**Wastelands** Vintage Canada  
The panoramic story of how the horror genre transformed into one of the most incisive critiques of unchecked American imperial power. The American empire emerged from the shadows of World War II. As the nation's influence swept the globe with near impunity, a host of evil forces followed—from racism, exploitation, and military invasion to killer clowns, flying saucers, and monsters borne of a fear of the other. By viewing American imperial history through the prism of the horror genre, *Dark Carnivals* lays bare how the genre shaped us, distracted us, and gave form

to a violence as American as apple pie. A carnival ride that connects the mushroom clouds of 1945 to the beaches of Amity Island, Charles Manson to the massacre at My Lai, and John Wayne to John Wayne Gacy, the new book by acclaimed historian W. Scott Poole reveals how horror films and fictions have followed the course of America's military and cultural empire and explores how the shadow of our national sins can take on the form of mass entertainment.

*War in the Wasteland* Titan Books  
First published in 1922, "The Waste Land" is T.S. Eliot's masterpiece, and is not only one of the key works of modernism but also one of the greatest poetic achievements of the twentieth century. A richly allusive pilgrimage of

spiritual and psychological torment and redemption, Eliot's poem exerted a revolutionary influence on his contemporaries, summoning forth a rich new poetic language, breaking decisively with Romantic and Victorian poetic traditions. Kenneth Rexroth was not alone in calling Eliot "the representative poet of the time, for the same reason that Shakespeare and Pope were of theirs. He articulated the mind of an epoch in words that seemed its most natural expression." As influential as his verse, T.S. Eliot's criticism also exerted a transformative effect on twentieth-century letter, and this new edition of *The Waste Land and Other Writings* includes a selection of Eliot's most important essays. In her new Introduction, Mary Karr dispels some of

the myths of the great poem's inaccessibility and sheds fresh light on the ways in which "The Waste Land" illuminates contemporary experience.

*Wasteland* Reaktion Books  
Exploring what the Great War meant to a large portion of the white American population while providing a historic precedent for modern-day conceptions of presumably dangerous foreign Others, *Age of Fear* is a compelling look at how the source of wartime paranoia can be found in deep-seated understandings of racial and millennial progress.

*Little House on the Wasteland* Catapult  
A selection of poetry written during World War I. In the introduction Jon Silkin traces the changing mood of the poets - from patriotism through anger and compassion to an active desire for social

change. The book includes work by Sassoon, Owen, Blunden, Rosenberg, Hardy and Lawrence.

Fallout Wasteland Warfare Roleplaying Game Licensed, Full Color, Hardback

Harper Collins

In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the “war to end all wars.” Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history’s most senseless spasms of carnage, defying rational explanation. To End All Wars focuses on the long-ignored moral drama of the war’s critics, alongside its generals and heroes. Many of these

dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain’s most prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn’t cooler heads prevail? And can we ever avoid repeating history?

**Wasteland with Words** Inkblots Press  
The influenza pandemic of 1918–1919

took the lives of between 50 and 100 million people worldwide, and the United States suffered more casualties than in all the wars of the twentieth and twenty-first centuries combined. Yet despite these catastrophic death tolls, the pandemic faded from historical and cultural memory in the United States and throughout Europe, overshadowed by World War One and the turmoil of the interwar period. In *Viral Modernism*, Elizabeth Outka reveals the literary and cultural impact of one of the deadliest plagues in history, bringing to light how it shaped canonical works of fiction and poetry. Outka shows how and why the contours of modernism shift when we account for the pandemic's hidden but widespread presence. She investigates the miasmatic manifestations of the

pandemic and its spectral dead in interwar Anglo-American literature, uncovering the traces of an outbreak that brought a nonhuman, invisible horror into every community. *Viral Modernism* examines how literature and culture represented the virus's deathly fecundity, as writers wrestled with the scope of mass death in the domestic sphere amid fears of wider social collapse. Outka analyzes overt treatments of the pandemic by authors like Katherine Anne Porter and Thomas Wolfe and its subtle presence in works by Virginia Woolf, T. S. Eliot, and W. B. Yeats. She uncovers links to the disease in popular culture, from early zombie resurrection to the resurgence of spiritualism. *Viral Modernism* brings the pandemic to the center of the era,

revealing a vast tragedy that has hidden in plain sight.

**Traces of War** Da Capo Press

Los Angeles Times Book Prize Winner •  
 New York Times Notable Book • NPR's  
 Best Books of the Year • BookPage's #1  
 Mystery and Suspense of the Year • Sun  
 Sentinel's #1 Best Mystery of the Year "I  
 loved Blacktop Wasteland...[A] fast-  
 paced, bareknuckle thriller." -Stephen  
 King "A roaring, full-throttle thriller,  
 crackling with tension and charm." -The  
 New York Times Book Review "One of  
 the year's strongest novels." -Sun  
 Sentinel A husband, a father, a son, a  
 business owner...And the best getaway  
 driver east of the Mississippi.

