From the myth of William Webb Ellis to

the glory of the 2003 World Cup win, this book explores the social history of rugby union in England. Ever since Tom Brown's Schooldays the sport has seen itself as the guardian of traditional English middle-class values. In this fascinating new history, leading rugby historian Tony Collins demonstrates how these values have shaped the English game, from the public schools to mass spectator sport, from strict amateurism to global professionalism. Based on unprecedented access to the official archives of the Rugby Football Union, and drawing on an impressive array of sources from club minutes to personal memoirs and contemporary literature, the book explores in vivid detail the key events, personalities and players that have made English rugby. From an era

of rapid growth at the end of the nineteenth century, through the terrible losses suffered during the First World War and the subsequent 'rush to rugby' in the public and grammar schools, and into the periods of disorientation and commercialisation in the 1960s through to the present day, the story of English rugby union is also the story of the making of modern England. Like all the very best writers on sport, Tony Collins uses sport as a prism through which to better understand both culture and society. A ground-breaking work of both social history and sport history, A Social History of English Rugby Union tells a fascinating story of sporting endeavour, masculine identity, imperial ideology, social consciousness and the nature of Englishness.

Acts of Religion, compiled in close association with Jacques Derrida, brings together for the first time a number of Derrida's writings on religion and questions of faith and their relation to philosophy and political culture. The

essays discuss religious texts from Jewish, Christian, and Muslim traditions, as well as religious thinkers such as Kant, Levinas, and Gershom Scholem, and comprise pieces spanning Derrida's career. The collection includes two new essays by Derrida that appear here for the first time in any language, as well as a substantial introduction by Gil Anidjar that explores Derrida's return to his own "religious" origins and his attempts to bring to light hidden religious dimensions of the social, cultural, historical, and political. *Mitteilungen aus Justus Perthes' geographischer Anstalt über wichtige neue Erforschungen auf dem Gesamtgebiete der Geographie von A.  Die DDR ist nach 1990 zu einem

Gegenstand von Geschichtsunterricht geworden, der für viele Schülerinnen und Schüler so fern ist wie jeder andere. Zugleich aber ist die DDR für manche Lehrkräfte und Eltern gelebte Erinnerung. Was im Unterricht über sie gelernt werden soll, ist allerdings das Ergebnis gesellschaftlicher Debatten um Aufarbeitung und Erinnerung. In diesen dominiert ein "Diktaturgedächtnis", das den Erzählungen in Familie und Medien vom Alltag in der DDR häufig widerspricht. Anhand einer Analyse von konkretem Geschichtsunterricht, Lehrplänen, Schulbüchern, Geschichtsausstellungen und Interviews untersucht die vorliegende Studie, welche Erzählungen über und Deutungskonflikte um die DDR im Unterricht auftauchen und wie diese

verhandelt werden. Der Unterrichtsvergleich zwischen Leipzig, Frankfurt am Main und Paris zeigt die Standortgebundenheit mancher Debatten, aber auch Anschlussmöglichkeiten für DDR-Geschichte an europäische Geschichte und die Geschichte der Arbeiterbewegung.

Winner of the European Book Prize "The East isn't far away at all. It clings to me, it goes with me everywhere. It's like a big family that you can't shake off ..."

Berlin, Maxim Leo knew not to ask questions. All he knew was that his rebellious parents, Wolf and Anne, with their dyed hair, leather jackets and insistence he call them by their first names, were a bit embarrassing. That there were some places you couldn't play; certain things you didn't say. Now, married with two children and the Wall a distant memory, Maxim decides to find the answers to the questions he couldn't ask. Why did his parents, once passionately in love, grow apart? Why did his father become so angry, and his mother quit her career in journalism? And why did his grandfather Gerhard, the Socialist war hero, turn into a stranger? The story he unearths is, like his country's past, one of hopes, lies, cruelties, betrayals but also love. In Red

Love he captures, with warmth and unflinching honesty, why so many dreamed the GDR would be a new world and why, in the end, it fell apart. "Tender, acute and utterly absorbing. In fine portraits of his family members Leo takes us through three generations of his family, showing how they adopt, reject and survive the fierce, uplifting and ultimately catastrophic ideologies of 20th-century Europe. We are taken on an intimate journey from the exhilaration and extreme courage of the French Resistance to the uncomfortable moral accommodations of passive resistance in the GDR. "He describes these 'ordinary lies' and contradictions, and the way human beings have to negotiate their way through them, with great clarity, humour and truthfulness, for which the

