Quantum physics and the theory of relativity have shaken our conception of reality. They have made us realize that the universe is not as we perceive it. Religion and philosophy have so far failed to adapt our view of the world on the basis of these findings. Thus, together with the reader, the author sets out to clarify the fundamental questions of life. He skillfully juxtaposes convincing answers from different fields of knowledge. Scientific chapters about the world of quantum objects, space and time, or the origin and evolution of the universe stand in stark contrast to chapters about scientifically unexplainable events such as miracles, spiritualistic phenomena, findings about life after death, and reincarnation. In addition, the author discusses the atheistic worldview. The scientific sections are easily understandable, especially since they are, to a large extent, free of technical terms and formulas. In the religious chapters, the author draws parallels between ideas from all religions (especially Hinduism, Buddhism, and Taoism) and scientific findings. Descriptions of the God-experiences of spiritual masters from all times, cultures, and religions as well as personal anecdotes and stories imagined by the author provide manifold paradigm shifts in the detailed consideration of one and the same thing: the ultimate reason of our existence and the meaning of life.

The central Christian belief in salvation through the suffering, death, and resurrection of Jesus Christ remains one of the most intractable mysteries of Christian faith. Throughout history, it has given rise to various theories of atonement, many of which have been subject to critique as they no longer speak to contemporary notions of evil and sin or to current conceptions of justice. One of the important challenges for contemporary Christian theology thus involves exploring new ways of understanding the salvific meaning of the cross. In Atonement and Comparative Theology, Christian theologians with expertise in Judaism, Islam, Hinduism, Buddhism, Daoism, and African Religions reflect on how engagement with these traditions sheds new light on the Christian understanding of atonement by pointing to analogous structures of sin and salvation, drawing attention to the scandal of the cross as seen by the religious other, and re-interpreting aspects of the Christian understanding of atonement. Together, they illustrate the possibilities for comparative theology to deepen and enrich Christian theological reflection.

Ein Münchner im Himmel ist eine humoristische Satire des bayerischen Schriftstellers Ludwig Thoma, die 1911 veröffentlicht wurde. In ihr behandelt Thoma mit einem liebevollen Augenzwinkern das Klischee des typisch bayerischen, insbesondere das des Münchner Grantlers. Neben den Lausbubengeschichten zählt es zu den bekanntesten Werken des Autors. Der Münchner im Himmel gehört zu den meistrezitierten Werken der bayerischen Volksliteratur. Die Kurzgeschichte handelt von Alois Hingerl, Dienstmann Nummer 172 auf dem Münchner Hauptbahnhof. Zwei Engel schleppen ihn mühevoll in den Himmel, wo er von Petrus seinen jenseitigen Namen "Engel Aloisius," eine Harfe und eine Wolke zugeteilt bekommt, auf der er, gemäß der "himmlischen Hausordnung" künftig nach einem festen Terminplan "frohlocken" und "Hosianna singen" soll... This is a German history of cinema and film from the 1890s to 1945 with a focus on queer masculinity. Using media studies approaches, the study shows how film as a new medium is constituted through performative re-enactments of spectacular elements from the entertainment and knowledge cultures of the 19th century. In it, bodies, desires and identities are constantly remodelled through the formation of difference. Therefore, male queerness here does not mean the representation of male homosexuality. Rather, it is the dynamic result of complex medial processes, affects and (self-)knowledge on and off the screen. Building on Eve K. Sedgwick’s queer-feminist concept of queer performativity, the author creates a historically

situated model with which she traces various figures of technically anthropomorphic queer masculinity in the medium of film in an empowering sense. This book is a translation of an original German 1st edition Performative Figuren queerer Männlichkeit by Christiane König, published by J.B.Metzler, imprint of Springer-Verlag GmbH Germany, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). The author (with the friendly support of Megan Hanson) has subsequently revised the text further in an endeavour to refine the work stylistically. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support authors.

The problem of body and soul has a long history that can be traced back to the beginnings of Greek culture. The existential question of what happened to the soul at the moment of death, whether and in what form there is life after death, and of the exact relationship between body and soul was answered in different ways in Greek philosophy, from the early days to Late Antiquity. The contributions in this volume not only do justice to the breadth of the topic, they also cover the entire period from the Pre-Socratics to Late Antiquity. Particular attention is paid to Plato, Aristotle and Hellenistic philosophers, that is the Stoics and the Epicureans.

This selection of articles, published for the 50th anniversary of the author's doctorate at Göttingen, opens with studies on his teacher, Percy Ernst Schramm, and his contribution to the study of the medieval state and continues with examples of state symbology from Central Europe. Questions of legitimization and representation of kings and queens through texts and Herrschaftszeichen as well as the development of 'coronation studies' are addressed in a comparative framework. The second part contains articles on social and political history mainly of the kingdom of Hungary in the fifteenth century, also attempting to place the issues into a wider context. Finally, two pieces present and discuss the 'use' or 'abuse' of the Middle Ages in the political discourse and display of our times.

