*Monet Parkstone International*  
Brimming with illustrations of some of the world's best loved Impressionist paintings, this book offers fresh and fascinating insights to explain why, initially, Impressionism was considered radical--and why it remains one of the most popular artistic movements of all time. By focusing on Impressionism's earliest stages, the book offers a thorough and satisfying exploration that paves the way for a deeper understanding of the movement's myriad hybridizations and, eventually, the birth of abstraction. This delightful overview also offers readers a thoughtful context from which to appreciate these most beautiful works of art.

From bestselling author Ross King, a brilliant portrait of the legendary artist and the story of his most memorable achievement. Claude Monet is perhaps the world's most beloved artist, and among all his creations, the paintings of the water lilies in his garden at Giverny are most famous. Monet intended the water lilies to provide "an asylum of peaceful meditation." Yet, as Ross King reveals in his magisterial chronicle of both artist and masterpiece, these beautiful canvases belie the intense frustration Monet

experienced in trying to capture the fugitive effects of light, water, and color. They also reflect the terrible personal torments Monet suffered in the last dozen years of his life. Mad Enchantment tells the full story behind the creation of the Water Lilies, as the horrors of World War I came ever closer to Paris and Giverny and a new generation of younger artists, led by Henri Matisse and Pablo Picasso, were challenging the achievements of Impressionism. By early 1914, French newspapers were reporting that Monet, by then seventy-three, had retired his brushes. He had lost his beloved wife, Alice, and his eldest son, Jean. His famously acute vision--what Paul Cezanne called "the most prodigious eye in the history of painting"--was threatened by cataracts. And yet, despite ill health, self-doubt, and advancing age, Monet began painting again on a more ambitious scale than ever before. Linking great artistic achievement to the personal and historical dramas unfolding around it, Ross King presents the most intimate and revealing portrait of an iconic figure in world culture.

*Expressionism and Poster Design in Germany 1905-1922* BRILL

Junto con J.M.W. Turner, ningún artista se esforzó más que Claude Monet

(1840-1926) en capturar en el lienzo la luz. De todos los impresionistas, fue el hombre del que Cézanne decía "solo un ojo, pero ¡Dios mío, qué ojo!", el hombre que se mantuvo completamente leal al principio de la fidelidad absoluta a la sensación visual, pintando directamente a partir del objeto. Se podría decir que Monet reinventó las posibilidades del color

y que, ya fuera por su temprano interés en los grabados japoneses, su período como recluta bajo la resplandeciente luz de Argelia o su relación personal con los pintores más importantes de fines del siglo XIX, lo que creó Monet durante su larga vida cambió para siempre el modo en que percibimos tanto el mundo como sus fenómenos asociados. El punto culminante de sus exploraciones fue la serie tardía de nenúfares pintada en su propio jardín de Giverny, la cual, en su giro hacia la ausencia casi total de forma, es realmente el origen del arte abstracto. Esta biografía hace del todo justicia a este artista tan excepcional y profundamente influyente, y ofrece numerosas reproducciones y fotos de archivo junto con comentarios detallados y precisos. *Monet, the Triumph of Impressionism* Taschen America Llc

A Companion to Impressionism Presenting an expansive view of the study of Impressionism, this pioneering volume breaks new thematic ground while also reconsidering questions concerning the definition, chronology, and membership of the impressionist movement. In 34 original essays from established and emerging scholars, this collection offers a diverse range of developing topics and new critical approaches to the interpretation of impressionist art. Focusing on the 1860s to 1890s, A Companion to Impressionism explores artists who are well-represented in impressionist studies, including Monet, Renoir, Degas, and Cassatt, as well as Morisot, Caillebotte, Bazille, and other significant yet lesser-known artists. The essays cover a wide variety of methodologies in addressing such topics as Impressionism's global predominance at the turn of the 20th century, the relationship between Impressionism and the emergence of new media, the materials and techniques of the

Impressionists, as well as the movement's exhibition and reception history. This innovative volume also includes new discussions of modern identity in Impressionism in the contexts of race, nationality, gender, and sexuality and through its explorations of the international reach and influence of Impressionism. Part of the acclaimed Wiley Blackwell Companions to Art History series, this important addition to scholarship in this field stands as the 21st century's first major and large-scale academic reassessment of Impressionism. Featuring essays by academics, curators, and conservators from around the world, including those from France, Germany, the United States, the United Kingdom, Japan, Turkey, and Argentina, this is an invaluable text for students and scholars studying Impressionism and late 19th-century European art, Post-Impressionism, modern art, and modern French cultural history.

