Encounter in the Pleiades
Sky Books (NY)

For the first time, Preston reveals his employment at Brookhaven Labs and how his connections in the music industry were used for mind control and manipulation of the masses. Ultimately, Preston's real-life adventures lead to time travel, his own role in the future, and the efforts of his adversaries to arrest him and put him permanently out of commission. This includes the bone chilling story of John Ford, Preston's colleague, who is locked up without a trial for his own efforts to expose the truth. In a remarkable twist of fate, mysterious forces rescue Preston and begin a documented

investigation and eventual conviction of the most politically powerful man on Long Island. This book reveals more layers of mystery in mankind's epic quest to understand the paradox of time and the imprisonment of consciousness.

Community as the

Material Basis of Citizenship addresses community as the site of participation, production, and rights of citizens and brings to bear a profound critique of a collective process that has historically excluded working class communities and communities of color from any real governance. The argument is that the status of citizenship has been influenced by a society that emphasizes the role of property in defining legitimacy and power and therefore idealizes and institutionalizes citizenship from an individualistic perspective. This system puts the onus on the individual citizen to participate in their governance, while the political reality is that organizations and corporations and their

interests have great power to influence and govern. The chapters present an exciting departure from the long-standing traditions of the social basis of citizenship. In *Community as the Material Basis of Citizenship*, Rodolfo Rosales and his contributors argue that citizenship is a communally embedded and/or socially constituted phenomenon. Hence, the unfinished story of American Democracy is not in the equalization of communities but rather in their ability to participate in their own governance - in their empowerment.

This book is aimed at helping both newly trained and experienced mental health professionals become comfortable and adept in using hypnosis in their clinical practice. Despite dramatic evidence of the effectiveness of hypnosis and its growing acceptance, only a small percentage of

psychotherapists employ their hypnotherapy training in their practices. This under-use of hypnosis is due to exaggerated misconceptions about its power and the resultant performance anxiety therapists experience after their training. This text is designed to address therapist performance anxiety surrounding the use of hypnosis by exploring the myths surrounding its power and therapeutic potential. The integration of a straightforward systematic hypnotic approach into therapeutic practice has value both in assessment and treatment. Using clinical anecdotes and personal experience, the authors of *Hypnosis in Clinical Practice* explain induction style and trance work in a way that is fundamental and highly accessible.

And here is where I fall. Mina Daaé dreams of performing on Broadway. Like her great ancestor, Christine Daaé, who sang at the prestigious Palais Garnier a hundred years before, Mina has the voice of an angel. But after graduating from Conservatoire de Paris, fortune fails her. Until the circus comes to town. Mina's close friend Toni Vollini offers her a role in his new Broadway play mixing Mozart with clowns. Known as *The Harlequin*, the musical is an inimitable adaptation of the opera *Don Giovanni*. Toni says Mina will soar, but with pathologic acrophobia, she's afraid she'll fall. And the ghost in her head says she will. Toni and a ghost vie for her love, but Mina thinks her ghost is just another hallucination. Or is her ghost a phantom of the opera? *Phantom Masquerade* is a contemporary adaptation of Gaston Leroux's *Phantom of the Opera* integrating romance and the paranormal. Patrick Cullinan is the first member of the Australian Defence Force to climb Mount Everest. He achieved this as part of the 1988 Australian Bicentennial Everest Expedition. Patrick's journey to the summit of Everest starts with his days as a cadet at Duntroon and continued through his time as the commander of Climbing Troop at the Special Air Service Regiment. He takes us up Mount Gauri Shankar in Nepal (his apprenticeship), Broad Peak in Pakistan (the rehearsal) and then finally to Everest with the Bicentennial Expedition. The Expedition team decided to forgo the usual practice of using climbing sherpas. This prompted the Sherpa Sungdare, who at the time had climbed Everest five times, to say to one of the Australian expedition members, "You guys are White Sherpas." (tm)

After a mysterious holographic chamber was discovered beneath the Romanian Sphinx in 2003,

an ancient parchment surfaced in the highest mountains of Tibet and was placed in the care of Radu Cinamar so that it could be translated and shared with the world. While the parchment presents five invaluable techniques for spiritual advancement, its very presence in the world has ignited a series of quantum events, extending from Jupiter's moon Europa and reaching all the way to Antarctica, Mount McKinley, and Transylvania. This includes an intelligence war and a successful attempt to undermine the structure of Department Zero. An ancient Romanian legend comes alive as subterranean solid gold tunnels, extending miles into the Transylvanian underground, are revealed to facilitate super-consciousness as well as lead to the nexus of the inner Earth where "all the worlds unite." Book jacket.

Mystery of Egypt John Wiley & Sons
Radu Cinamar stunned the world when he announced the greatest archeological find of all time in his first book, *Transylvanian Sunrise*, which revealed a hidden

chamber some 50,000 years old beneath the Romanian Sphinx in the Bucegi Mountains. This chamber includes holographic technology with a visual data bank of infinite DNA permutations in addition to three tunnels: one leading to the inner earth, one to Tibet and one to Egypt. In *Mystery of Egypt*, Radu is part of an expedition to explore the tunnel to Egypt where they encounter ancient artifacts that look more futuristic than they do ancient. It is a detailed account of a remarkable adventure that includes further interactions with Cezar Brad, the head of Romanian Intelligence's Department Zero, and Elinor, the enigmatic alchemist. While these claims are more than controversial, Cezar ignites further controversy when he shares some of his experiences since their last meeting. An amazing follow-up to Radu's second book, *Transylva*. *Everest* Harlequin / SB Creative

Since the age of eleven, Ed Neuhaus has been intensely motivated to trek the Himalayan foothills and stand before Mt. Everest. Now almost sixty, Neuhaus and his

wife finally have that opportunity. After vigorously training in the Green Mountains of Vermont, arduously preparing their gear, and engaging a professional trekking agency, the pair makes the forty-hour trip to Katmandu, where their voyage begins. Their group includes thirty people, including the brave and devoted Sherpas that tend to their every need. Surrounded by spectacular beauty, and impoverished and unsanitary conditions, Ed and Olga set out with enthusiasm on the nineteen-day trek that will take them to Kala Pattar, where they will experience an unobstructed view of the world's highest mountain. Fairly quickly, the pair is assaulted by both physical and emotional demands as they realize that foot power is the only form of transport to their goal. However, they forge on with the group, testing every limit of their strength. *A Dream of Everest* is a raw reflection of the emotions and experiences that reveal how effort can be its own accomplishment.

