Audition Speeches for Black, South Asian and Middle Eastern Actors: Monologues for Men Univ of California Press

This book examines the ways in which women in the contemporary Middle East and North Africa have re-imagined revolutionary discourses through creativity and collective action as a means of resistance. Encompassing a stunning array of forms and genres, such as graffiti, street performance, photography, phototexts, novels, and comics, the book draws from a vast spectrum of artistic production in revolutionary periods between 2011 and 2022 in Egypt, Tunisia, Morocco, and Algeria. El Nossery sheds light on women's postrevolutionary artistic output by engaging an interdisciplinary approach: the book is divided into three sections which foreground the unique relationship between textual, visual, and performative modes as they intertwine with art and politics. Arab Women's Revolutionary Art thereby aims to demonstrate how art, as always oriented towards an open future, can preserve the revolutionary spirit that was sparked in 2011 by documenting what happened and determining which stories would be told. The revolution, therefore, continues.

In 1929 The Goldbergs debuted on the air, introducing Gertrude Berg—and her radio alter ego, Bronx housewife Molly Goldberg—to the nation. The show would become one of the most beloved and enduring sitcoms of Golden Age radio, and early TV. At the helm was Berg who, as creator, star, writer, and producer, became a force to be reckoned with. This multi-faceted biography provides a penetrating look at how Gertrude Berg carved a special place for herself in the annals of broadcast history. Decades before Lucille Ball, Berg triumphed as a woman of commercial and creative consequence in what was essentially a male-dominated arena. For over three decades, Berg's "Molly" fluttered about and hung out her kitchen window dispensing motherly advice laced with engaging malapropisms, insights, and lots of "schmaltz". The show offered a warmly comedic look at the lives and dreams of working-class American Jews, and subtle insights into the nature of assimilation. While Molly, husband Jake, and Uncle David represent Old World Jewish stereotypes, children Rosalie and Sammy are as American as apple pie. Berg makes it clear that the only thing separating shtetl and middle-class new world values is style. Drawing on Gertrude Berg's papers at Syracuse University's Bird Library, and rare interviews with her family and colleagues, the author reveals her as shrewd, creative, and forthright. Unlike "Molly," Berg was a cultivated woman and a Columbia graduate. A pioneer in the concept of product tie-in, she parlayed the show's popularity into a movie, short stories, and even a cookbook. In 1951 she stood up to the blacklist by refusing to fire longtime co-star Philip Loeb who was under fire by the House un-American Committee. The book also chronicles Berg's accomplishments in theater, film, and literature.

Jazbaa - Definition: spirit, feeling, passion, desire, sentiment, emotion In 1996, Shaiza Khan led a Pakistan team on a tour of New Zealand and Australia. While the tour was a failure on the cricketing front, the singular act of eleven women wearing flannels and battling for victory in the faraway antipodes was a significant achievement. These women had – individually and collectively – worked to throw off the shackles of social and cultural decrees that had conspired to keep Pakistani women away from sport for years. Even more importantly, these players were harbingers of change who became heroic role models for women back home and all around the world. Unveiling *Jazbaa* tells the story of Pakistan's women's cricket, detailing the extraordinary journey the players have been on to bring about change both in their country and in the sport itself. This is a tale told through the lens of society and politics, of personal battles and triumphs against the odds, of friendships and rivalries, of favours and revenge. Above all else, it is story of bravery and unerring will and a moving testimony to power of the human spirit. Foreword by Kamila Shamsie 'Compelling, ambitious, beautifully written and about so much more than cricket' – Tim Wigmore, *The Telegraph* and author of the multiple award-winning *emCricket 2.0*

After the fall of civilization, a hierarchical society was born where blood determines everything. The rich steal both the blood and lifespans of the poor, rejoicing in their eternal lives. Nagi is a commoner doomed to an early death, while Saya is a royal gifted with eternal youth. When their unlikely paths cross in a twist of fate, their innocent love sets the gears in motion to tear down the walls of a society built upon tremendous inequality and discrimination.

