La vida de Elisa cambia drásticamente cuando ella y su madre, Raquel, se instalan en la casa de Pablo Neruda en Isla Negra. La pequeña, acostumbrada hasta entonces a una vida humilde, se convierte en la protegida de Delia del Carril, la esposa del poeta. De la mano de esta mujer deslumbrante, aprenderá los conocimientos y los modales propios de una señorita de buena posición pero también algunas de las enseñanzas vitales que la guiarán en el sinuoso camino hacia la madurez. Entre mapas, botellas y objetos marinos que decoran la emblemática y recargada casa de Isla Negra, Elisa irá descubriendo las infidelidades del poeta, las bondades de su poesía y, más importante, los misterios del amor y el deseo. Raquel, en cambio, no sólo deberá conformarse con haberse convertido en sirvienta y permanecer invisible, sino también con sobrellevar el desasosiego que provoca guardar un secreto inconfesable.

Alejandro Jodorowsky's *El Topo* helped inaugurate the midnight movie phenomenon. Its success spawned *The Holy Mountain*, through interventions by John Lennon and Allen Klein. After a scandalous release and a 16-month midnight career, *The Holy Mountain* was relegated to the underground world of fan bootlegs for over thirty years until its limited restored release in 2007. This short study reveals how *The Holy Mountain*, a poetic, hilarious, and anarchist cult film by an international auteur, anchored in post-1968 critiques, is - at the same time - an archaeological capsule of the counterculture movement, a timely subversion of mystical tenets, and one of the most mysterious films in the history of world cinema.

Every book relating the history of modern architecture features a large number of pages dedicated to avant-garde designs and the formation of the modern movement in the interwar years, and a similar number devoted to reconstruction and expansion after the Second World War. Meanwhile, as if owing to lack of understanding or convenient silence, there is void of dark years, of wars, exile and misfortune about which little can be said. However, it was in these dark times, as in so many other revealing moments in the history of culture, that experimental and profoundly invigorating experiences were taking place. Architects and artists voluntarily or forcibly driven to the margins of social importance began to react to a culturally unsustainable situation of which we know very little even today. In *Experiments with Life Itself*, Francisco Gonzalez de Canales studies a series of unrelated cases from the late 1930s to the late 1950s that he refers to as domestic self-experimentation.

Enlazados por un tono, un ritmo, una visión, estos poemas abrigan toda suerte de objetos, a la manera de Isla Negra, la casa de Pablo Neruda en Valparaíso: hablan de esa misma casa de Neruda, igual que de María Sabina; describen esculturas de la Grecia arcaica y un mural teotihuacano; conmemoran cumpleaños y despedidas —todo guiado siempre por el hilo conductor de una mirada

poética que va en busca de lo que hay "al otro lado de sí misma". Mediante el juego con unas cuantas imágenes elementales —el sol y la sombra, el mar, la luna, las montañas—, los versos de Isla Negra, que poseen una acentuada musicalidad, parecerían a veces agotar los límites de lo concreto, como si quisieran casi rozar lo inmaterial y estar al borde de la disolución.

"Raising the Living Dead is a new history of Puerto Rico's carceral rehabilitation system in the middle decades of the twentieth century that brings to life the interactions of incarcerated people, their wider social networks, and health care professionals. The book addresses key issues in the history of prisons and the histories of medicine and belief, including how prisoners' different racial, class, and cultural identities shaped their incarceration and how professionals living in a colonial society dealt with the challenge of rehabilitating prisoners for citizenship. The main idea of the book is that, in the region, multiple communities of care came together both inside and outside of prisons to imagine and imperfectly enact solution-oriented cultures of rehabilitation. Specifically, Alberto Ortiz Díaz argues that scientific and humanistic approaches to well-being were deliberately fused to raise the "living dead" (an expression that reemerged in the modern Caribbean to refer to prisoners). These reform groups sought to raise incarcerated people physically, mentally, socially, spiritually, and civically. The book is based on deep, original archival research into the Oso Blanco (White Bear) penitentiary in Puerto Rico, yet it situates its study within Puerto Rico's broader carceral archipelago and other Caribbean prisons. The agents of this history include not only physical health professionals, but also their mental health counterparts (psychologists and psychiatrists), social workers, spiritual and religious practitioners, and, of course, the prisoners and their families. By following all these groups and emphasizing the interpersonal exercise of power, Ortiz Díaz is able to tell a story that goes beyond structural and social control debates. Raising the Living Dead is not just about convicts, their immediate interlocutors, and their contexts, however, but about how together these open a window into the history of social uplift projects within the (neo)colonial societies of the Caribbean. There is no book like this in Caribbean historiography and few examine these themes in the larger literature on the history of prisons"--

