJB has just become Sun Microsystem's latest developer certification. Whether you want to be certifiable or

just want to learn the technology inside and out, Head First EJB will get you there in the least painful way. And with the greatest understanding .You'll learn not just what the technology is, but more importantly, why it is, and what it is and isn't good for. You'll learn tricks and tips for EJB development, along with tricks and tips for passing this latest, very challenging Sun Certified Business

Component Developer (SCBCD) exam. You'll learn how to think like a server. You'll learn how to think like a bean. And because this is a Head First book, you'll learn how to think about thinking. Co-author Kathy Sierra was one of Sun's first employees to teach brave, early adopter customers how to use EJB. She has the scars. But besides dragging you deep into EJB technology, Kathy and Bert will see

you through your certification exam, if you decide to go for it. And nobody knows the certification like they do - they're co-developers of Sun's actual exam! As the second book in the Head First series, Head First EJB follows up the number one best-selling Java book in the US, Head First Java. Find out why reviewers are calling it a revolution in learning tough technical topics, and why Sun

Chairman and CEO Scott McNealy says, "Java technology is everywhere...if you develop software and haven't learned Java, it's definitely time to dive in "Head First." And with Head First book, you don't even have to feel guilty about having fun while you're learning; it's all part of the learning theory. If the latest research in cognitive science, education, and neurobiology

suggested that boring, dry, and excruciatingly painful was the best way to learn, we'd have done it. Thankfully, it's been shown that your brain has a sense of style, a sense of humour, and a darn good sense of what it likes and dislikes. In Head First EJB, you'll learn all about: Component-based and role-based development The architecture of EJB, distributed programming with RMI

Developing and Deploying an EJB application The Client View of a Session and Entity bean The Session Bean Lifecycle and Component Contract The Entity bean Lifecycle and Component Contract Container-managed Persistence (CMP) Container-managed Relationships (CMR) EJB-QL Transactions Security EJB Exceptions The Deployment Descriptor The Enterprise

Bean Environment in JNDI Programming Restrictions and Portability The book includes over 200 mock exam questions that match the tone, style, difficulty, and topics on the real SCBCD exam. See why Kathy and Bert are responsible for thousands of successful exam-passers- -"The Sun certification exam was certainly no walk in the park, but Kathy's material allowed me to

not only pass the exam, but Ace it!"--Mary Whetsel, Sr. Technology Specialist, Application Strategy and Integration, The St. Paul Companies"Kathy Sierra and Bert Bates are two of the few people in the world who can make complicated things seem damn simple, and as if that isn't enough, they can make boring things seem interesting."-- Paul Wheaton, The Trail Boss, javaranch.com "Who better to write a Java study guide

than Kathy Sierra, reigning queen of Java instruction? Kathy Sierra has done it again. Here is a study guide that almost guarantees you a certification!"- James Cubetta, Systems Engineer, SGI *The Seven Pearls of Financial Wisdom* "O'Reilly Media, Inc." Natural Disasters and Other Emergencies , what You Should Know

Booktango Everywhere in America, the forces of digitization, innovation, and personalization are expanding our options and bettering the way we live.

Everywhere, that is, except in our politics. There we are held hostage to an eighteenth century system, dominated by two political parties whose ever-more-polarized rhetorical positions mask a mutual interest in maintaining a stranglehold on power. The Declaration of Independents is a compelling and extremely entertaining manifesto on behalf of a system better suited to the

future--one structured by the essential libertarian principles of free minds and free markets. Gillespie and Welch profile libertarian innovators, identify the villains propping up the ancient regime, and take aim at do-something government policies that hurt most of those they claim to protect. Their vision will resonate with a wide swath of frustrated citizens and young voters, born after the

Cold War's end, to whom old tribal allegiances, prejudices, and hang-ups about everything from hearing a foreign language on the street to gay marriage to drug use simply do not make sense.

When in doubt, throw it out. Don't risk injury or infection. 2: Ask for help. Many people can do a lot of the cleanup and repairs discussed in this book. But if you have technical questions or do not feel comfortable doing something, get professional help. If there is a federal disaster

declaration, a telephone "hotline" will often be publicized to provide information about public, private, and voluntary agency programs to help you recover from the flood. Government disaster programs are there to help you, the taxpayer. You're paying for them; check them out. 3: Floodproof. It is very likely that your home will be flooded again someday. Floodproofing

means using materials and practices that will prevent or minimize flood damage in the future. Many floodproofing techniques are inexpensive or can be easily incorporated into your rebuilding program. You can save a lot of money by floodproofing as you repair and rebuild (see Step 8). [Home-Based Business For Dummies](#) Amacom Books Expert tips and advice on starting a home-based business