Beauregard "Bug" Montage is an honest  
 mechanic, a loving husband, and a hard-  
 working dad. Bug knows there's no

future in the man he used to be: known  
 from the hills of North Carolina to the  
 beaches of Florida as the best wheelman  
 on the East Coast. He thought he'd left  
 all that behind him, but as his carefully  
 built new life begins to crumble, he finds  
 himself drawn inexorably back into a  
 world of blood and bullets. When a  
 smooth-talking former associate comes  
 calling with a can't-miss jewelry store  
 heist, Bug feels he has no choice but to  
 get back in the driver's seat. And Bug is  
 at his best where the scent of gasoline  
 mixes with the smell of fear. Haunted by  
 the ghost of who he used to be and the  
 father who disappeared when he needed  
 him most, Bug must find a way to  
 navigate this blacktop wasteland...or die  
 trying. Like Ocean's Eleven meets Drive,  
 with a Southern noir twist, S. A. Cosby's

Blacktop Wasteland is a searing, operatic story of a man pushed to his limits by poverty, race, and his own former life of crime.

### **The Great War and the Remaking of Palestine** Springer

An anthology of post-apocalyptic short fiction from some of the biggest names in science fiction and speculative fiction - including Stephen King, George R. R. Martin and Orson Scott Card Famine, Death, War, and Pestilence: The Four Horsemen of the Apocalypse, the harbingers of Armageddon - these are our guides through the Wastelands . . .

From the Book of Revelations to The Road Warrior; from A Canticle for Leibowitz to The Road, storytellers have long imagined the end of the world, weaving tales of catastrophe, chaos, and calamity. Gathering together the best post-apocalyptic literature of the last two decades from many of today's most renowned authors of speculative fiction, including George R.R. Martin, Gene Wolfe, Orson Scott Card, Carol Emshwiller, Jonathan Lethem, Octavia E. Butler, and Stephen King, *Wastelands* explores the scientific, psychological, and philosophical questions of what it means to remain human in the wake of Armageddon. Praise for *Wastelands*: 'Arguably my favorite anthology of all time - just packed with speculative masterworks' - Paul Goat Allen, Barnes &

Noble.com 'A first-rate anthology that quite convincingly represents the more recent SFnal view of the apocalypse' - Locus 'I can't help but give this collection the highest recommendation. I think this will be a cornerstone for most reader's shelves' - SFFWorld 'A well-chosen selection of well-crafted stories, offering something to please nearly every postapocalyptic palate' - Booklist *Age of Fear* Modern Library From two former military officers and award-winning authors, a chillingly authentic geopolitical thriller that imagines a naval clash between the US and China in the South China Sea in 2034--and the path from there to a nightmarish global conflagration. On March 12, 2034, US Navy Commodore Sarah Hunt is on the bridge of her

flagship, the guided missile destroyer USS John Paul Jones, conducting a routine freedom of navigation patrol in the South China Sea when her ship detects an unflagged trawler in clear distress, smoke billowing from its bridge. On that same day, US Marine aviator Major Chris "Wedge" Mitchell is flying an F35E Lightning over the Strait of Hormuz, testing a new stealth technology as he flirts with Iranian airspace. By the end of that day, Wedge will be an Iranian prisoner, and Sarah Hunt's destroyer will lie at the bottom of the sea, sunk by the Chinese Navy. Iran and China have clearly coordinated their moves, which involve the use of powerful new forms of cyber weaponry that render US ships and planes defenseless. In a single day, America's

faith in its military's strategic pre-eminence is in tatters. A new, terrifying era is at hand. So begins a disturbingly plausible work of speculative fiction, co-authored by an award-winning novelist and decorated Marine veteran and the former commander of NATO, a legendary admiral who has spent much of his career strategically outmaneuvering America's most tenacious adversaries. Written with a powerful blend of geopolitical sophistication and human empathy, 2034 takes us inside the minds of a global cast of characters-- Americans, Chinese, Iranians, Russians, Indians--as a series of arrogant miscalculations on all sides leads the world into an intensifying international storm. In the end, China and the United States will have paid a staggering cost,

one that forever alters the global balance of power. Everything in 2034 is an imaginative extrapolation from present-day facts on the ground combined with the authors' years working at the highest and most classified levels of national security. Sometimes it takes a brilliant work of fiction to illuminate the most dire of warnings: 2034 is all too close at hand, and this cautionary tale presents the reader a dark yet possible future that we must do all we can to avoid.

*Rites of Spring* HarperCollins

*Wastelands 2 - More Stories of the Apocalypse* Flatiron Books  
Nigel Hopkins finds himself in the trenches of World War I under the command of a teenage atheist, Second Lieutenant C.S Lewis. Nigel and his war dog must learn the source of true courage while facing a desperate enemy in No Man's Land in the final offensive of the war. Meanwhile, underage WAAC

Elsie Fleming, working at the field hospital in Etaples, will have her idealism about war challenged by brutal realities she sees in the broken men who return from the front and the many who never return.

