Today, everyone knows

average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an

educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the

stability and survival of modern democracy in the Information Age that is even more important today.

Vintage Marketing Differentiation describes real life, innovative, outside-the-box solutions. It explains a marketing differentiation process and emphasizes the critical nature of the perception of trends and timely action. Profiles of over 30 companies and brands depict nearly 20 categories of the first marketing strategies ever to be used. These

powerful strategies ignited competitive advantages and help explain why most of these companies are still in business today!

“Penny’s absorbing, intricately plotted 13th Gamache novel proves she only gets better at pursuing dark truths with compassion and grace.” —PEOPLE

“Louise Penny wrote the book on escapist mysteries.” —The New York Times Book Review “You won’t want Louise Penny’s latest to end....Any plot summary of Penny’s novels inevitably falls short of conveying the dark magic of this series.... It takes nerve

and skill — as well as heart — to write mysteries like this. ‘Glass Houses,’ along with many of the other Gamache books, is so compelling that, for the space of reading it, you may well feel that much of what’s going on in the world outside the novel is ‘just noise.’” —Maureen Corrigan, The Washington Post When a mysterious figure appears in Three Pines one cold November day, Armand Gamache and the rest of the villagers are at first curious. Then wary. Through rain and sleet, the figure stands unmoving, staring ahead. From the moment its shadow falls over the village, Gamache, now Chief Superintendent of the Sûreté du Québec, suspects the creature

has deep roots and a dark purpose. Yet he does nothing. What can he do? Only watch and wait. And hope his mounting fears are not realized. But when the figure vanishes overnight and a body is discovered, it falls to Gamache to discover if a debt has been paid or levied. Months later, on a steamy July day as the trial for the accused begins in Montréal, Chief Superintendent Gamache continues to struggle with actions he set in motion that bitter November, from which there is no going back. More than the accused is on trial. Gamache's own conscience is standing in judgment. In *Glass Houses*, her latest utterly gripping book, number-one New York Times bestselling

author Louise Penny shatters the conventions of the crime novel to explore what Gandhi called the court of conscience. A court that supersedes all others.

nothing of her. Her mother was a figure, a name, Irène Némirovsky, a once popular novelist, a Russian émigré from an immensely rich family, a Jew who didn't consider herself one and who even contributed to collaborationist periodicals, and a woman who died in Auschwitz because she was a Jew. To her daughter she was a tragic enigma and a stranger. It was to come to terms with that stranger that Gille wrote, in *The Mirador*, her mother's memoirs. The first part of the book, dated 1929, the year David Golder made Némirovsky famous, takes us back to her difficult childhood in Kiev and St. Petersburg. Her father is doting, her

mother a beautiful monster, while Irène herself is bookish and self-absorbed. There are pogroms and riots, parties and excursions, then revolution, from which the family flees to France, a country of "moderation, freedom, and generosity," where at last she is happy. Some thirteen years later Irène picks up her pen again. Everything has changed. Abandoned by friends and colleagues, she lives in the countryside and waits for the knock on the door. Written a decade before the publication of *Suite Française* made Irène Némirovsky famous once more (something Gille did not live to see), *The Mirador* is a haunted and a haunting book, an unflinching reckoning with the tragic past,

and a triumph not only of the imagination but of love.

How do you keep your employees engaged, creative, innovative, and productive?

Simple: Work human!

From the pioneers of the management strategy that's transforming businesses worldwide, *Making Work Human* shows how to implement a culture of performance and gratitude in the workplace—and seize a competitive edge, increase profitability, and drive business momentum. Leaders of *Workhuman*, the world's fastest-growing social recognition and continuous performance management platform, Eric Mosley and Derek

Irvine use game-changing data analytics to prove that when a workplace becomes more “human”—when it's fueled by a culture of gratitude—measurable business results follow. In *Making Work Human*, they show you how to: Apply analytics and artificial intelligence in ways that make work more human, not less. Expand equity, diversity, and inclusion initiatives and strategies to include a wider range of backgrounds, life experiences, and capabilities. Use recognition as an actionable strategy to create a truly inclusive, connected culture. “The qualities that make us most human—connection, community, positivity,

belonging, and a sense of meaning—have become the corporate fuel for getting things done—for innovating, for thriving in the global marketplace, and for outperforming the competition,” the authors write. By building a sense of belonging, purpose, meaning, happiness, and energy in every employee, you’ll create a profound connection between your organization and its goals. And *Making Work Human* provides everything you need to get there.