Written by Peter Moon and Radu Cinamar, a highly placed Romanian intelligence operative, this book heralds the most remarkable archaeological find in the annals of Mankind. Unbeknownst to most, there is an ancient sphinx located in the Bucegi Mountains of Romania. In 2003, the Pentagon discovered, through the use of satellite technology, an anomaly beneath this ancient sphinx. Through the highest levels of Freemasonry, the Pentagon was able to secure an alliance with the most secret department of the Romanian Intelligence Service which is known as

Department Zero. Together, the Romanians and the Americans utilised the Pentagon's secret technology to penetrate a hidden chamber beneath the sphinx which was otherwise inaccessible to humans. What was discovered eventually was a holographic Hall of Records left by an advanced civilisation near three mysterious tunnels leading into the Inner Earth. The book chronicles the discovery of these modern day artefacts which represent the dawn of a new era for Mankind. Peter Moon is brought into the fold through his friend, Dr David Anderson, the mysterious scientist who founded the Time Travel Research Center on Long Island and also maintains a similar facility in Romania. Recognising that such satellite technology would had to have utilised Dr Anderson's proprietary space-time technology for maintaining satellites in orbit, Peter Moon pursues these matters further and accepts Dr Anderson's invitation to Romania where he visits the Romanian Sphinx and learns of a mysterious association between the mysterious time travel scientist and Radu

Cinamar.
A Dream of Everest
 For millennia the seven stars known as the Pleiades have twinkled in the night sky, inspired countless legends and dared Mankind to discover their secrets. Encounter in the Pleiades is the story of a man who was taken to the Pleiades and given a scientific education far beyond the horizons of anything taught in universities. For the first time, the personal history of Preston Nichols is revealed along with an avalanche of amazing information the world has not yet heard. A new look at Einstein gives insights into the history of physics and how the speed of light can be surpassed through the principles of reality engineering. New concepts in science are offered with technical but simple descriptions even the layman can understand. These include the creation of alternate realities through the use of twisters and spinners; mind control aspects of the Star Wars defence system; implants; alien abductions and much more. Peter Moon adds further intrigue to the mix by divulging his part in a bizarre project which led him to Preston Nichols and the consequent

release of information. His account of the role of the Pleiades in ancient mythology sheds new light on the current predicament of Mankind and offers a path of hope for the future.

Fortified foods and food supplements remain popular with today's health-conscious consumers and the range of bioactives added to food is increasing. This collection provides a comprehensive summary of the technology of food fortification and supplementation and associated safety and regulatory aspects. The first part covers methods of fortifying foods, not only with vitamins and minerals but also with other nutraceuticals such as polyphenols and polyunsaturated fatty acids. It also includes a discussion of the stability of vitamins in fortified foods and supplements. The second part contains chapters on the analysis of vitamins, fatty acids and other nutraceuticals, as well as a chapter on assessing the bioavailability of nutraceuticals. It concludes with a discussion of regulation and legislation affecting

fortified foods and supplements and a chapter on the safety of vitamins and minerals added to foods. Food fortification and supplementation presents current research from leading innovators from around the world. It is an important reference for those working in the food industry. This handbook provides a framework for understanding how to characterize plastic manufacturing processes for use in troubleshooting problems. The 21 chapters are authored by well-known and experienced engineers who have specialized knowledge about the processes covered in this practical guide. From the Preface: "In every chapter, the process is described and the most common problems are discussed along with the root causes

and potential technical solutions. Numerous case studies are provided that illustrate the troubleshooting process. Mark A. Spalding, The Dow Chemical Company

The Secret Parchment

Ask yourself this; did Kerion exist in the times of our ancestors, centuries ago, or was it born in recent times? Where did it come from? How did we find ourselves diagnosed with it? Has it occurred to you that the foods that you consume on a daily basis directly affect your health? Would you like to know more about the one protocol that has worked for us, time and time again, in increasing our health to a point where "disease" can no longer exist? Through reversing our own chronic diseases and conditions - ranging from severe autoimmune, neurological, digestive - all the way to rare genetic conditions, we noticed a commonality during our healing journeys. We discovered a protocol that supercharged our health and subsequently worked well in the removal of any condition, disease, infection, abnormality, addiction, mental health condition - or any other label that you may come

across. Through producing this series of information-assisted journals, our goal has been to reach you directly and share our experiences with you, with the aim of giving you hope. Regardless of what you have been diagnosed/labeled with - if applied correctly, you will experience significant positive changes. This journal has been broken down into two parts - the first part being information-based, and the second part being an assisted journal area for you to document, track and journal your personal daily progress, whilst being given helpful tips along the way. We didn't want to release just another "information overloaded" book which the reader does not benefit from or take action on immediately. Through this interactive and simplified approach found within this series of journals, you will achieve your health goals effectively. Welcome to the world of improved health and healing. Good luck on your journey.
