*Supplemental
Appropriation Bill, 1966
Pfeiffer*

This book offers a complete, step-by-step action guide to establishing or improving a comprehensive on-the-job training program. The book can be used both to improve one-on-one OJT conducted by supervisors and as a reference guide for performance specialists and instructional designers. It goes far beyond a simple description of what OJT is, to explore key management and organizational issues and help improve performance and increase profitability. Hearings

This document records the oral and written testimony given by witnesses at a series of three Congressional hearings conducted in 1993 to review federal retraining programs for dislocated workers. Witnesses included representatives of federal and state agencies, and Private Industry Councils. Witnesses testified about their programs and what has worked and has not worked in their efforts to retrain dislocated workers. The existing programs were described and suggestions made for improvements, including putting programs in place before layoffs, and shortening the timeframe for retraining programs so workers can afford to complete them. However,

according to witnesses, whatever successes have occurred have been tempered by the sluggish economy and the reality that most of the new jobs for which workers can be retrained pay substantially less than the jobs they have lost.
