*Forgotten Peoples of the Ancient World* Holt Rinehart & Winston

"As panoramic as it is learned, this is ancient history for our globalized world." Tom Holland, author of *Dynasty* and *Rubicon* Twenty-five-hundred years ago, civilizations around the world entered a revolutionary new era that overturned old order and laid the foundation for our world today. In the face of massive social changes across three continents, radical new forms of government emerged; mighty wars were fought over trade, religion, and ideology; and new faiths were ruthlessly employed to unify vast empires. The histories of Rome and China, Greece and India-the stories of Constantine and Confucius, Qin Shi Huangdi and Hannibal-are here revealed to be interconnected incidents in the midst of a greater drama. In *Ancient Worlds*, historian Michael Scott presents a gripping narrative of this unique age in human civilization, showing how diverse societies responded to similar pressures and how they influenced one another: through conquest and conversion, through trade in people, goods, and ideas. An ambitious reinvention of our grandest histories, *Ancient Worlds* reveals new truths about our common human heritage. "A bold and imaginative page-turner that

challenges ideas about the world of antiquity." Peter Frankopan, author of *The Silk Roads* **Mysteries of the Ancient World** Biblo & Tannen Publishers

Time in antiquity, juxtaposing cultures and societies, yields remarkable intersections with temporality.

**It's All about Thinking** Don Mills, Ont. : Oxford University Press

Imagine living in a world where people paid their taxes with chocolate (Aztecs), where schoolchildren wrote their lessons on clay tablets instead of paper (Sumer), or where you could be killed for stepping on your chief's shadow (Polynesia). These are just a few of the civilizations explored in this compelling and beautifully illustrated atlas. The *Atlas of Ancient Worlds* is divided into six geographical sections, giving comprehensive coverage of the world's first societies and cultures. The first section looks at the early Middle East, where the cities of Sumer and Assyria developed. The second focuses on Africa, opening with the pyramids and palaces along the River Nile. The third section looks at Europe from the heroic age of Greece to the military might of the Roman Empire. The next covers Asia including India, the glittering cities of China, and Japan in the age of the Samurai. The fifth section journeys to the colourful kingdoms of the Aztecs and the Maya, the empire of the Incas, and the cliff dwellers of North America. Finally, the Oceania section follows the Polynesian seafarers, warlike Maoris, and the aboriginal people of Australia.

*Time and Temporality in the Ancient World* Penguin UK

The Book of the Ancient World is an account of our common heritage from the dawn of civilization to the coming of the Greeks. It is the story of how human beings began their great adventure of learning how to live; of how they have sought to satisfy the practical needs of their bodies, the questioning of their minds, and the searching of their spirits. To this end it subordinates details of political events to the record of things that lie at the foundation of our modern civilization. Dorothy Mills had an uncanny and unique ability to write history that is interesting and at the same time based on sound scholarship. Her direct, engaging approach is valued increasingly by the many parents in our day who are looking for reliable materials for home study, as well as by many private school educators. The highly-prized six volumes of her historical works (see below) have become very scarce on the used book market, and so Dawn Chorus has undertaken to reprint them as part of its effort to offer texts ideally suited to the needs of a new generation of teachers and students. In a world where the quality of education has so deteriorated, may the reissue of this wonderful historical series shine as a beacon to a new generation of young (and not so young) scholars. Dawn Chorus publishes these five other books by Dorothy Mills: *The Book of the Ancient Greeks*; *The Book of the Ancient Romans*; *The People of Ancient Israel*; *The Middle Ages*; and *Renaissance and Reformation Times*. Dawn Chorus has also republished another outstanding, and long-out-of-print

historical series perfectly suited for home or school use (and highly recommended in home-school curricula), entitled *The Picturesque Tale of Progress*, by Olive Beaupre Miller. It is available in large format (9 volumes), or smaller, double-bound format (5 volumes).

*Readings in the History of the Ancient World* Lorenz Books

The ancient world saw the birth and collapse of great civilizations. In mainstream history the Classical world is dominated by Greece and Rome, and the Biblical world is centred on the Hebrews. Yet the roughly four-and-a-half thousand years (4000 bcad 550) covered in this book saw many peoples come and go within the brawling, multi-cultural mass of humanity that occupied the ancient Middle East, Mediterranean and beyond. While a handful of ancient cultures have garnered much of the credit, these forgotten peoples also helped to lay the foundations of our modern world. This guide brings these lost peoples out of the shadows to highlight their influence and achievements. Forty-five entries span the birth of civilization in Mesopotamia to the fall of the Roman Empire in the West, offering an alternative history focusing on the names we aren't familiar with, from the Hurrians to the Hephthalites, as well as the peoples whose names we know, such as the Philistines and the Vandals, but whose real significance has been obscured. Each entry charts the rise and fall of a lost people, and how their culture echoes through history into the present. Important ancient artefacts are illustrated throughout and fifty specially drawn maps help orientate the reader within this tumultuous period of history. Philip Matyszak brings to life the rich diversity of the peoples founding cities, inventing alphabets and battling each other in the ancient world, and explores how and why they came to be forgotten.
