Freeing the Spirit of Enquiry

The Science Delusion is the belief that science already understands the nature of reality. The fundamental questions are answered, leaving only the details to be filled in. In this book (published in the US as *Science Set Free*), Dr Rupert Sheldrake, one of the world's most

innovative scientists, shows that science is being constricted by assumptions that have hardened into dogmas. The 'scientific worldview' has become a belief system. All reality is material or physical. The world is a machine, made up of dead matter. Nature is purposeless. Consciousness is nothing but the physical activity of the brain. Free will is an illusion. God exists only as an idea in human minds, imprisoned within our skulls. Sheldrake examines these dogmas

scientifically, and shows persuasively that science would be better off without them: freer, more interesting, and more fun. In *The God Delusion* Richard Dawkins used science to bash God, but here Rupert Sheldrake shows that Dawkins' understanding of what science can do is old-fashioned and itself a delusion.

Discover remarkable information about science, animals, history,

and more with this collection of 150 interesting and intriguing facts. Did you know peanut butter could be turned into diamonds? Or that one teaspoon of honey is the life work of a dozen bees? Or that babies have 95 more bones than adults? These are just a few of the facts that you could learn in Factourism. Featuring 150 of the most extraordinary things that happen in the world every day, you'll find amazing pieces of trivia accompanied by bright, colorful

illustrations. Each beautifully designed page holds a trivia tidbit that will leave you brimming with knowledge.

Life in Five Seconds

Langenscheidt
Claire Randall is leading a double life. She has a husband in one century, and a lover in another... In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon—when she innocently touches a boulder in one of the ancient stone circles that

dot the British Isles. Suddenly she is a Sassenach—an "outlander"—in a Scotland torn by war and raiding border clans in the year of our Lord...1743. Hurlled back in time by forces she cannot understand, Claire's destiny in soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten her life ...and shatter her heart. For here, James Fraser, a gallant young

Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire...and between two vastly different men in two irreconcilable lives.

Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what

Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a broad sense today that the Church, however well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say about Christianity's track record over the ages. This

detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores, the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. The Scandal of the Scandals separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little

you really knew about Christianity.

Did God Use Evolution? Doubleday Canada
 Seemingly the simplest of stories—a passing anecdote of village life—Rock Crystal opens up

into a tale of almost unendurable suspense. This jewel-like novella by the writer that Thomas Mann praised as "one of the most extraordinary, the most enigmatic, the most secretly daring and the most strangely gripping narrators in world literature" is among the most unusual, moving, and memorable of Christmas stories. Two children—Conrad and his little sister, Sanna—set out from their village high up in the Alps to visit their grandparents in the neighboring valley. It is

the day before Christmas but the weather is mild, though of course night falls early in December and the children are warned not to linger. The grandparents welcome the children with presents and pack them off with kisses. Then snow begins to fall, ever more thickly and steadily. Undaunted, the children press on, only to take a wrong turn. The snow rises higher and higher, time passes: it is deep night when the sky clears and Conrad and Sanna discover themselves out on a

glacier, terrifying and beautiful, the heart of the void. Adalbert Stifter's rapt and enigmatic tale, beautifully translated by Elizabeth Mayer and Marianne Moore, explores what can be found between Christmas Eve and Christmas Day—or on any night of the year.

Stein's Animal Life Baker Books

"There's nothing Gennaro doesn't know about pasta. He's an absolute legend!" Jamie Oliver One of the most popular of all Italian dishes, bestselling author and much-loved

personality Gennaro reveals all of his tips and tricks for making the best of the most versatile of dishes. 'Gripping ... An exquisite conversation between two people who know each other, like each other, and have mutual respect for one another' - Catholic Times Since resigning

from the papacy in 2013, the first Pope in over 700 years to do so, Pope Benedict has lived quietly in a convent in the Vatican gardens in Rome. He has devoted himself to a life of prayer and study and has vowed to remain silent, until now. So much controversy still surrounds Pope Benedict's time in office - in this book, written with bestselling German author Peter Seewald, he addresses the issues of his papacy and reveals how, at his late age, governing and reforming the Church was

beyond him. Last Testament is also an autobiography, recalling Pope Benedict's childhood in Germany under Nazism, his early development as a priest, and eventually his appointment as Archbishop of Munich. After becoming Pope, his account deals with the controversies that rocked the Catholic world - how he enraged Muslims with his Regensburg speech, what he did and did not do to stamp out the clerical sexual abuse of children, the 'Vatileaks'

scandal and how he broke up a gay cabal within the Vatican itself. At all times, we see a man who is shy and retiring and modest being exceptionally open and frank with the outside world. In this Last Testament, a unique book insofar as no other living Pope has had the opportunity to write an account having left office, Benedict gives in his own words an unprecedented view of the difficulties, the achievements and the consequences of his time as head of the Catholic Church worldwide.

