A harrowing thriller based on real-life discoveries in cell theory and the battle against aging and death by the

bestselling author of Darwin's Radio and War Dogs Scientist Hal Cousins is on the brink of success in his quest to determine the biological underpinnings of immortality. Funded by angel investors, the brilliant researcher makes a trip by submersible to the bottom of the sea, searching for primitive one-celled organisms that may be related to the earliest life forms on Earth. But the trip turns into a nightmare when Cousins's pilot goes berserk and turns on him. The homicidal attack is only the first in a series of events that sends the biochemist on the run, pursued by faceless enemies who want his studies terminated and Cousins dead. Cousins must face the realization that his research has brought him into contact with a vast conspiracy. Across the

country, scientists are being murdered to cover up the fact that someone has discovered how to control minds through bacterial manipulation—and that the trigger bacteria now infects much of the world’s population. Discredited and not knowing whom to trust, Cousins must gamble everything with Earth’s very survival at stake. Award-winning author Greg Bear creates a tense, stunningly plausible thriller all too firmly rooted in scientific fact.

 “...explore how painting, writing, and building things with your hands can be the outlet that helps a person get through the hell that is high school.” — Quill & Quire
 The kids at school call her rag girl because she hides under layers of oversized clothing, but she calls

herself Ophelia. She hardly speaks to anyone — until one day a visiting author comes to give a talk in the school library. The writer speaks about what it means to create art, and at the end of her talk, she thanks Ophelia for asking the first question by giving her a blue notebook with her address on it. Ophelia starts to write to the author in the notebook — letters that become a kind of lifeline. The idea that someone, somewhere, might care, is enough for her to keep writing, an escape from her real life. By day she goes to school and works at the dollar store before returning home to her mother, a former addict who once had to put her daughter in care. At night she creates graffiti around town, leaving little broken hearts as her tag. One night she finds an abandoned building that

she decides to use as her workshop, where she can make larger-than-life art. When she finds that a classmate, an overweight boy named Ulysses, is also using the space to repair an old van, the two form an uneasy truce, with a chalk line drawn down the middle to mark their separate territories. As time passes, Ophelia and Ulysses forge a fraught but growing friendship, but their cocooned existence cannot last forever. One night, intruders invade their sanctuary, and their shared bond and individual strength are sorely tested. "Engel makes good use of her setting; the fight for survival on the cusp of winter stokes the sense of danger in a way that matches Ivy's roiling feelings, and the love story moves with the slow-growing heat that Ivy needs." —Kirkus Reviews I am still alive. Barely. My name is Ivy Westfall. I am sixteen years old and a traitor. Three months ago, I was forced to marry the president's son, Bishop Lattimer—as all daughters of the losing side of the war are sold off in marriage to the sons of the winners. But I was different. I had a mission—to kill Bishop. Instead, I fell in love with him. Now I am an outcast, left to survive the

brutal savagery of the lands outside of civilization. Yet even out here, there is hope. There is life beyond the fence. But I can't outrun my past. For my actions have set off a treasonous chain of events in Westfall that will change all of our fates—especially Bishop's. And this time, it is not enough to just survive... The second historical mystery featuring Commissario Ricciardi, "one of the most interesting and well-drawn detectives in fiction" (The Daily Beast). Commissario Ricciardi has visions. He sees and hears the final seconds in the lives of victims of violent deaths. It is both a gift and a

curse. It has helped him become one of the most acute and successful homicide detectives in the Naples police force. But all that horror and suffering has hollowed him out emotionally. He drinks and doesn't sleep. Other than his loyal partner, Brigadier Maione, he has no friends. Naples, 1931. In a working-class apartment in the Sanità neighborhood, an elderly woman by the name of Carmela Calise has been beaten to death. When Ricciardi and Maione arrive at the scene, they learn that Calise was moonlighting as a fortuneteller and moneylender whose clients were some of the city's rich and powerful. She predicted their futures in such a way as to manipulate and deceive and made many enemies—those indebted to her, swayed by her lies, disappointed by her

prophesies or destroyed by her machinations. Murder suspects in this atmospheric thriller abound and Commissario Ricciardi, one of the most original and intriguing investigators in contemporary crime fiction, will have his work cut out for him. “The promise that each life will intersect keeps Ricciardi and Maione’s investigation lively.”
 —Publishers Weekly “A well-crafted, ultimately moving crime novel set in 1931 Naples . . . This is a solid series with an intriguing detective, and fans will eagerly await the third volume.”

