Samuel Langhorne Clemens (November 30, 1835 - April 21, 1910), better known by his pen name Mark Twain, was an American author and humorist. He wrote *The Adventures of Tom Sawyer* (1876) and its sequel, *Adventures of Huckleberry Finn* (1885), the latter often called "The Great American Novel." Twain grew up in Hannibal, Missouri, which provided the setting for *Huckleberry Finn* and *Tom Sawyer*. After an apprenticeship with a printer, he worked as a typesetter and contributed articles to the newspaper of his older brother, Orion Clemens. He later became a riverboat pilot on the Mississippi River before heading west to join Orion in Nevada. He referred humorously to his singular lack of success at mining, turning to journalism for the Virginia City Territorial Enterprise. In 1865, his humorous story, "The Celebrated Jumping Frog of Calaveras County," was published, based on a story he heard at Angels Hotel in Angels Camp, California, where he had spent some time as a miner. The short story brought international attention, and was even translated into classic Greek. His wit and satire, in prose and in speech, earned praise from critics and peers, and he was a friend to presidents, artists, industrialists, and European royalty. Though Twain earned a great deal of money from his writings and lectures, he invested in ventures that lost a great deal of money, notably the Paige Compositor, a mechanical typesetter, which failed because of its complexity and imprecision. In the wake of these financial setbacks, he filed for protection from his creditors via bankruptcy, and with the help of Henry Huttleston Rogers eventually overcame his financial troubles. Twain chose to pay all his pre-bankruptcy creditors in full, though he had no legal responsibility to do so.

To a nation fed on classical music, the advent of Rahul Dev Burman with his repertoire of Western beats was a godsend. RD revolutionized Hindi film music in the 1970s, and with his emphasis on rhythm and beats, this Pied Piper of Hindi film music had young India swinging to his tunes. At the same time, this genius proved his many detractors who criticized him for corrupting popular taste wrong by composing some of the most influential raga-based songs in Hindi cinema and showing an immense comfort with all kinds of music, including Indian folk. RD: The Man, The Music looks at the phenomenon called R.D. Burman and how he changed the way Indians perceived Hindi film music. Through anecdotes and trivia that went into the making of Panoram's music - the many innovations he introduced, like mixed rhythm patterns, piquant chords and sound mixing - and through interactions with the musicians who were part of RD's team, the authors create a fascinating portrait of a man who, through his music, continues to thrive, even fifteen years after his death.

This book contains 26 papers presented at the National Seminar on Tribal People of Central India: Problems and Prospects organized by the Department of Anthropology, Mahatma Gandhi

Antarrashtriya Hindi Vishwavidyalaya in collaboration with Anthropologic Survey of India under the convenorship of Dr. Farhad Mollick. The papers are arranged into four sections in such a way that they bring out a clear picture of the status of tribal communities in Central India. The tribes in India constitute the weaker section of the population from ecological, economic and educational angles. Illiteracy, poverty, ill-health and malnutrition continue to be higher among the scheduled tribes than any other section of the population. Despite the constitutional provision and various legal protections, the problem of land alienation has multiplied. There are other problems such as indebtedness, exploitation, loss of natural resources and indigenous knowledge system. The provision of law under different Acts for safeguarding their interest and maintaining their identity remains largely unimplemented. The issues related to tribal policy, socio-cultural context, tribal health and tribal economy have been discussed in the book from the viewpoints of anthropologists and other specialists working on tribal communities.

sharply satirical, brilliantly written . . . shows how human care can undo what human carelessness has wrought.”—The Atlantic “These authors don't hesitate to present the alarming facts: More than 1,000 species of animals (and plants) become extinct every year. . . . Perhaps Adams and Carwardine, with their witty science, will help prevent such misadventures in the future.”—Boston Sunday Herald “Very funny and moving . . . The glimpses of rare fauna seem to have enlarged [Adams's] thinking, enlivened his world; and so might the animals do for us all, if we were to help them live.”—The Washington Post Book World “[Adams] invites us to enter into a conspiracy of laughter and caring.”—Los Angeles Times “Amusing . . . thought-provoking . . . Its details on the heroic efforts being made to save these animals are inspirational.”—The New York Times Book Review