Monet, Or, The Triumph of Impressionism

John Wiley & Sons

For Monet, the act of creation was always a painful struggle. His obsession with capturing the effects of lighting in nature was much more intense than that of his contemporaries. In his words: "Skills come and go ... art is always the same: a transposition of nature that requires as much determination as sensibility. I strive and struggle against the sun ... I might as well paint it with gold and precious stones." A beautiful display of Impressionist work, *Great Masters Monet* explores the extraordinary paintings of one of the Masters of the 19th century. Monet's rapid brushstroke style in landscapes and scenes from everyday life illustrates his overall fascination with light and colour.

**Monet** Metropolitan Museum of Art

**Monet** Abradale Press

"A native of Aix-en-Provence by birth, Paul Cézanne (1839-1906) went to Paris for the first time in 1861, at the insistence of his childhood friend Émile Zola. Cézanne decided to become a painter, against his family's advice, determined to make his mark on the Parisian scene that was then intrinsic to any successful artistic career. Paradoxically, Cézanne did not use Paris as a theme for his paintings: he did not represent its streets, its monuments, life in the area, or the great urban transformations taking place, unlike many of his contemporaries, including Caillebotte, Guillaumin, and Pissarro. So was the painter indifferent to this city? Throughout his life, he would make over twenty return trips to Paris from Aix, without ever setting down in the capital, even though some of his stays there were lengthy. So what was Cézanne looking for in Paris? What kind of influence did the capital have on his painting? He had contacts with artistic and intellectual circles that were liberal in both thought and lifestyle, and was he determined at all costs to resist their temptation? Was he drawn by the city's vibrant creative buzz, seeing it as something essential to the development of his art? From a range of viewpoints and using extensive illustrations, this book explores these questions by following the painter's career in Paris and the surrounding area, as well as the motifs he used and pictorial choices he made."--Book jacket.

**The Triumph of French Painting** Harper Collins

Claude Monet's extensive work is revealed in numerous images. He was a painter who like no other moved perception to the center of his artistic activities. Nature became his own studio. This resulted in fascinating landscapes of different times and seasons in the mirror of wind and weather.

*Monet at Vétheuil* Bloomsbury Publishing USA

À part Turner, aucun artiste n'a comme Claude Monet (1840-1926) travaillé autant à capturer la lumière sur la toile. De tous les impressionnistes, celui dont Cézanne

disait qu'il n'était «qu'un oeil, mais bon Dieu, quel oeil!» est le seul à ne jamais s'être écarté du principe de fidélité absolue à la sensation visuelle, peignant au plus près de ce qu'il voyait. On dit que Monet a réinventé les possibilités de la couleur. Que ce soit à travers son intérêt précoce pour les estampes japonaises, le temps qu'il a passé pendant son service militaire sous la lumière éblouissante de l'Algérie ou le fait qu'il connaissait personnellement les plus grands peintres de la fin du XIXe siècle, il est vrai que ce que Monet a créé tout au long de sa carrière a changé pour toujours notre manière de percevoir le monde qui nous entoure tel qu'il est. Il atteint le sommet de ses recherches avec la série tardive consacrée aux nymphéas, peinte dans son jardin de Giverny, qui, par la manière dont elle se détache quasiment de la forme, constitue véritablement l'origine de l'art abstrait. Cette biographie rend justice à cet artiste remarquable qui compte parmi les plus marquants et offre de nombreuses reproductions et photos d'archives pour accompagner un commentaire aussi fin qu'approfondi.
