When the tough-on-crime politics of the 1980s overcrowded state prisons, private companies saw potential

profit in building and operating correctional facilities. Today more than a hundred thousand of the 1.5 million incarcerated Americans are held in private prisons in twenty-nine states and federal corrections.

Private prisons are criticized for making money off mass incarceration—to the tune of \$5 billion in annual revenue. Based on Lauren-Brooke Eisen's work as a prosecutor, journalist, and attorney at policy think tanks, Inside Private Prisons blends

investigative reportage and quantitative and historical research to analyze privatized corrections in America. From divestment campaigns to boardrooms to private immigration-detention centers across the Southwest, Eisen examines private prisons through the eyes of inmates, their families, correctional staff, policymakers, activists, Immigration and Customs Enforcement employees, undocumented immigrants, and the executives of America's

largest private prison corporations. Private prisons have become ground zero in the anti-mass-incarceration movement. Universities have divested from these companies, political candidates hesitate to accept their campaign donations, and the Department of Justice tried to phase out its contracts with them. On the other side, impoverished rural towns often try to lure the for-profit prison industry to build facilities and create new jobs. Neither an

endorsement or a demonization, *Inside Private Prisons* details the complicated and perverse incentives rooted in the industry, from mandatory bed occupancy to vested interests in mass incarceration. If private prisons are here to stay, how can we fix them? This book is a blueprint for policymakers to reform practices and for concerned citizens to understand our changing carceral landscape. *Handbook on Anti-Corruption Measures in Prisons* Verso Books

There are thousands of followers of non-Judeo-Christian faith groups in American correctional institutions. Research suggests that many of these prisoners began their incarceration with little or no religious calling, but converted during their imprisonment. According to the FBI, some of these prisoners may be vulnerable to terrorist recruitment. The purpose of this study is three-fold: (1) to collect baseline information on non-traditional religions in U.S.

correctional institutions; (2) to identify the personal and social motivations for prisoners' conversions to these faith groups; and (3) to assess the prisoners' potential for terrorist recruitment. The study creates a starting point for more in-depth research on the relationship between prisoners' conversion to non-traditional religions and extremist violence. Figure. This handbook discusses the importance of effective prisoner file management, illustrating the consequences of poor or non-existent management. It will be of particular relevance to prison systems that do not have electronic systems for managing files. It outlines the key

international human rights standards that apply to prisoner and detainee file management. It also summarizes and illustrates the key requirements of prison systems in relation to prisoner and detainee file management in order to meet international human rights standards and how these might be met. The definitive account of exploitation in the Congo, introduced by Adam Hochschild In the early twentieth century, the worldwide rubber boom led British entrepreneur Lord Leverhulme to the Belgian Congo. Warmly

welcomed by the murderous regime of King Leopold II, Leverhulme set up a private kingdom reliant on the horrific Belgian system of forced labour, a programme that reduced the population of Congo by half and accounted for more deaths than the Nazi Holocaust. In this definitive, meticulously researched history, Jules Marchal exposes the nature of forced labour under Lord Leverhulme's rule and the appalling conditions imposed upon the people of Congo. With

an extensive introduction by Adam Hochschild, Lord Leverhulme's Ghosts is an important and urgently needed account of a laboratory of colonial exploitation.

Resources in Education East African Publishers

Currently, there is a lack of resources and information regarding how to best understand and support those impacted by incarceration. As the number of people impacted by incarceration rises, it is important that we acknowledge the issues and address the

concerns faced by professionals such as social workers and educators that work with families and the most vulnerable populations impacted by incarceration. *Counseling Strategies for Children and Families Impacted by Incarceration* provides in-depth information and background regarding the growing group of children and families impacted by incarceration. It sets out to bridge the gap between community and school counseling, mental health counseling, social work,

and social and cultural issues and can be used for skills development and social justice reasons. Covering topics such as school counseling resources, community engagement, and trauma, it is ideal for researchers, academicians, practitioners, instructors, policymakers, social workers, social justice advocates, counselors, and students.