The Annunciation: a specific event recounted in the Bible and often represented in artworks, but also the prototype of many other announcements throughout the history of Western culture. This volume proposes new readings of pictorial Annunciations from the Middle Ages and the Early Modern period - treating aspects such as witnesses, inscriptions and architecture - as well as analyses of some visual echoes, reenactments of the announcement to Mary in sacred and profane contexts up to the twenty-first century. Among the latter are included Venetian decoration glorifying the state, a Jean-Luc Godard film, a video art piece by Eija-Liisa Ahtila, Lars von Trier's *Melancholia* and a saint's bedroom turned into a pilgrimage site.

This book is an investigation of the role of creative labor and the five senses in Rainer Maria Rilke's prose works, including his "Primal Sound" essay, the *Stories of God*, the *Notebooks of Malte Laurids Brigge*, and his monograph on Auguste Rodin. It is about several protagonists' quest to achieve creative labor by reconnecting spirit or the unconscious to the hand. There are many difficulties in the way, however, illustrated by Rilke's essays, tales, and monographs. In the process of overcoming these impediments, the five senses are expanded and refined. Rilke's characters undergo a transformation that not only allows them to do true creative labor, but also brings them into a new relationship with themselves, the world around them and other people. Nicholas Carroll Reynolds received his PhD at the University of Oregon, USA. He has authored several articles on philosophy and literature, and has worked as an editor and translator. He is currently employed at Trinity University in San Antonio, Texas, USA, where he teaches in the German, Philosophy, and First Year Experience programs, as well as in Trinity's Study abroad program in Berlin, Germany.

The question of the extent to which the Septuagint reflects an evolution in messianic belief in comparison with the Masoretic Text has come into prominence in recent years, and in view of the role played by messianism in Jewish belief of the late Second Temple period and in early Christianity it seemed very appropriate that "The Septuagint and Messianism" should be chosen as the theme of the 2004 Colloquium Biblicum Lovaniense. This

volume contains the papers given at the Colloquium, which are concerned both with methodological issues and with the interpretation of specific texts (in practice the majority of the texts in the Septuagint for which a messianic interpretation has been claimed). The papers are very far from all reflecting the same approach, and it has frequently happened that the same texts have been treated by different contributors from very different viewpoints. But the fact such different viewpoints are expressed is a proper reflection of the complexity of the issues involved in the question of the extent of messianic belief in the Septuagint, and of the fact that the question requires a nuanced answer. It is in any case hoped that the varied approaches reflected in the papers will serve to make clear the underlying reasons for the differences between those who take a "minimalist" and those who take a "maximalist" view on the subject of the Septuagint and Messianism.

The art of the emblem is a pan-European phenomenon which developed in Western and Central Europe in the early modern period. It adopted meanings and motifs from Antiquity and the Middle Ages as part of a general humanistic impulse. Technological developments in printing that permitted the combination of letterpress with woodblock, and later copperplate, images, ensured that the emblem spread rapidly by way of printed collections. With time, emblematic ideas moved beyond Europe, conveying their insights and wisdom in the compact form of the book. These same books came to influence artists and designers working in the decoration of buildings, furniture, and household items, so that emblems entered personal life; they infiltrated festive culture, too. In such environments beyond the book, emblems were transported, adapted, and embedded in new functional contexts shaped by social, political, or religious conditions, but also by architectural and regional art historical parameters. The results of these transformations are often of an intricate and complex meaning. The combination of word and image that constitutes the emblem still has resonance in contemporary art and architecture. The study of emblems allows us to look back at the collaborative endeavours of creative minds of earlier times from across Europe and beyond. At a time when that continent is under strain, and the world in general seeks to come to terms with globalization, emblems allow reflection on strongly shared cultural values and connections.

Ludwig Thoma's *Geschichte vom Postsekretär im Himmel* ist mehr als eine lustige Erzählung über einen unangepaßten, anarchischen Bayern. Sie handelt auf ihre Weise von den grundsätzlichen Dingen überhaupt - von Leben und Tod. Die hier endlich vorliegende Theaterfassung von Thoma's *Geschichte*, in dem der Postbote Alois Angermayer sich mit seinem Schicksal als Engel Aloysius nicht abfinden will, ist deshalb ein Spiel - voller Ironie - über die Vergänglichkeit sowohl des Menschen als auch seiner Vorstellungen vom Jenseits. Ein Stück aber auch über die Lust am Leben, das - mit dem nötigen Schwung über die dazugehörigen Abgründe hinweg in Szene gesetzt und gespielt - nicht ohne 'erleuchtend'-erheiternde Wirkung bleiben wird!
