Stuck like a tongue in the

mouth of Senegal, the tiny country of the Gambia is one of those places the world forgets until the president puts down a

coup — but as Andrew Gilman discovered one hot summer, even the craziest dictator can be nice at his own birthday party. Anything's possible in a land where you can search for dragons by day and sip tea with silversmiths by night, or meet a blacksmith who moonlights as a sorcerer. Signing up for a seven-week trip, Andrew never thought Gambian life might mean knife-wielding maniacs and hungry crocodiles, swimming in hippo-infested waters or barely

escaping riptides. But he packed enough for a small safari, just in case.

Between magic and the local moonshine Andrew managed to make it out alive — and with self-deprecating humor tells the story of a country called “the Smiling Coast,” and a travel novice forgetting to look before he leaps headlong into the heart of Africa.

My struggle for the downtrodden and life objective of providing healthcare delivery to

rural Gambia was reinforced by ideas I picked up while a student in Michigan but above for my love and commitment to my fellow villagers. A drowning person swims frantically towards any floating object to cling on it in hope of saving his or her dear precious life. It is form of triumph sane person yearns. We are elated on overcoming be it our fears, failures or a seemingly unsolvable state of difficulty. This work is combination and outcome based up on triumph embellished with

angelic hope of bringing health care relief to rural Gambia. It is strong conviction that when one committed to the greater good through hard work hope will be given to intended receivers. Hence, this work is about way a simple but penniless village boy fought against the odds and mountains of inhuman laws at many crossroads of his life. It portrays struggle to be above treacherous waves while clamouring to bring rewarding healthcare service to villagers in the

North Bank of the Gambia. Being most of the time jobless and penniless made it all look like an Alice in wonderland fairy tale adventure. The turbulent waves commenced in 1953 when I made up my mind to become part of the solution to rural Gambia's health service delivery shortage. Even though young I was fully aware that no one could serve our people better other than us indigenous Gambians. This belief propelled me into similar trip or experience Sinbad

the sailor or Marco Polo went through. Most of the trials and tribulation I encountered have already been revealed in previous works of mine. Brace yourself and take heart to read about this life before you. This work relates to my eventual graduating from medical school, then returning to the Gambia and working as Medical Officer at the Royal Victoria Hospital (RVH), Banjul and finally establishing NGO: Manding Medical Centre, a village self-help health organisation that provide

much needed quality medical services at Njawara North Bank Division of the Gambia, West Africa. Finally this work hopes to inspire, give hope and encouragement to youngsters about how not to give up on life and urge them stay buoyed to face challenges life throws at us in this sojourn. Please allow me express profound gratitude to the numerous friends who were persistent in encouraging me Publish this epic stories.

of Bradt's The Gambia remains the most comprehensive guide available to mainland Africa's smallest country. This new edition integrates recent developments, from recently opened restaurants and hotels to the new roads and bridges that make circumnavigating the country easier than ever. The guide provides detailed coverage of ecolodges and camps, information on festivals, music workshops and opportunities to

experience local culture, plus advice about birdwatching possibilities in a country popular with first-time birders to Africa. As well as encompassing popular coastal resorts, the guide provides information required to explore the relatively undeveloped interior and proposes excursions into neighbouring Senegal, making it ideal for visitors on organised holidays and independent travellers alike. Bradt's The Gambia reveals all the practical information needed to explore this welcoming

and safe country (not for nothing is it nicknamed the 'Smiling Coast') with its plethora of beach resorts, catering to all tastes and budgets, that line the 80km stretch of tropical coastline running from the capital Banjul to the remote southern border. Small in size but rich in character, The Gambia offers perhaps the closest English-speaking 'winter sun' destination from Europe. Justifiably popular with birdwatchers, the lush mangrove- and jungle-fringed River Gambia is

also home to crocodiles, hippos, rehabilitated chimpanzees and various monkeys. The Gambia offers rich heritage tourism for moderately adventurous travellers, from the mysterious megalithic stone circles at Wassu and Ker Batch to fortified Kunta Kinteh (James) Island and the former slave-trading village of Juffureh - the heart of novelist Alex Haley's Roots country and part of two UNESCO World Heritage Sites. And why not enhance your visit further by experiencing

colourful local markets, witnessing kankurang spirit masquerades or joining a kayak cruise from the sleepy river port of Janjanbureh, or paying homage to The Gambia's inspiring journey towards democracy and reconciliation at Memory House? All in all, Bradt's The Gambia is the perfect companion for discovering this safe, welcoming and tourist-friendly English-speaking country which provides an ideal short-stay introduction to West Africa's unique atmosphere.

This monograph explores the expansion of the Tablighi Jama'at, a transnational Islamic missionary movement that originated in India in

the mid-nineteenth century, and its impact in the Gambia (West Africa) in the past decade. The Jama'at offers Gambian youth, and women in particular, new opportunities to express their religious identity in a way that is in line with a modern lifestyle. The book investigates how Gambian youth have incorporated the South Asian Tablighi ideology into their daily lives and adapted it to their local context.