Esta obra fue proyectada, más que como un libro, como el inicio de un movimiento filosófico continental. Es decir, los autores de las contribuciones toman conciencia de que la tarea que han asumido es de tal envergadura que no pueden sino cumplirla parcialmente. Los trabajos a lo largo y

ancho de toda la región latinoamericana sobrepasan a los especialistas de la historia o de temas expuestos en el orden nacional. Cuando debe abordarse la temática tal como lo exige una obra sobre la filosofía latinoamericana, se encuentran dificultades tales como la falta de bibliotecas especializadas en esta problemática regional, de especialistas que hayan tratado los temas y estudiado suficientemente los asuntos para proponer diversas hipótesis que permitan fecundos debates. Todo comienza entonces por obtener materiales bibliográficos y temáticos necesarios. Esto no se logra en corto tiempo, exige años de perseverancia en la que los autores adquieren conciencia de los límites de la presente empresa. Por ello, mucho más que el lector son los mismos editores y autores de esta obra los que tienen conciencia de que sólo se ha iniciado la extracción de un precioso metal de una rica mina casi inexplorada en su conjunto.

Andean Tectonics addresses the geologic evolution of the Andes Mountains, the prime global example of subduction-related mountain building. The Andes Mountains form one of the most extensive orogenic belts on Earth, spanning approximately an 8,000-km distance along the western edge of South America, from ~10°N to ~55°S. The tectonic history of the Andes involves a rich record of diverse geological processes, including crustal deformation, magmatism, sedimentary

basin evolution, and climatic interactions. This book addresses the range of Andean tectonic processes and their temporal and spatial variations. An improved understanding of these processes is fundamental not only to the Andes but also to other major orogenic systems associated with subduction of the oceanic lithosphere. Andean Tectonics is a critical resource for researchers interested in the causes and consequences of Andean-type orogenesis and the long-term evolution of fold-thrust belts, magmatic arcs, and forearc and foreland basins. Evaluates the history of Andean mountain building over the past 300 million years Integrates recent studies and new perspectives on the complementary records of deformation, magmatism, and sedimentary basin evolution and their interactions in time and space Provides insight into the development of the northern, central, and southern Andes, which have typically been considered in isolation

La emocionante intensidad con que los poemas de este libro cantan y celebran la pasión y el amor humanos, permite vislumbrar al lector que también estas poderosas experiencias forman parte de las incontrolables fuerzas de la naturaleza; y que es bello y bueno que así sea. La profundamente humana voz del poeta Edmundo Herrera nos viene a recordar, una vez más, que sólo con nuestra sola razón no podremos ser felices. Claudio Carvacho

Un vieil atrabilaire occupe un étrange manoir au sommet d'une falaise dunaire. Isla Negra. Tel est le nom du refuge de Jonas. Lorsque les pouvoirs publics tentent de l'expulser, la maison se transforme en camp retranché. En ville, chacun prend parti, et l'on voit s'affronter une centenaire qui tenait autrefois le plus grand bordel de la région, une beauté factice qui ne reconnaît plus son reflet dans le miroir, un huissier qui se révèle poète, un promoteur véreux et envieux. Et la foule des habitants, curieux, médisants, souvent lâches. À mesure que la falaise s'effondre, les masques tombent. Jonas, lui, ne lâche rien. Et chaque matin, il braque sa longuevue sur l'horizon, car de là seul peut encore surgir l'espoir. Fable écologiste, Isla Negra porte la voix des irréductibles qui refusent de céder au consumérisme et dénonce la facilité qui nous incite à détourner le regard. À travers cette allégorie, Jean-Paul Delfino brosse aussi le portrait savoureux de ces cabossés de la vie qu'il croque comme personne.