jury of the European Book Prize is delighted to honour Red Love . His personal memoir serves as an unofficial history of a country that no longer exists... He is a wry and unheroic witness to the distorting impact - sometimes frightening, sometimes merely absurd - that ideology has upon the daily life of the individual: citizens only allowed to dance in couples, journalists unable to mention car tyres or washing machines for reasons of state." Julian Barnes, European Book Prize With wonderful insight Leo shows how the human need to believe and to belong to a cause greater than ourselves can inspire a person to acts of heroism, but can then ossify into loyalty to a cause that long ago betrayed its people." Anna Funder, author of Stasiland "Heartbreaking... This

very personal account allows us to better understand the reality of a kafkaesque regime, and the blindness of its elite that allowed it to survive for so long." La Tribune "The great charm of this book, about the gradual disintegration of the GDR, lies in the level-headed but loving attitude with which it investigates the interweaving of the private and political [in Communist East Germany], revisiting a child's-eye view of the era." Frankfurter Allgemeine Zeitung "A crucial book ... poignant ... a tragedy reminiscent of the great narrative poets, Dostoevsky or Koestler. Maxim Leo has earned his place alongside them." Sud Oest "A lyrical story about a family in a divided city" Hamburger Abendblatt Maxim Leo was born in 1970 in East Berlin. He studied Political Science at the

Free University in Berlin and at the Institut d'Etudes Politiques de Paris. Since 1997 he is Editor of the Berliner Zeitung . In 2002 he was nominated for the Egon-Erwin-Kisch Prize, and in the same year won the German-French Journalism Prize. He won the Theodor Wolff Prize in 2006. He lives in Berlin. *Mittheilungen aus Justus Perthes' Geographischer Anstalt über wichtige neue Erforschungen auf dem Gesamtgebiete der Geographie* Nicolas-Hays, Inc.

Présentation de l'éditeur : "The interactions between law and culture in addressing the legal problems at the end of a life are currently being discussed in many countries. The discourse on this issue should be multidisciplinary, taking into account its legal, medical, ethical, philosophical and anthropological aspects. The concepts designed to manage the legal problems that occur

when a life comes to an end are closely linked to the culture of each country. For this reason, countries with different cultural backgrounds have been selected for this comparative end-of-life study. In France, Germany and Italy, which have a continental legal system, the United Kingdom, which has a common law system, and India, the various religions and cultures exert an important influence on the modernisation of the legislation in this respect. The book deals with recent legislative changes and developments in the countries surveyed."

In June of 1979, Peter Levenda flew to Chile—then under martial law—to investigate claims that a mysterious

colony and torture center in the Andes Mountains held a key to the relationship between Nazi ideology and its post-war survival on the one hand, and occult ideas and practices on the other. He was detained there briefly and released with a warning: "You are not welcome in this country." The people who warned him were not Chileans but Germans, not government officials but agents of the assassination network Operation Condor. They were also Nazis, providing a sanctuary for men like Josef Mengele, Hans-Ulrich Rudel, and Otto Skorzeny. In other words: ODESSA. Published in 1995, *Unholy Alliance* was the first book in English on the subject of Nazi occultism to be based on the captured Nazi archives themselves, as well as on the author's personal investigations and

interviews, often conducted under dangerous conditions. The book attracted the attention of historians and journalists the world over and has been translated into six languages. A later edition boasts the famous foreword by Norman Mailer. How did occultism come to play such an important role in the development of Nazi political ideology? What influence did such German and Austrian occult leaders as Lanz von Liebenfels and Guido von List have over the fledgling Nazi party? What was the Thule Gesellschaft, and who was its creator, Baron von Sebottendorf? Did the Nazi high command really believe in occultism? In astrology? In magic and reincarnation? This is a new and expanded edition of the original text, with much additional information on the

rise of extremist groups in Europe, Latin America, Asia, and the United States and the esoteric beliefs that are at their foundations. It is the first book in a trilogy that includes *Ratline* and *The Hitler Legacy*. This is where it all began. *Lamarck, the Founder of Evolution* Ayer Publishing

In the past 20 years micronutrients have assumed great public health importance and a considerable amount of research has led to increasing knowledge of their physiological role. Because it is a rapidly developing field, the WHO and FAO convened an Expert Consultation to evaluate the current state of knowledge. It had three main tasks: to review the full scope of vitamin and minerals requirements; to draft and adopt a report which would provide

recommended nutrient intakes for vitamins A, C, D, E, and K; the B vitamins; calcium; iron; magnesium; zinc; selenium; and iodine; to identify key issues for future research and make preliminary recommendations for the handbook. This report contains the outcome of the Consultation, combined with up-to-date evidence that has since become available.