The Gambia Routledge
There has been a long

tradition of migration in the tiny West African nation The Gambia due to its geographic location, which has drawn international trade, wars, and conquests throughout history. The Senegambia region was one of the main transit points for the transatlantic slave trades between the 15th and 20th centuries, during which some 12 million slaves were forced from Africa to the Americas. Today, The Gambia is the smallest country on the African continent, with notable flows of both

internal and international migrants. Since gaining independence from Britain in 1965, economic turmoil has been a primary driver of these flows. Between 1993 and 2010, the urban population increased from about 37 percent to 58 percent of the total population, largely driven by young Gambians in rural areas migrating to urban areas in search of work. The Gambian government's inability to restore economic stability -- including rectifying high unemployment especially

among youth -- has resulted in increased emigration among all segments of the population, in particular nurses and doctors. With approximately 65,000 Gambians abroad in 2010 (or around 4 percent of the total population), the country's emigrant stock is small compared to other African countries. However, its skilled emigration rate (63 percent in 2000) was ranked among the top 20 worldwide and the second highest among African countries. Emigrants from

The Gambia -- both skilled and unskilled -- send high levels of remittances home, but historically, the contributions of the Gambian diaspora have not been recognized by the Gambian government. In recent years, however, the Gambian government has begun to reach out to its citizens abroad, who mainly reside in Spain, the United States, Nigeria, Senegal, and the United Kingdom.

 Obinna Chilekezi's Songs of a Stranger at the Smiling Coast is a collection of poems that revolves around love, loss and nature. The poet renders in powerful lines the beauty and burdens of the rivers Niger and Gambia. Obinna Chilekezi announces his arrival with a strong love collection that invokes passion. The poems in this collection underline the compelling

passion of the poet, which is held together by motifs of the African pastoral landscape and rivers. He employs imagery and sample diction to convey his love on the wings of time. Chilekezi's lines echo Neruda.

The Gambia: Smiling Coast Springer Nature Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! The inspiring true story of how one

African woman began a movement to recycle the plastic bags that were polluting her community. Plastic bags are cheap and easy to use. But what happens when a bag breaks or is no longer needed? In Njau, Gambia, people simply dropped the bags and went on their way. One plastic bag became two. Then ten. Then a hundred. The bags accumulated in ugly heaps alongside roads. Water pooled in them, bringing mosquitoes and disease. Some bags were burned, leaving behind a

terrible smell. Some were buried, but they strangled gardens. They killed livestock that tried to eat them. Something had to change. Isatou Ceesay was that change. She found a way to recycle the bags and transform her community. This inspirational true story shows how one person's actions really can make a difference in our world.

This book examines the causes of irregular migration, with particular focus on the mass movement of Gambian youth and youth from other parts of the world. These youth risk the journey across the dangerous desert to the Mediterranean Sea with

the aim of reaching the West. Investigation shows that poor economic and bad political situations in many developing countries, together with the uncontrollable unemployment rate among the youth combined with insecurity are the root causes. Conversely, the book proposes good governance characterised by equitable distribution of resources as the antidote to the prevalence of this mass movement.

 Gambia is one of the most popular destinations to travel to in Africa. Its hot weather, beautiful beaches, rich culture, and friendly citizens make it the ideal holiday location for many. There is also a growing influx of people of African heritage born in the diaspora, who have either relocated permanently to Gambia or they have plans to move their in the future. Author Makonnen Sankofa has been to Gambia 3 times. In 2019, he spent 6

months living in Gambia. In this book, Makonnen gives insight into his experiences of Gambia. His journey is from the perspective of a person who has African-Caribbean heritage and was born in the diaspora. During his time in Gambia, Makonnen connected with his African roots and explored opportunities available in Gambia. Makonnen had an eventful time in Gambia. This included visiting the villages, going to a wedding, learning about the different tribes,

teaching in schools, filming and editing videos for the Blaxit YouTube channel, and meeting the movers and shakers of Gambia!

Travel Guides
 Perspectives on New Gambia is a detailed chronicle of the ebb and flow of The Gambia's first-ever democratic transition of power. The First Republic was brought to an end in a bloodless military coup on Friday, 22 July 1994 that led to the political ascendancy

of the then young military officer Lieutenant Yahya Jammeh. After two years in charge as a military leader, he ran for President in 1996 and went on to win three successive presidential terms until Friday, 2 December 2016 when he was defeated at the polls by an opposition coalition, led by Adama Barrow. Although Yahya Jammeh initially conceded defeat and later retracted his concession, he finally gave up power on Friday, 20 January 2017. In between these two

monumental shifts, The Gambia tottered on the brink, threatening to tip over into an abyss. This book is a living witness to the mood and flavour of that turbulent moment in the political evolution of The Gambia. Divided into four interrelated sections, Perspectives on New Gambia traces the history of Coalition 2016, explores the political impasse and post-election peace in The Gambia, critically examines the first 100 Days of the Coalition Government, discusses public

expectations and proffers strategic recommendations for rebuilding The Gambia.

History The Gambia's history is marked by almost as much cultural diversity as its current population. The first "tourists" were Portuguese traders in the 1500s who introduced peanuts and cotton before leaving a hundred years later, selling their trading rights to the British. Fort James, established by the British, soon had a rival

fort at Albreda, built by the French. During the 17th and 18th centuries, these forts were the scenes of periodic battles between the countries striving for control of regional trade. Britain gained all rights to trade in 1783, and administered the territory from Sierra Leone until 1888, when The Gambia became a crown colony, completely surrounded by French

Senegal except for a small section of coastline. In the 1960s, federation with Senegal was considered, but finally in 1965 The Gambia became an independent country with Dawda Kairaba Jawara as first president. He retained power until the beginning of the Second Republic in 1994 under current-President Yahya Jammeh
