A reexamination of the people and movements associated with Qumran, their outlook on the world, and what bound them together Dead Sea Scrolls, *Revise and Repeat* examines the identity of the Qumran movement by reassessing former conclusions and bringing new methodologies to the study of the Dead Sea Scrolls. The collection as a whole addresses questions of identity as they relate to law, language, and literary formation; considerations of time and space; and demarcations of the body. The thirteen essays in this volume reassess the categorization of rule texts,

the reuse of scripture, the significance of angelic fellowship, the varieties of calendrical use, and celibacy within the Qumran movement. Contributors consider identity in the Dead Sea Scrolls from new interdisciplinary perspectives, including spatial theory, legal theory, historical linguistics, ethnicity theory, cognitive literary theory, monster theory, and masculinity theory. Features Essays that draw on new theoretical frameworks and recent advances in Qumran studies A tribute to the late Peter Flint, whose scholarship helped to shape Qumran studies

The Baltic Sea Region in Transition

Imray, Laurie, Norie and Wilson Ltd

Many people today have never heard of the Comoros, but these islands were once part of a prosperous regional

trading economy that stretched halfway around the world. A key node in the trading networks of the Indian Ocean, the Comoros prospered by exchanging slaves and commodities with Arab and Indian merchants. By the sixteenth century, the archipelago served as an important supply point on the route from Europe to Asia. The twentieth century brought the establishment of French colonial rule and a plantation economy. Since declaring its independence in 1975, the Comoros has been blighted by more than twenty coups, a radical revolutionary government and a mercenary regime. Today, the island nation suffers chronic mismanagement and relies on remittances from a diaspora community in France. Nonetheless, the Comoros is largely

peaceful and culturally vibrant--connected to the outside world in the internet age, but, at the same time, still slightly apart. Iain Walker traces the history and unique culture of these enigmatic islands, from their first settlement by Africans, Arabs and Austronesians, through their heyday within the greater Swahili world, to their decline as a forgotten outpost of the French colonial empire.

Rabbinic Perspectives: Rabbinic Literature and the Dead Sea Scrolls

BRILL

Unveiling the Hidden—Anticipating the Future investigates the Jewish components of Jewish divination, showing practitioners and their practices within their cultural and intellectual contexts, along with their fears, wishes, and anxieties, drawing from original

sources in Hebrew, Aramaic, and Judaeo-Arabic.

Studies in Symbolic Interaction BRILL

Communities around the United States face the threat of being underwater. This is not only a matter of rising waters reaching the doorstep. It is also the threat of being financially underwater, owning assets worth less than the money borrowed to obtain them. Many areas around the country may become economically uninhabitable before they become physically unlivable. In *Underwater*, Rebecca Elliott explores how families, communities, and governments confront problems of loss as the climate changes. She offers the first in-depth account of the politics and social effects of the U.S. National Flood Insurance Program (NFIP), which

provides flood insurance protection for virtually all homes and small businesses that require it. In doing so, the NFIP turns the risk of flooding into an immediate economic reality, shaping who lives on the waterfront, on what terms, and at what cost. Drawing on archival, interview, ethnographic, and other documentary data, Elliott follows controversies over the NFIP from its establishment in the 1960s to the present, from local backlash over flood maps to Congressional debates over insurance reform. Though flood insurance is often portrayed as a rational solution for managing risk, it has ignited recurring fights over what is fair and valuable, what needs protecting and what should be let go, who deserves assistance and on what terms, and

whose expectations of future losses are used to govern the present. An incisive and comprehensive consideration of the fundamental dilemmas of moral economy underlying insurance, *Underwater* sheds new light on how Americans cope with loss as the water rises.

Sea Otters 7 X 7 Mini Wall Calendar 2019: 16 Month Calendar

Createspace Independent Publishing Platform

This first edition of South China Sea is the successor to Stephen Davies and Elaine Morgan's Cruising Guide to Southeast Asia, Volume I (Imray).

Building on the earlier work, this new edition has been updated and expanded to include coverage of Cambodia and Taiwan. For the past 12 years, Jo Winter has been cruising these waters in her 45' Island Packet, Brother Wind, and she describes it as one of the most diverse,

beautiful, unspoilt and undiscovered sailing areas in the world. The book covers thousands of miles of coastline, a multitude of islands and inland up many of the region's navigable rivers. Along with a comprehensive range of information to help with planning a cruise in this region, the introductory section details weather information, including coverage of typhoons, and also indicates piracy risk areas to be avoided. Sailing directions include small scale area plans to orientate the navigator and larger scale plans to show details of harbours and anchorages. Full colour throughout, the plans and numerous photographs illustrate key features and places. Whether transiting the region or planning a more extended cruise along any of the coastlines bordering the

South China Sea, this guide is an essential companion.

Chase's Calendar of Events 2020 The Unofficial Guides

THE trusted source of information for a

successful Walt Disney World vacation
Compiled and written by a team of experienced researchers whose work has been cited by such diverse sources as USA Today and Operations Research Forum, The Unofficial Guide to Walt Disney World digs deeper and offers more than any other guide. The Unofficial Guide to Walt Disney World 2018 explains how Walt Disney World works and how to use that knowledge to make every minute and every dollar of your vacation count. With advice that is direct, prescriptive, and detailed, it takes the guesswork out of travel by unambiguously rating and ranking everything from hotels, restaurants, and attractions to rental car companies. With an Unofficial Guide in hand, and authors Bob Sehlinger and Len Testa as guides,

find out what's available in every category, from best to worst, and use step-by-step detailed plans to help make the most of your time at Walt Disney World.

T&T Clark Companion to the Dead Sea Scrolls Frontiers Media SA

England's Islands in a Sea of Troubles examines the jurisdictional disputes and cultural complexities in England's relationship with its island fringe from Tudor times to the eighteenth century, and traces island privileges and anomalies to the present. It tells a dramatic story of sieges and battles, pirates and shipwrecks, prisoners and prophets, as kings and commoners negotiated the political, military, religious, and administrative demands of the early modern state. The Channel

Islands, the Isle of Wight, the Isles of Scilly, the Isle of Man, Lundy, Holy Island and others emerge as important offshore outposts that long remained strange, separate, and perversely independent. England's islands were difficult to govern, and were prone to neglect, yet their strategic value far outweighed their size. Though vulnerable to foreign threats, their harbours and castles served as forward bases of English power. In civil war they were divided and contested, fought over and occupied. Jersey and the Isles of Scilly served as refuges for royalists on the run. Charles I was held on the Isle of Wight. External authority was sometimes light of touch, as English governments used the islands as fortresses, commercial assets, and political prisons. London was often

puzzled by the linguistic differences, tangled histories, and special claims of island communities. Though increasingly integrated within the realm, the islands maintained challenging peculiarities and distinctive characteristics. Drawing on a wide range of sources, and the insights of maritime, military, and legal scholarship, this is an original contribution to social, cultural, and constitutional history.

The Seven Seas Volume 2 Oxford University Press
