The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago, Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion, Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time, it seeks to bring the current research agenda and the main issues on Islamic banking before a

wider audience. Islamic banking offers, as an alternative to conventional interest-based financing methods, a wide variety of financial instruments and investment vehicles based on profit-and-loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work, which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.

Excellence in customer service is the hallmark of success in service industries and among manufacturers of products that require reliable service. But what exactly is excellent service? It is the ability to deliver what you promise, say the authors, but first you must determine what you can promise. Building on seven years of research on service quality, they construct a model that, by balancing a customer's perceptions of the value of a particular service with the customer's need for that service, provides brilliant theoretical insight into customer expectations and service delivery. For example, Florida Power & Light has developed a sophisticated, computer-based lightning tracking system to anticipate where weather-related service interruptions might occur and strategically position crews at these locations to quicken recovery response time. Offering a service that customers expect to be available at all times and that they will miss only when the lights go out, FPL focuses its energies on

matching customer perceptions with potential need. Deluxe Corporation, America's highly successful check printer, regularly exceeds its customers' expectations by shipping nearly 95% of all orders by the day after the orders were received. Deluxe even put U.S. Postal Service stations inside its plants to speed up delivery time. Customer expectations change over time. To anticipate these changes, Metropolitan Life Insurance Company regularly monitors the expectations and perceptions of their customers, using focus group interviews and the authors' 22-item generic SERVQUAL questionnaire, which is customized by adding questions covering specific aspects of service they wish to track. The authors' groundbreaking model, which tracks the five attributes of quality service -- reliability, empathy, assurance, responsiveness, and tangibles -- goes right to the heart of the tendency to overpromise. By comparing customer perceptions with expectations, the model provides marketing managers with a two-part measure of perceived quality that, for the first time, enables them to segment a market into groups with different service expectations.

In this keenly argued book, Benn Steil and Manuel Hinds offer the most powerful defense of economic liberalism since F. A. Hayek published *The Road to Serfdom* more than sixty years ago. The authors present a fascinating intellectual history of monetary nationalism from the ancient world to the present and explore why, in its modern incarnation, it represents the single greatest threat to globalization. Steil and Hinds describe the current state of international economic relations as both unusual and precarious. Eras of economic protectionism have historically coincided with monetary nationalism, while eras of liberal trade

have been accompanied by a universal monetary standard. But today, the authors show, an unprecedentedly liberal global trade regime operates side by side with the most extreme doctrine of monetary nationalism ever contrived—a situation bound to trigger periodic crises. Steil and Hinds call for a revival of the political and economic thinking that underlay earlier great periods of globalization, thinking that is increasingly under threat by more recent ideas about what sovereignty means.

The only things librarians seem to encounter more often than acronyms are strings of jargon and arcane technical phrases—and there are so many floating around that even just reading an article in a professional journal can bewilder experienced librarians, to say nothing of those new to the profession! Featuring thousands of revised and brand new entries, the fourth edition of ALA Glossary of Library and Information Science presents a thorough yet concise guide to the specific words that describe the materials, processes and systems relevant to the field of librarianship. A panel of experts from across the LIS world have thoroughly updated the glossary to include the latest technology- and internet-related terms, covering metadata, licensing, electronic resources, instruction, assessment, readers' advisory, and electronic workflow. This book will become an essential part of every library's and librarian's reference collection and will also be a blessing for LIS students and recent graduates.

In *The Human Career*, Walter Goldschmidt presents a challenge to conventional views of human social behaviour. He argues that change rather than equilibrium is the natural condition of society, that humans must be seen as motivated actors rather than as passive recipients of cultural roles and that emotions, rather than intellect, are the crucial element in the formulation of culture. These three elements, combined with established theory form a dynamic model of human sociality.

Berangkat dari pengalaman mengajar di kelas pada saat kuliah Metodologi Penelitian khususnya, selalu saja kekurangan waktu untuk menjelaskan materi kuliah yang bersangkutan, sementara disisi lain masih banyak materi yang harus disampaikan kepada mahasiswa, sehingga akhirnya dosen harus memilih apakah memilih materi yang disampaikan sedikit tetapi mahasiswa memahami semua yang disampaikan, atau memilih menyampaikan semua materi, tetapi konsekuensinya mungkin banyak mahasiswa yang tidak faham. Untuk itu adanya Buku Ajar ini sedikit dapat membantu dosen dan mahasiswa untuk menemukan jalan tengah, artinya tidak semua materi harus disampaikan dikelas, bagian dari materi yang kira-kira bisa difahami oleh mahasiswa hanya dengan membaca sendiri, maka dapat hanya dengan membaca di Buku Ajar ini, dengan demikian semua materi yang sudah direncanakan oleh dosen di 14 kali pertemuan per semester tersebut dapat disampaikan semua

dengan tuntas. Sebagai pengayaan tambahan maka di kelas, perlu dibuka "ruang" diskusi bagi mahasiswa yang belum faham setelah membaca Buku Ajar ini. Buku Ajar ini coba penulis tuliskan dengan menggunakan Bahasa "kampung" tujuannya adalah agar apa yang ditulis dalam buku ini mudah difahami oleh siapa saja. Disamping itu berbagai materi yang ditulis dalam Buku Ajar ini adalah kombinasi teori dan praktik, sehingga isi buku ini lebih mengarah kepada pragmatis, khususnya dalam konteks penelitian akademik (Skripsi, Tesis dan Disertasi). Akhir kata, karena keterbatasan pengetahuan dan wawasan serta pengalaman penulis, khususnya dalam bidang ilmu Metodologi Penelitian, maka buku ini tentu masih jauh dari sempurna seperti kata pepatah tiada gading yang tak retak, untuk itu segala kritik dan saran yang konstruktif dari para pembaca sangatlah penulis diharapkan guna penyempurnaan buku ini dimasa yang akan datang. This widely praised work provides a framework for the many voices calling for the reaffirmation of democratic values, citizenship, and service in the public interest. The expanded edition includes an all-new chapter that addresses the practical issues of applying these ideals in actual, real-life situations. "The New Public Service, Expanded Edition" is organized around a set of seven core principles: serve citizens, not customers; seek the public interest; value citizenship and public service above entrepreneurship; think strategically, act democratically; recognize that accountability isn't simple; serve, rather than

steer; and value people, not just productivity. The book asks us to think carefully and critically about what public service is, why it is important, and what values ought to guide what we do and how we do it. It celebrates what is distinctive, important and meaningful about public service and considers how we might better live up to those ideals and values. All students and serious practitioners in public administration and public policy should read this book. While debates about public policy issues will surely continue, this compact, clearly written volume provides an important framework for public service based on and fully integrated with citizen discourse and the public interest.