 The Laughing People, translated from the award-winning *Le peuple rieur*, conveys the richness and resilience of the Innu while reminding us of the forces – old and new – that threaten their community. This memoir and tribute tells the tale of the very long journey of a very small nation, recounting both its

joie de vivre and its crosses borne. Readers follow Serge Bouchard, a young anthropologist in the 1970s, as he arrives in Ekuanitshit (Mingan, Quebec) and comes to know its residents. His observations and questions document a community weathering yet another season of change – skidoos replace dogsleds and forests are bulldozed for prefabricated housing – while nonetheless defying external pressures to assimilate or disappear altogether. Returning to these texts fifty years later, Bouchard moves beyond platitudes of strength and dives into wide-scale injustices to present the sacrifices and beauty of the Innu people on individual terms. Whether recounting the impact of the residential school system on Georges Mestokosho, the wave of Innu activism

inspired by An Antane Kapeshe, or the uncelebrated work of women like Nishapet Enim, *The Laughing People* presents an opportunity for readers to be part of the preservation and proliferation of these important stories.

The first graphic history of sex chronicles sexuality and human intimacy through the ages, from our primate pasts to our robotic futures. Humans have had sex on the brain since pre-civilization either for pleasure, power, revenge, a desire for children, or simply because it isn't allowed. Today, sex is all around us but it's rarely explained and almost never taught. In *The Story of Sex*, sexologist Phillipe Brenot combines anthropology, sociology, psychology and history with witty comics by Latetita Coryn for an in-depth explanation of this essential aspect of humanity. Organized chronologically into sections like Babylon: Free Love, The Middle Ages:

Heaven and Hell, and *The 20th Century: Sexual Liberation*, Brenot explores what eroticism really is, how our ancestors behaved sexually, when the first couple was established, how superstition and morality laws shaped sexuality, the use of pornography in the digital age, and how some ancient civilizations were far ahead of their time when it came to gender equality. Full of fascinating details like Cleopatra's invention of the vibrator and a Dutch shopkeeper's accidental discovery of the existence of sperm--all accompanied by hilarious comics and dialogue -- *The Story of Sex* is informative, unique, and entertaining book.

A fascinating document of an extraordinary life, *Memoirs of A Breton*

Peasant reads with the liveliness of a novel and bristles with the vigor of an opinionated autodidact from the very lowest level of peasant society. Brittany during the nineteenth century was a place seemingly frozen in the Middle Ages, backwards by most French standards; formal education among rural society was either unavailable or dismissed as unnecessary, while the church and local myth defined most people's reasoning and motivation. Jean-Marie Déguignet is unique not only as a literate Breton peasant, but in his skepticism for the church, his interest in science, astronomy and languages, and for his keen—often caustic—observations of the world and people around him. Born into rural poverty in 1834, Déguignet escapes

Brittany by joining the French Army in 1854, and over the next fourteen years he fights in the Crimean war, attends Napoleon III's coronation ceremonies, supports Italy's liberation struggle, and defends the hapless French puppet emperor Maximilian in Mexico. He teaches himself Latin, French, Italian and Spanish and reads extensively on history, philosophy, politics, and literature. He returns home to live as a farmer and tobacco-seller, eventually falling back into dire poverty. Throughout the tale, Deguignet's freethinking, almost anarchic views put him ahead of his time and often (sadly, for him) out of step with his contemporaries. Déguignet's voluminous journals (nearly 4,000 pages in total) were discovered in a farmhouse in

Brittany a century after they were written. This narrative was drawn from them and became a surprise bestseller when published in France in 1998.

Simon Reade, adaptor & director of this stage adaptation of *Private Peaceful*.

Memoirs of a Breton Peasant Le French Book (NY)

Les " légendes ", dont la Bretagne apparaît souvent comme l'une des terres d'élection, recouvrent aujourd'hui un ensemble bien hétéroclite qui va de récits formalisés, aux frontières du conte, jusqu'à des récits d'expérience ou de croyance, au caractère parfois très personnel, présentés comme de simples témoignages vécus, tel le riche domaine des intersignes. Au Moyen Âge, la légende (du latin *légenda*, ce qui doit être lu) désigne tout particulièrement la vie du saint du jour et le récit de ses miracles. Si seule la légende de saint Julien pourrait ici rappeler cette origine, les saints sont présents dans les récits souvent liés à l'établissement d'une chapelle ou d'une fontaine... Ils ont même parfois, tel saint Cado, laissé leur empreinte visible dans la pierre. Les

récits légendaires qui se veulent souvent une réponse aux interrogations, voire aux angoisses de l'existence humaine, nous livrent leur explication du monde qui nous entoure : l'origine des animaux ou des plantes, des rivières ou des montagnes, des mégalithes ou des châteaux. Ils servent aussi parfois de leçon ou d'avertissement pour qui s'aviserait de transgresser les interdits religieux ou à pactiser avec le diable, une fonction moralisante qu'apprécie fort François Cadic.
