Enhanced by Sutton's excellent photographs, the guide includes twelve sections on popular game fish, such as largemouth and smallmouth bass, crappie, catfish, bluegill, and trout. It also provides an introduction to often-overlooked species like bowfin, gar, carp, paddlefish, and pickerel. Hundreds of valuable fishing tips gleaned from decades of on-the-water experience and interviews with dozens of guides, biologists, and expert anglers enhance the engaging narraive. From the glistening trout in the cold tailwaters of the White River, to feisty catfish on the muddy bayou bottoms of the Delta region, Keith Sutton has served up a tempting array of the fish that can be sought and caught on hook and line in the teeming waters of Arkansas.

Audit - now there's a word that can strike terror into your heart. Whether it's the IRS looking over your shoulder or a quality tool utilized by your company, it requires accountability. A software audit monitors the development process and provides management with an independent view of the software development status. The purpose of this book is to remove the terror and error while improving the audit process. Software is not produced on a production line; the only thing that is the same on all software projects is that there is input and output. Everything in the middle is customized for the project at hand. Thus, The Software Audit Guide does not contain a one-size-fits-all approach. It gives a choice of areas to audit and different questions that should be asked within these areas. This book provides a flexible, user-friendly checklist of more than 1,300 questions designed to stimulate creative thinking that will ultimately result in the best possible software audit.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