Bread and Roses McGraw Hill Professional
 “This little book does a beautiful job of inspiring awe for the capacities of birds and applying lessons from their lives to the struggles of humanity” — Wall Street Journal
 “Brilliant, magical and engrossing—I will never see birds the same way again.” — Peter Wohlleben, author of *The Hidden Life of Trees* THE INTERNATIONAL PHENOMENON
 Twenty-two short lessons from the secret lives of birds on living harmoniously and

reconnecting with nature. This charming volume on bird behavior invites us to take a step back from our busy lives and to listen to the tiny philosophers of the sky. From the delicate sparrow to the majestic eagle, birds are among the most fascinating species on earth, and there is much to be learned from these paragons of beauty and grace that can be applied to our lives, including: Independence: what it means to be “pushed out of the nest.” Vulnerability: what the mallard teaches

us about giving up our old feathers for new ones in order to fly. Gender equality: what happens when a papa Turtledove sits on the nest. Hierarchy and power: what the raven and the vulture know about the pecking order. Filled with elegant illustrations of bird species, this gem of a book celebrates of our friends in the sky, and what they can teach us about the rhythms of life. *Factourism* Ignatius Press
 The Colors of Photography aims to provide a deeper understanding of what

color is in the field of photography. Until today, color photography has marked the "here and now," while black and white photographs have been linked to our image of history and have formed our collective memory. However, such general dichotomies start to crumble when considering the aesthetic, cultural, and political complexity of color in photography. With essays by Charlotte Cotton, Bettina Gockel, Tanya Sheehan, Blake Stimson, Kim Timby, Kelley Wilder,

Deborah Willis. Photographic contributions by Hans Danuser and Raymond Meier. *Historians of London* Simon and Schuster If animals could tell us about themselves, using our scientific knowledge, if they could tell us about the way they live, the special way they are made and many details about their individual design - what they would say would be unique praise to the Creator. Did you know that while in flight, the sparrow's heart

can beat up to 760 times per minute? Or that a baby blue whale grows at a rate of 7.28 pounds an hour while it's nursing, a grand total of 17 tons by the end of the nursing stage? How about that glow worms have a light output efficiency of 100% as compared to only 4% for our incandescent bulbs? Dr. Werner Gitt, one of the foremost creationist speakers in the world, uses his scientific expertise in this book to show the unique design features of some of God's most captivating

creations. All people, young and old, layperson or expert, will be able to understand and enjoy this straightforward book. Told from the perspective of the animals being described, *If Animals Could Talk* clearly shows the impossibility of life without design. Dr. Gitt uses simple language to provoke a sense of wonder and awe at the marvelous design of the Creator.

In the vein of Daniel Woodrell's *Winter's Bone* and the works of Ron Rash, an Amazon Best Book of the Month set in a tough-and-tumble Mississippi town where drugs, whiskey, guns, and the desire for revenge violently intersect. For eleven years the clock has been ticking for Russell Gaines as he sits in Parchman Penitentiary in the Mississippi Delta. His sentence is now up, and he believes his debt has been paid. But when he returns home, he soon

discovers that revenge lives and breathes all around him. On the same day that Russell is released from prison, a woman named Maben and her young daughter trudge along the side of the interstate under the punishing summer sun. Desperate and exhausted, the pair spend their last dollar on a room for the night, a night that ends with Maben running through the darkness holding a pistol, and a dead deputy sprawled in the middle of the road in the glow of his own

headlights. With the dawn, destinies collide, and Russell is forced to decide whose life he will save -- his own or those of the woman and child. Delivered in powerful and lyrical prose, *Desperation Road* is a story of troubled souls twisted with regret and bound by secrets that stretch over the years and across the land.

 Rabindranath R Maharaj was descended from a long line of Brahmin priests and trained as a Yogi. He meditated for many hours each day, but gradually disillusionment set in. In *DEATH OF A GURU* he describes vividly and honestly Hindu life and customs, tracing his difficult search for meaning and his struggle

to choose between Hinduism and Christ. At a time when Eastern mysticism and religion fascinate many in the West, Maharaj offers fresh and important insights from the perspective of his own experience. DEATH OF A GURU has long been an excellent seller on HCB's backlist. It is the best-known Hindu to Christianity conversion story and has been used widely for evangelistic purposes. This edition carries an exciting new cover.

Review of Books
A Doody's Core Title for 2019! The Web That Has No Weaver is the classic, comprehensive guide to the theory and practice of Chinese alternative medicine. This accessible and invaluable resource has earned its place as the foremost authority in synthesizing Western and Eastern healing practices. This revised edition is the product of years of further reflection on ancient Chinese sources and active involvement in cutting-edge scientific research.

The Scandal of The Scandals HarperCollins
From the #1 New York Times bestselling author of the Reckoners series, Words of Radiance, the Mistborn trilogy, and the Stormlight Archive comes the sequel to Skyward. The epic adventure continues in this story of a girl with a secret in a dangerous world at war for humanity's future. All her life, Spensa has dreamed of becoming a pilot. Of proving she's a hero like her father. She made it to the sky, but the truths she learned

about her father were crushing. The rumors of his cowardice are true--he deserted his flight during battle against the Krell. Worse, though, he turned against his team and attacked them. Spensa is sure there's more to the story. And she's sure that whatever happened to her father in his starship could happen to her. When she made it outside the protective shell of her planet, she heard the stars--and it was terrifying. Everything Spensa has been taught about her world is a lie.

But Spensa also discovered a few other things about herself--and she'll travel to the end of the galaxy to save humankind if she needs to.

Tomi Ungerer John Wiley & Sons

Is it possible to develop a radical socialist feminism that fights for the emancipation of women and of all humankind? This book is a journey through the history of feminism. Using the concrete struggles of women, the Marxist feminist Andrea D'Atri traces the history of

the women's and workers' movement from the French Revolution to queer theory. She analyses the divergent paths feminists have woven for their liberation from oppression and uncovers where they have hit dead ends. With the global working class made up of a disproportionate number of women, women are central in leading the charge for the next revolution and laying down blueprints for an alternative future. D'Atri makes a fiery plea for dismantling capitalist

patriarchy.
