The Essential Guide to Remote Viewing Swann-Ryder Productions, LLC

Remote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability so that ordinary people can learn to do what "psychics" do. This book teaches you how to teach yourself. McMoneagle believes that anybody can be trained in remote viewing (no psychic gifts required). However, it requires a huge commitment and a highly disciplined mind. Using the analogy of martial arts, McMoneagle sees RV training in levels, starting with white belt where viewers can expect to see a gestalt (an overall impression) of a target. By the time readers reach the red-black belt great master, McMoneagle claims they will have gained "a near-perfect union of one's paranormal talent blended within extant reality. People who reach this level no longer have to think about it, they simply do." Although readers won't become great masters by reading this one book, McMoneagle does provide a comprehensive training program as well as important chapters on the ethics, protocol, and applications of remote viewing. McMoneagle is the authority in this area. He learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the Legion of Merit for his contribution to various intelligence operations.

RE-INTERPRETING WHAT IT MEANS TO BE AWAKE The Hidden Revelation, a previously unpublished manuscript of Ingo's, was discovered by Nick Cook in 2016 in a nondescript folder tucked inconspicuously among some of Ingo's notes. Now, together with Beyond the Gods' Devices, another undiscovered manuscript, it is

published for the first time as Resurrecting The Mysterious, a posthumous compilation that delivers what we (that is Nick and Swann-Ryder Productions, LLC) offer here as Ingo's 'grand unified theory' of the human experience (and, in part, of consciousness itself). This asserts that paranormality is part of an 'expanded reality-set' rooted in the relationship between quantum theory, us the observer and something infinitely more profound, even, that is fully described in Beyond the Gods' Devices. The Hidden Revelation is more concerned with us, the immanent experience, the inward journey; Beyond the Gods' Devices with that world, whatever that world truly is, that binds and connects us to 'the numinous' -- that, which, at present, science is unable to describe. For many, it may also make the 'hard problem' of consciousness just that little bit easier to comprehend. We certainly hope so ...

Written by one of the world's leading experts in the field, The Essential Guide to Remote Viewing is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that readers can try for themselves. The ideal reader of The Essential Guide to Remote Viewing will be someone who knows little or nothing about remote viewing and wants an inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions

about what this thing is their loved ones have gotten involved with. Finally, those who are already involved with remote viewing but feel the need to extend their basic knowledge will find this book both interesting and useful.

For the past thirty years, the United States government has secretly trained a select corps of military personnel in the art of "remote viewing" -- the psychic ability to perceive the thoughts and experiences of others through the power of the human mind.... Now, for the first time, Lyn Buchanan -- a world-renowned expert on remote viewing and its potential -- tells the complete, candid story of his experiences. Assigned for nearly a decade to a clandestine U.S. Army intelligence group, Buchanan trained military personnel who utilized their inherent psychic abilities as a data-collection tool during the Iran hostage crisis, the Chernobyl disaster, and the Gulf War. In this incredible account, Buchanan tells how he was selected for his unique psychic abilities, and how he was transformed from an ordinary soldier into one of our nation's leading psychic spies. Working on top-secret government and military projects using "mental espionage" created permanent, life-altering changes within Buchanan. Now, after many years of analysis and interpretation, he reveals the techniques and mental exercises used to train remote viewers, and demonstrates that each of us carries a dormant psychic ability that we can explore and use ourselves. For anyone interested in a hard, scientific look at the reality of psychic covert operations in the world today, or anyone who has ever wondered if he or she could have the inherent skills to become a remote viewer, this fascinating chronicle of life as a psychic spy will reveal the answers.

Your Nostradamus Factor: Accessing Your Innate Ability to See Into the Future BioMind Superpowers Book

Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, "TRINITY: The Best-Kept Secret" written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the

famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment. Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: "Paola Harris and Jacques Vallée have spent much effort doing field research on location (...) It is now time that their discovery be revealed to the world."

You Can Predict the Future Throughout the centuries the future has been seen in dreams, in visions, and by seers. But you don't have to be a prophet or a visionary to predict what the future holds. Now, Ingo Swann explains how to understand and use the future-predicting ability that lies within. He identifies the different ways the future is revealed: Spontaneous forewarnings during dreams Spontaneous alerts that happen when awake Forewarnings and alerts communally experienced by numbers of people while sleeping or while awake Consciously controlled future-seeing achieved by seers Ingo Swann also presents fascinating, documented examples of prophecies that came true, ranging from those that foresaw the sinking of the Titanic to his own prediction of the fall of the Berlin Wall. Your Nostradamus Factor explains how you can develop your ability to foresee the future by: • Overcoming blocks to future-seeing • Tracking a particular subject and testing your predictions • Using astrology to help see the future, and • Paying close attention to your dreams. With the millennium right around the corner, Swann also offers startling predictions for the future of the environment, the economy, science, and society. (originally published in 1993)

