Byzanz, Konstantinopel, Istanbul: drei Namen für eine der facettenreichsten Metropolen dieser Welt. Man sieht in ihr die 'Stadt zwischen Kulturen und Kontinenten', die 'Stadt zwischen Asien und Europa', die 'Stadt zwischen Orient und Okzident' und auch die 'Stadt zwischen Abendland und Morgenland'. Viele stereotype Bilder wollen die Magie und die imaginäre ebenso wie die tatsächliche Größe der Stadt greifbar machen; dabei wird sie zu einer Stadt der Bilder, Projektionen und Sehnsuchtskonstruktionen. Diese sind eng verbunden mit kulturellen Wert- und Normzuschreibungen. Istanbul erfuhr in den letzten Jahrzehnten eine immense Dynamisierung in nahezu allen Bereichen seines urbanen Alltags. Damit einher gehen weitreichende gesellschaftliche Veränderungen und die Suche nach kultureller Identität. Die Fremd- und Selbstwahrnehmung unterliegt dabei einem kontinuierlichen Wandel und einer komplexen, durch unterschiedlichste Akteure und Rezipienten beeinflussten Konstruktion und Dekonstruktion. Istanbul steht derzeit wie kaum eine andere Stadt stereotyp fu?r viele (un-)gelo?ste gesellschaftliche Fragestellungen. Diese Studie fokussiert diese exemplarisch über beide Grenzen des 20. Jahrhunderts hinweg und veranschaulicht im Spiegel der Reiseliteratur sich ergebende Folgen für die Bilder der Stadt. Sebastian Gietl, Dr. phil., M.A., ist seit 2011 Wissenschaftlicher Assistent am Lehrstuhl für Vergleichende Kulturwissenschaft im Institut für Information und Medien, Sprache und Kultur der Universität Regensburg. Nach dem Studium der Volkskunde, Geschichte und Kunstgeschichte in Regensburg leitete er von 2004 bis 2011 das Kultur- und Tourismusamt der Stadt Freising. Zu seinen Forschungsschwerpunkten zählen Stereotype und Bildkulturen. In aktuellen Projekten untersucht er die Entwicklung der öffentlichen Kultur- und Tourismusarbeit und den Wandel menschlicher Körperkulturen.

What type of person was Jack the Ripper? Why did he kill and mutilate six prostitutes in 1888? What was the motive for the crimes? Why was he never caught? This book does not name Jack the Ripper, but instead offers a unique insight into the mind of the Ripper and illustrates the harshness of life for many people in the East End of London at that time. It explains how a young criminal from Spitalfields, became the most infamous serial killer of all time. It reveals how his early life may have developed and the circumstances that led him to commit six murders over three months. The Ripper was born into poverty, neglect and abuse, resulting in a life of crime. But something else made him into a serial killer of prostitutes. This book is not for the faint-hearted nor for people that are easily offended by bad language, sex or sexual violence. Each of the six killings is described in explicit detail, to understand the type of person, Jack the Ripper, was. This story

explores the psychology and development of Jack the Ripper and is accurately based upon the crime scene evidence that is in the National Archives. It covers the key events chronologically from both the point of view of the Ripper and also of Detective Inspector Edmund Reid, who leads the investigation. Discover the reasons behind the chosen Modus Operandi and the signature of the killings. The Ripper's story is partly told through his aunt, who is the strong, no-nonsense landlady of the Princess Alice public house. It demonstrates the likely personality of the Ripper through interactions with her and with other people. The motives for each of the Ripper's crimes are explained by Inspector Reid, some of which are different from other theories. The story shows why his crimes escalated, from earlier knife attacks to his first kill with Martha Tabrum. And why they ended with the grotesque mutilation of Mary Jane Kelly. The other aspect of the story focusses on the police investigation, by contrasting two different investigative approaches to catching Jack the Ripper. Detective Inspector Reid tries to understand the crimes and the killer from a psychological perspective. Each killing is explained and analysed in detail by Inspector Reid, for him to build up a picture of the killer and his probable motives. Whereas, Detective Inspector Fred Abberline is relying on his local knowledge policing. The story not only demonstrates the psychology and the personality of the Ripper through his crimes; it also demonstrates Reid's desire to understand the perpetrator of the crimes, to narrow down the likely suspect from the rest of the population of Spitalfields. This book clearly shows the psychological battle the killer has with his mind and the quest of Inspector Reid, in finding an unknown serial killer. The book contains maps of the crime scenes, explanations of the local dialects and rhyming slang used in the story, a list of the key persons involved in each murder or attack and Inspector Reid's noticeboards that help him narrow down the suspect.

Wiener Schintzel, apple strudel, the Prater, Schoebrunn, and the beautiful Blue Danube?The Viennese are proud of the fact that in Austria's capital, even the sights are really worth seeing. Beyond the well-trodden paths, however, a completely unknown, kinky, even morbid Vienna can be found -- with less icing and dreams of waltzes and more living and dying (after all, the saying goes that Vienna is the most beautiful city to die in). The city lives up to its reputation from unaccustomed perspectives as well: a slaughterhouse in which hippie idol Leonard Cohen was once a squatter; a museum with murderers; an 18th-century looney bin shaped like a UFO; a store for erotic underwear in an Archbishop's palace, Trotsky's garden; the corner on which Third Man Harry Lime supposedly died in an accident; narrow 16th-centuryalleyways and, of course, all the Kafka, coffeehouse culture, and Klimt you can eat; famous assassinations and grim reminders of the Nazi past. This guide will introduce you to a Vienna which is still alive although it's bursting with history -- the pulsating city which many consider the most beautiful city in Europe. --[original inside book jacket].
