1 international bestselling diet book coming to North America Devised by Dr. Pierre Dukan, a French medical doctor who has spent his career helping people to lose weight, the Dukan Diet rejects counting calories and promises permanent weight loss while allowing adherents to eat as much as they like. Originally published in 2000, the Dukan Diet swept across France, championed by people who successfully lost weight following its unique four phase regime. The Dukan Diet has helped millions in France, where it has been number one for more than ten years and adopted in twenty countries, including the United Kingdom, Poland, Korea and Brazil. All together, The Dukan Diet has sold more than 3 million copies worldwide. The Diet: 4 Easy Steps to Permanent Weight Loss Phase one: Attack Using Dr. Dukan's True Weight calculator, dieters determine a reasonable and healthy weight loss goal. Then they begin the Dukan Attack phase a two-to-seven-day period during which only unlimited lean protein and a daily Oat bran galette (or pancake) are consumed and dramatic weight loss is achieved. Phase Two: Cruise Dieters alternate days of unlimited lean protein with days of protein combined with healthful vegetables until they reach their True Weight. Phase Three: Consolidation Dieters stay on this phase for 5 days for every pound lost. At this point the diet allows unlimited protein and vegetables, and other foods (such as cheese and bread) are reintroduced. Dieters are also allowed two weekly celebration meals to stave off boredom. Phase Four: Stabilization This is the maintenance portion of the plan, in which followers are allowed to eat whatever they like without regaining weight - provided that they follow 3 unbreakable rules including eating only unlimited lean protein one set day per week. For each phase, The Dukan Diet offers clear simple guidelines for long term success. The Dukan Diet is the perfect diet for people who want fast weight loss, that can be maintained without counting calories or weighing portions.

The war between Drizzt and King Obould rages on in this New York Times–bestselling conclusion to The Hunter’s Blades trilogy Dark elf Drizzt Do’Urden would like nothing more than to kill King Obould Many-Arrows, the leader of the slaving orc army that slaughtered his closest friends. Now, it seems even Innovindil, Drizzt’s new moon elf companion, cannot escape the grip of Obould’s murderous scourge. When the orc king steals Innovindil’s beloved pegasus, Drizzt must accompany her on a rescue mission to the northern lands of the frost giants—even if it means suffering the same fate as the Companions. Except the Companions are not dead . . . yet. Unbeknownst to Drizzt, they are sealed inside the walls of Mithral Hall, awaiting a battle that will either make or break them. As Obould's horde prepares for a siege just outside the gates, Bruenor must mastermind a plan that will defeat the orcs and lead his clan to victory. The Two Swords is the third book in The Hunter’s Blades trilogy and the nineteenth installment in the Legend of Drizzt series.

In recent years, the concept of "business objects" has taken hold in the developer community. Basically, these are the processes that deal with some input data and mediate the appropriate business response. These pages show how Visual Basic is a great tool to implement such a system.

This book provides a comprehensive study on hepatic surgery. The liver was referred to as a hostile organ by Longmire, since it welcomes sepsis and malignant cells so warmly, bleeds so

freely, and is usually the first organ to get injured in blunt abdominal trauma. To balance these negative factors, it has an excellent characteristic: its capability to regenerate after a great loss of substance. This book highlights a great range of topics including the surgical anatomy of the liver, history of liver surgery, portal hypertension, liver trauma, methods of liver resection, and malignant and benign liver tumors. This book would benefit as a good source of reference to students, researchers and surgeons.

"I come from Des Moines. Somebody had to." And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of smiling village where the movies from his youth were set. Instead he drove through a series of horrific burgers, which he renamed Smellville, Fartville, Coleslaw, Coma, and Doldrum. At best his search led him to Anywhere, USA, a lookalike strip of gas stations, motels and hamburger outlets populated by obese and slow-witted hicks with a partiality for synthetic fibres. He discovered a continent that was doubly lost: lost to itself because he found it blighted by greed, pollution, mobile homes and television; lost to him because he had become a foreigner in his own country.

It's a vanished world, and Peter Hugar was right there in it. The Lower East Side between 1972 and 1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hugar's camera - and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

Wiley Interpretation and Application of IFRS Standards 2019 Dynamite Entertainment Jonny Wilkinson's career has crossed three decades and four World Cups. He has accumulated phenomenal achievements, world points records, an impressive list of broken body parts, and a drop goal that will be remembered for ever. But the peculiar calmness with which he played the game masked a very different reality. In JONNY, he reveals the extraordinary psychology that he had to tame in order to be able to dominate his sport. For most of his life, he was driven by a quest for perfection and an obsession to be the best player in the world; here he shows how these two facets of his competitive mind took such a hold of him that they sent him to the top of the world,

then swept him up and dragged him down into a spiral of despair. Jonny's career has spanned the far reaches: amazing highs and iconic moments, then a fight against injury that culminated in a battle with depression. Here he tells of the physical toll he knew his body was taking from rugby, even from his youth; he tells of how he never wanted to be a kicking fly-half but learned to adapt his natural game to play the style that Clive Woodward believed necessary to win a World Cup, and how he nearly walked out on Martin Johnson's England team 13 years later.

As non-literates, the Celts left no written record of their lives, their beliefs, and the stories which were such an important part of their culture. Here Dr. Green uses the works of contemporary commentators from the Classical world, later Christian scribes recording oral traditions, and archaeological evidence to discuss Celtic myths and their religious beliefs and rituals. "You will never look at a beetle or a moth the same way again." --WIRED "Art meets science to dazzling effect." --The Guardian Microsculpture is a unique photographic study of insects in mind-blowing magnification that celebrates the wonders of nature and science. Levon Biss's photographs capture in breathtaking detail the beauty of the insect world and are printed in large-scale format to provide an unforgettable viewing experience. Each picture in Microsculpture is created from approximately 8,000 individual photographs. Segments of the specimen are lit and photographed separately using microscope lenses, then "stacked" to maintain sharp focus throughout. These images are then combined to create a single high-resolution file. From start to finish, each portrait takes approximately 4 weeks to create. The project has captured the attention of the world with features in WIRED and New Scientist. Microsculpture has been exhibited at the Oxford University Museum of Natural History and the Xposure 2016 International Photography Festival in Sharjah, U.A.E. It has been viewed by over half a million people so far and will be touring museums around the world from 2017 onward. The entomology collection has significant cultural

and historical value, containing the world's oldest pinned insect specimen and many thousands of insects collected by pioneering Victorian explorers and biologists such as Charles Darwin and Alfred Russell Wallace.