Tell Me What You See Swann-Ryder Productions, LLC

In 1989, Ingo Swann was invited by Dr. Elmer Green at the Menninger Foundation to participate in experiments involving physical energy fields, body, electricity, and states of consciousness. The experiments were conducted within an elaborate electrostatic "copper wall environment," the design of which was based on an ancient Asian technique to activate and enhance clairvoyance and lucidity. As a result of the numerous experimental sessions undertaken, Swann's clairvoyance increased tremendously. Various states of lucid consciousness

were achieved with respect to "seeing" vivid details of invisible energetic fields and phenomena of the biological body and its astonishing higher-energy systems. In *PSYCHIC SEXUALITY*, Swann reports on the high-energy systems associated with sexual energies that most people sense, feel, and respond to at very basic levels of consciousness even if they cannot perceive them by clairvoyance. Swann enlarges the book by providing an historical overview of several past epochs of higher-consciousness research during which sexual energies were vividly encountered, but which research was vigorously condemned by organized societal forces. The existence of the societal suppression is itself suppressed. If it was not for the shocking methods utilized to achieve it, the suppression is quite hilarious. Why such research has undergone societal suppression provides an interesting question. As part of an answer, Swann provides a step-by-step rationale that has very surprising implications

The psychic abilities of most humans are dampened by the clutter of our conscious minds. In this timely book, Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing. He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a groundbreaking synthesis of research and empirical data. Drawing on a broad range of spiritual traditions, Targ demonstrates that these psychic abilities offer a path of self-inquiry and self-realization and have the power to expand each person's limited awareness into the consciousness shared by all beings. Targ explores the scientific and spiritual implications of remote viewing, as well as offering practical techniques and exercises to nurture this universally available but often untapped skill.

Most books about power only deal with the societal formula of the few having power over the enormously larger powerless masses, and which is mistaken as the so-called "natural order of power." But it is not well understood that this formula also requires social conditioning measures aimed at perpetuating the continuing depowerment of the powerless so that the powerful CAN have power over them. This in turn requires the societal suppression and secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species, but which are socially forced into latency in most. It is broadly

understood that power and secrecy go together, but the scope of the "web" of secrets surrounding the larger nature of human power(s) is surprising. As discussed in this Volume I of *SECRETS OF POWER*, empowerment is difficult if the larger panorama of societal power and depowerment are not more fully understood. *Star Fire* Swann-Ryder Productions, LLC

Master of Harmlessness Macmillan

"If a fable is a legendary story of supernatural happenings," Mr. Swann says, "or a narration intended to enforce a useful truth, then these four are fables--which shouldn't be confused with fairy tales targeted only for children. These, then, are tales for kind and loving people of all ages." "The Temple of Sanity" tells of an idea that became a reality and grew into an institution, only to develop rules and leaders, cliques and critics . . . "A Clay-Modeling Lesson" tells of the four identical boys separated at birth and raised Christian, Jewish, Muslim, and atheist, and how they met as representatives of their respective communities . . . "The Fate and Destiny of a Traveling Clairvoyant" tells of a woman with a special talent, who found that people prefer seeing dimly to seeing clearly . . . "Watcher of the Purple River" tells of an old woman

and a young man, and how she taught him to watch the river of life . . . These fables came to Ingo Swann as a gift from a part of himself: He awoke four mornings in a row and literally had to write them. They have in common a gentle wisdom, a kindness, an empathy, that will make them immediately precious--and then unforgettable--to the reader whose heart is open.

Limitless Mind Hampton Roads

Ingo Swann -- renowned psi researcher -- reveals a long-held secret series of experiences with a "deep black" agency whose apparent charter was simple: UFOs and extraterrestrials on the moon and worries about ET telepathic/mind control powers. The agency was so secret that it had no paper trail, and hence no written secrecy agreements. Only the verbal ones, which in Ingo's case expired several years ago. Now, in this era of burgeoning UFO "glasnost," he tells a story of meetings held in a secret

underground facility not far from Washington DC, and of being taken to a remote location near the Arctic Circle to witness the expected arrival of a huge UFO over the surface of an Alaskan lake. This book discusses undeveloped human telepathy and contrasts it with the probable existence of fully developed alien telepathy, which may have many different forms. Ingo also explores the fact that we officially know far more than we're admitting about the Moon -- its origins, its atmosphere, its occupants and many other unusual features. Penetration is about one of the means by which we can learn more about those not of this earth (and vice-versa) -- telepathy. Do we have the means to answer some very important questions that many have been asking for quite a long time? Inside this book are the answers to some.
