Conan volume 7: Cimmericia marks a transitional period in young Conan's life, as he spurns civilization — with its turncoats and legal trappings — and returns to the beloved, brutal country of Cimmericia, where he was born and raised. The dangers found in the snowy mountain passes of his barbaric homeland are a welcome change from the mind games and treachery Conan encountered in the cities of the East, but there are unfortunate lessons in treachery to be learned here, too. When a tentative truce with the Aesir is threatened by the actions of Caollan, the first woman Conan ever loved, Conan again finds himself at the heart of a larger conflict that will test not only his physical strength and cunning mind — but his passionate heart as well. * "(Truman) goes back to the same historical and mythical source material Howard must have used and mines it to expand on what Howard already did. Now that's the way to put your stamp on a Howard tale. As a result, this reeks of Robert E. Howard influence. There is blood and there is fire... there is death and despair and indomitable will. Basically, everything you could want from a Conan story." —ComicsBulletin.com * The hardcover version is a direct market exclusive of the trade-paperback collection, printed to initial orders only!

From Robert Charles Wilson, the Hugo Award-winning author of Spin, comes Julian Comstock, an exuberant adventure in a post-climate-change America. In the reign of President Deklan Comstock, a reborn United States is struggling back to prosperity. Over a century after the Efflorescence of Oil, after the Fall of the Cities, after the False Tribulation, after the days of the Pious Presidents, the sixty stars and thirteen stripes wave from the

plains of Athabaska to the national capital in New York. In Colorado Springs, the Dominion sees to the nation's spiritual needs. In Labrador, the Army wages war on the Dutch. America, unified, is rising once again. Then out of Labrador come tales of the war hero "Captain Commongold." The masses follow his adventures in the popular press. The Army adores him. The President is...troubled. Especially when the dashing Captain turns out to be his nephew Julian, son of the President's late brother Bryce—a popular general who challenged the President's power, and paid the ultimate price. As Julian ascends to the pinnacle of power, his admiration for the works of the Secular Ancients sets him at fatal odds with the Dominion. Treachery and intrigue will dog him as he closes in on the accomplishment of his lifelong ambition: to make a film about the life of Charles Darwin.
