Ivo Andric (1892-1975), Nobel Prize laureate for literature in 1961, is undoubtedly the most popular of all contemporary Yugoslav writers. Over the span of fifty-two years some 267 of his works have been published in thirty-three languages. Andric's doctoral dissertation, *The Development of Spiritual Life in Bosnia under the Influence of Turkish Rule* (1924), never before translated into English, sheds important light on the author's literary writings and must be taken into account in any current critical analysis of his work. Over his long and distinguished career as a diplomat and man of letters Andric never again so directly or discursively addressed, as a social historian, the impact of Turkish hegemony on the Bosnian people (1463-1878), a theme he returns to again and again in his novels. Although Andric's fiction was embedded in history, scholars know very little of his actual readings in history and have no other comparable treatment of it from his own pen. This dissertation abounds with topics that Andric incorporated into his early stories and later novels, including a focus on the moral stresses and compromises within Bosnia's four religious confessions: Catholic, Orthodox, Jew, and Muslim. Z. B. Juricic provides an extensive introduction describing the circumstances under which this work was written and situating it in Andric's oeuvre. John F. Loud's original bibliography drawn from this dissertation stands as the only comprehensive inventory of historical sources known to have been closely familiar to the author at this early stage in his development.

Postmodern Spain examines the cultural transformation experienced by Spanish society during the late 1980s and 1990s. By looking at specific aspects of culture, the representation of the human subject, the past, and the transformation of the city this book critically re-assesses the validity of postmodernism in Spain. Focusing on the novels written by Juan Goytisolo during this period this book examines the representation and development of the human subject and its identification with the marginalized 'other(s)'. It further analyses various representations of the Spanish Civil War, challenging the prevalent view of post-Franco Spain as suffering from amnesia, and thereby vindicates postmodern historical representations as a valid dialogue with the past. The third chapter examines Barcelona's urban redevelopment, analysing the transformation effected in some of its popular sites as a postmodern re-formulation of the city as a fluid, flexible public space. Finally it brings its previous findings to bear on an analysis of the Barcelona 1992 Olympic Games. It argues that these celebrations constituted a performance of Spain's 'new' cultural identity designed for global, national and local consumption. Thus, these cultural celebrations corroborated the emergence of postmodernism as a cultural dominant which has exceeded modern and pre-modern cultural practices while, paradoxically, containing and enhancing both.

Teacher's score - Petr Eben has encouraged and approved these arrangements for two-guitars, pupil and teacher. The student always plays the original melody which is often repeated in a different register allowing for the playing of complete melodic phrases with the thumb. A feature of these arrangements is the early and frequent use of the second and third positions, and to a lesser extent, positions four to five; this is done for essentially musical reasons and teachers are advised to follow the suggested left hand fingering. Right hand fingerings are given to show whether a phrase should begin with the index or middle finger or the thumb.

Zbornik prinaša referate z istoimenskega mednarodnega simpozija, ki je potekal 25. in 26. oktobra 2001 v Ljubljani. Namen zborovanja je bil slovesno obuditi spomin na to pomembno akademsko filharmonično ustanovo in opozoriti na njeno vpetost v glasbeno poustvarjanje tako na Slovenskem kot v evropskem kontekstu. Sedemnajst referentov iz šestih držav je poudarilo pomen kontinuitete tristoletnega razvoja orkestrskega oziroma simfoničnega poustvarjanja na Slovenskem, čeprav z nekaj prekinitvami, in s tem oblikovanja tradicije.

Kuno, a male nurse in a Swiss retirement home, has a new inmate: his father. In the confines of their new home, the pair does something surprising--they finally begin to talk. Kuno had always regarded his father as a boring man without a history or a destiny, until they are thrust together and he learns that his father risked his life in the war. Stunned, Kuno embarks on a journey into his own psyche, taking him to the depths of the Congo. Here, longings awaken and dreams come true--rays of light in the darkness, meetings with kings, seductive women, and the songs of the jungle. This alluring far-away place he once regarded as the heart of darkness suddenly becomes an exciting locale of lunacy, wildness, and tests of inner strength. In Urs Widmer's characteristic style, *In the Congo* is a riveting yarn, threading through not only the relationship between a father and son, but that of Africa and Europe. Translated by Donal McLaughlin, this novel will delight Widmer fans the world over and will turn our notions of colonialism on their heads.

In the Congo Peter Lang

This book situates the picturebook genre within the widespread international phenomenon of crossover literature, examining an international corpus of picturebooks — including artists' books, wordless picturebooks, and celebrity picturebooks — that appeal to readers of all ages. Focusing on contemporary picturebooks, Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre, but in the eyes of many authors, illustrators, and publishers, it is a narrative form that can address any and all age groups. Innovative graphics and formats as well as the creative, often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult "adult" themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. *Crossover Picturebooks* is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation, and contributes significantly to the field of children's literature as a whole.