This historical analysis is followed by a theoretical discussion of its implications for such issues as the mode of production operative in Kenya, the type of class analysis which is appropriate for the country, the role of the state in capital accumulation and class formation, and the possible relevance of Marxist value theory to the analysis of exploitation in Kenya. This book sets new standards for the study of the

process of 'drift into dependency' and of the role of the state in the direction of a political economy. It will be invaluable not only to Africanists but to all those involved in the study of the social, political, and economic structure of Third World countries.

Lord Leverhulme's Ghosts
Penguin

A National Book Award Finalist, this remarkable graphic novel is about growing up in a refugee camp, as told by a former Somali refugee to the Newbery Honor-winning

creator of *Roller Girl*. Omar and his younger brother, Hassan, have spent most of their lives in Dadaab, a refugee camp in Kenya. Life is hard there: never enough food, achingly dull, and without access to the medical care Omar knows his nonverbal brother needs. So when Omar has the opportunity to go to school, he knows it might be a chance to change their future . . . but it would also mean leaving his brother, the only family member he has left, every day.

Heartbreak, hope, and gentle humor exist together in this graphic novel about a childhood spent waiting, and a young man who is able to create a sense of family and home in the most difficult of settings. It's an intimate, important, unforgettable look at the day-to-day life of a refugee, as told to New York Times Bestselling author/artist Victoria Jamieson by Omar Mohamed, the Somali man who lived the story.  Who are expatriates? How do they differ from other migrants? And why should we care about such distinctions? Expatriate interrogates the contested category of 'the expatriate' to explore its history and politics, its making and lived experience. Drawing on ethnographic and archival research, the book offers a critical reading of International Human Resource Management literature, explores the

work and history of the Expatriate Archive Centre in The Hague, and studies the usage and significance of the category in Kenyan history and present-day 'expat Nairobi'. Doing so, the book traces the figure of the expatriate from the mid-twentieth-century era of decolonisation to today's heated debates about migration. The expatriate emerges as a malleable and contested category, of shifting meaning and changing membership, and as passionately embraced by

some as it is rejected by others. The book situates the changing usage of the term in the context of social, political and economic struggle and explores the material and discursive work the expatriate performs in negotiating social inequalities and power relations. Migration, the book argues, is a key terrain on which colonial power relations have been reproduced and translated, and migration categories are at the heart of the insidious ways that intersecting

material and symbolic inequalities are enacted today. Any project for social justice needs to dissect and interrogate categories like the expatriate, and this book offers analytical and methodical strategies to advance this project. Directions in International Terrorism As the number of prisoners in the UK, USA and elsewhere continues to rise, so have concerns risen about the damaging short term and long term effects this has on prisoners. This book

brings together a group of leading authorities in this field, both academics and practitioners, to address the complex issues this has raised, to assess the implications and results of research in this field, and to suggest ways of mitigating the often devastating personal and psychological consequences of imprisonment. **Engaging Art** Through this handbook, UNODC seeks to formally acknowledge and articulate a problem endured by all

jurisdictions and to underline the international commitment to addressing it. The aim of this handbook is not simply to address corruption once it occurs but also to help Member States prevent corruption and protect prisoners, staff and communities from its insidious consequences. This is without prejudice to the fact that the management of prisons is one of the most difficult and demanding tasks that societies require, and many prison leaders and

staff work with great professionalism and commitment to provide safe, decent and just conditions in prisons. Inside Private Prisons The United Nations estimates that four billion people worldwide live outside the protection of the law. These people can be driven from their land, intimidated by violence, and excluded from society. This book is about community paralegals - sometimes called barefoot lawyers - who demystify law and empower people to advocate for

themselves. These paralegals date back to 1950s South Africa and are active today in many countries, but their role has largely been ignored by researchers. Community Paralegals and the Pursuit of Justice is the first book on the subject. Focusing on paralegal movements in six countries, Vivek Maru, Varun Gauri, and their coauthors have collected rich, vivid stories of paralegals helping people to take on injustice, from domestic violence to unlawful mining to denial

of wages. From these stories emerges evidence of what works and how.

The insights in the book will be of immense value in the global fight for

universal justice. This title is also available as Open Access.