In this magisterial volume of essays, Wendy Doniger enhances our understanding of the ancient and complex religion to which she has devoted herself for half a century. This series of interconnected essays and lectures surveys the most critically important and hotly contested issues in Hinduism over 3,500 years, from the ancient time of the Vedas to the present day. The essays contemplate the nature of Hinduism; Hindu concepts of divinity; attitudes concerning gender, control, and desire; the question of reality and illusion; and the impermanent and the eternal in the two great Sanskrit epics, the *Ramayana* and the *Mahabharata*. Among the questions Doniger considers are: Are Hindus monotheists or polytheists? How can atheists be Hindu, and how can unrepentant Hindu sinners find salvation? Why have Hindus devoted so much attention to the psychology of addiction? What does the significance of dogs and cows tell us

about Hinduism? How have Hindu concepts of death, rebirth, and karma changed over the course of history? How and why does a pluralistic faith, remarkable for its intellectual tolerance, foster religious intolerance? Doniger concludes with four concise autobiographical essays in which she reflects on her lifetime of scholarship, Hindu criticism of her work, and the influence of Hinduism on her own philosophy of life. On Hinduism is the culmination of over forty years of scholarship from a renowned expert on one of the world's great faiths.

In The Harafish Naguib Mahfouz returns to the style of sweeping narrative at which he has proven himself a master. He chronicles the dramatic history of the Nagi family--a family that descends, over many generations, from the heights of power and prestige to the depths of decadence and decay. The epic story begins with the tale of Ashur al-Nagi, a man who grows from humble roots to become a great leader and a legend among his people. The name of Ashur epitomizes a time of glory for the Harafish, or the common people, when they were led by one of their own. Generation after generation, however, Ashur's descendants stray further from his legendary example. They lose touch with their origins as they amass and then lose large fortunes, marry prostitutes when they marry at all, and develop rivalries that end in death. Finally, a Nagi appears who restores the family name to its former distinction. The Harafish is a mythic tale, a compelling portrait of human weaknesses--pride, dishonesty, lust, and greed--and of the greatness of which we are capable when we overcome them.

The Disability Studies Reader collects, for the first time, representative texts from the newly emerging field of disability studies. This volume represents a major advance in presenting the most important writings about disability with an emphasis on those writers working from a materialist and postmodernist perspective. Drawing together experts in cultural studies, literary criticism, sociology, biology, the visual arts, pedagogy and post-colonial studies, the collection provides a comprehensive approach to the issue of disability. Contributors include Erving Goffman, Susan Sontag, Michelle Fine and Susan Wendell.

Women, Politics, and Change, a compendium of twenty-three original essays by social historians, political scientists, sociologists, psychologists, and anthropologists, examines the political history of American women over the past one hundred years. Taking a broad view of politics, the contributors address voluntarism and collective action, women's entry into party politics through suffrage and temperance groups, the role of nonpartisan organizations and pressure politics, and the

politicization of gender. Each chapter provides a telling example of how American women have behaved politically throughout the twentieth century, both in the two great waves of feminist activism and in less highly mobilized periods. "The essays are unusually well integrated, not only through the introductory material but through a similarity of form and extensive cross-references among them....in raising central questions about the forms, bases, and issues of women's politics, as well as change and continuity over time, Tilly, Gurin, and the individual scholars included in this collection have provided us with a survey of the latest research and an agenda for the future." —Contemporary Sociology "This book is a necessary addition to the scholar's bookshelf, and the student's curriculum." —Cynthia Fuchs Epstein, professor of sociology, City University of New York Graduate Center

Human ecology - the study and practice of relationships between the natural and the social environment - has gained prominence as scholars seek more effectively to engage with pressing global concerns. In the past seventy years most human ecology has skirted the fringes of geography, sociology and biology. This volume pioneers radical new directions. In particular, it explores the power of indigenous and traditional peoples' epistemologies both to critique and to complement insights from modernity and postmodernity. Aimed at an international readership, its contributors show that an inter-cultural and transdisciplinary approach is required. The demands of our era require a scholarship of ontological depth: an approach that can not just debate issues, but also address questions of practice and meaning. Organized into three sections - Head, Heart and Hand - this volume covers the following key research areas: Theories of Human Ecology Indigenous and Wisdom Traditions Eco-spiritual Epistemologies and Ontology Research practice in Human Ecology The researcher-researched relationship Research priorities for a holistic world With the study of human ecology becoming increasingly imperative, this comprehensive volume will be a valuable addition for classroom use.

"The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that required them to sacrifice something that was precious to them.

[tag line] critically and cleverly examines the origins, evolution, and impact of the Ninja Turtles phenomenon - from its beginning as a self-published black-and-white comic book in 1984, through its transformation into a worldwide transmedia phenomenon by the middle of the 1990s, and up to the sale of the property to Nickelodeon in 2009 and relaunch of the Turtles with new comics, cartoons, and a big-budget Hollywood film. With the eye of contemporary cultural studies and the voice of a true lifelong Turtles fan, Rosenbaum argues that the Turtles' continuing success isn't mere nostalgia, but rather the result of characters, and a franchise, that mutated in a way that allowed the to survive and thrive in a post-modern world.