*A Novel of the Next World War 2034*

Image Comics

Iceland is an enigmatic island country marked by contradiction: it's a part of Europe, yet separated from it by the Atlantic Ocean; it's seemingly inhospitable, yet home to more than 300,000. *Wasteland with Words* explores these paradoxes to uncover the mystery of Iceland. In *Wasteland with Words* Sigurdur Gylfi Magnússon presents a wide-ranging and detailed analysis of the island's history that examines the evolution and transformation of Icelandic

culture while investigating the literary and historical factors that created the rich cultural heritage enjoyed by Icelanders today. Magnússon explains how a nineteenth-century economy based on the industries of fishing and agriculture—one of the poorest in Europe—grew to become a disproportionately large economic power in the late twentieth century, while retaining its strong sense of cultural identity. Bringing the story up to the present, he assesses the recent economic and political collapse of the country and how Iceland has coped. Throughout Magnússon seeks to chart the vast changes in this country's history through the impact and effect on the Icelandic people themselves. Up-to-date and fascinating, *Wasteland with Words* is

a comprehensive study of the island's cultural and historical development, from tiny fishing settlements to a global economic power.

Never in Finer Company Univ of California Press

Named "One of the 100 best books ever published in Canada" (The Literary Review of Canada), Rites of Spring is a brilliant and captivating work of cultural history from the internationally acclaimed scholar and writer Modris Eksteins. Dazzling in its originality, witty and perceptive in unearthing patterns of behavior that history has erased, Rites of Spring probes the origins, the impact and the aftermath of World War I--from the premiere of Stravinsky's ballet Le Sacre du Printemps in 1913 to the death of Hitler in 1945. "The Great War,"

Eksteins writes, "was the psychological turning point...for modernism as a whole. The urge to create and the urge to destroy had changed places." In this extraordinary book, Eksteins goes on to chart the seismic shifts in human consciousness brought about by this great cataclysm through the lives and words of ordinary people, works of literature, and such events as Lindbergh's transatlantic flight and the publication of the first modern bestseller, All Quiet on the Western Front. Rites of Spring is a remarkable and rare work, a cultural history that redefines the way we look at our past and toward our future.

Zombie Spaceship Wasteland Broadview Press

From the author of the international

bestseller *On Tyranny*, the definitive history of Hitler's and Stalin's politics of mass killing, explaining why Ukraine has been at the center of Western history for the last century. Americans call the Second World War "the Good War." But before it even began, America's ally Stalin had killed millions of his own citizens—and kept killing them during and after the war. Before Hitler was defeated, he had murdered six million Jews and nearly as many other Europeans. At war's end, German and Soviet killing sites fell behind the Iron Curtain, leaving the history of mass killing in darkness. Assiduously researched, deeply humane, and utterly definitive, *Bloodlands* is a new kind of European history, presenting the mass murders committed by the Nazi and

Stalinist regimes as two aspects of a single story. With a new afterword addressing the relevance of these events to the contemporary decline of democracy, *Bloodlands* is required reading for anyone seeking to understand the central tragedy of modern history and its meaning today.

### **Vietnam - The Teenage Wasteland**

Wm. B. Eerdmans Publishing  
 Part Hemingway, part Cormac  
 McCarthy's *The Road*, a suspenseful  
 odyssey into the dark heart of the post-  
 apocalyptic American Southwest. Forty  
 years after the destruction of civilization,  
 human beings are reduced to salvaging  
 the ruins of a broken world. One  
 survivor's most prized possession is  
 Hemingway's classic *The Old Man and  
 the Sea*. With the words of the novel  
 echoing across the wasteland, a living  
 victim of the Nuclear Holocaust journeys  
 into the unknown to break a curse. What  
 follows is an incredible tale of grit and  
 endurance. A lone traveler must survive  
 the desert wilderness and mankind gone  
 savage to discover the truth of  
 Hemingway's classic tale of man versus  
 nature. Now with a new introduction by

author Nick Cole.  
[Reading The Waste Land from the  
 Bottom Up](#) Penguin  
 Historian and Bram Stoker Award  
 nominee W. Scott Poole traces the  
 confluence of military history,  
 technology, and art that gave us modern  
 horror films and literature. From  
*Nosferatu* to Frankenstein's monster,  
 from Fritz Lang to James Whale, the  
 touchstones of horror can all trace their  
 roots to the bloodshed of the First World  
 War. Bram Stoker Award nominee W.  
 Scott Poole traces the confluence of  
 military history, technology, and art in  
 the wake of World War I to show how  
 overwhelming carnage gave birth to a  
 wholly new art form: modern horror films  
 and literature. "Thoroughly engrossing  
 cultural study . . . Poole persuasively

argues that the birth of horror as a genre is rooted in the unprecedented destruction and carnage of WWI."  
—Publishers Weekly (starred review)
