How does Shakespeare represent war? This volume reviews scholarship to date on the

question and introduces new perspectives, looking at contemporary conflict through the lens of the past. Through his haunting depiction of historical bloodshed, including the Trojan War, the fall of the Roman Republic, and the Wars of the Roses, Shakespeare illuminates more recent political violence, ranging from the British occupation of Ireland to the Spanish Civil War, the Balkans War, and the past several decades of U. S. military engagement in Iraq and Afghanistan. Can

a war be just? What is the relation between the ruler and the ruled? What motivates ethnic violence? Shakespeare's plays serve as the frame for careful explorations of perennial problems of human co-existence: the politics of honor, the ethics of diplomacy, the responsibility of non-combatants, and the tension between idealism and Realpolitik.

The author's main reason for writing this book, however, is simply to provide an introduction to the Mexican commercial cinema for American and other English-speaking readers. Although the

United States has been, and continues to be, a major foreign market for Mexican movies, the overwhelming majority of Americans are unaware of them. Mexican films are restricted to the Hispanic theater circuits and shown without English subtitles; therefore anyone wishing to see a Mexican movie would have to be fairly fluent in Spanish. Such a requisite effectively eliminates almost the entire general audience in the United States from exposure to Mexican cinema.

 Dolores Cannon uses information obtained from regressive hypnosis to formulate a provocative viewpoint on the ancient astronaut theory of human origins. Her findings indicate that the earth was seeded eons ago by travellers from outer space. These visits by ancient extraterrestrials did not end with their intervention in human evolution. They have continued up to the present day resulting in a

whole class of contemporary humans who have been subject to alien abduction.

Many of us lived previous lives as keepers of sacred knowledge that was taught in the ancient mystery schools. Much of this knowledge was lost through time due to disasters and destruction or death. The knowledge was reserved for a select few who devoted their lives to understanding and teaching it.

This greatly expanded (over 18,500 entries versus 9,000 in the earlier edition) and updated edition includes everyone from John Aasen, an 8-foot, 9-inch circus star who appeared in silent film comedies, to Vladimir Kosma Zworykin, who invented the iconoscope and kinescope that together constituted the first all-electronic television system. This is the most complete necrology available on people from the silent era.

The entries are arranged alphabetically by professional name, and include birth and death dates, the place of birth and death, real name when it differs from the professional name, married name for women, birth certificate date when available, age at death, and bibliographic data of any autobiography or biography. When available the cause of death is also provided. Following these data, there is a reference to any obituary printed in *The New York Times*, *Variety*

or, occasionally, another publication, including the obituary's headline. *Catalog of Copyright Entries* Wesleyan University Press Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a "filler" in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a

comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia

offers comprehensive listings of American short subject films from the 1920s through the 1950s.

Broadway, Movie, TV, and Studio Cast Musicals on Record

Knopf

Is there a recording of the songs from Smile? How many scores by Sondheim have been recorded in the past ten years? Answers to these and other such questions can be found in this unique volume. All shows are listed alphabetically, and essential information is included for each song, as well as other recordings of the same score and who recorded them. There are performer, composer,

lyricist, and musical director indexes, making this a user-friendly reference. This volume, along with the author's previous discographies (Greenwood 1987, 1989, 1990), provides a definitive reference source for recorded musicals—from Broadway, Hollywood, television, or merely hoping-to-be-produced—up to 1995. The work is useful not only to scholars and students but also to the collector of musical show recordings. Show recordings are listed by

title in alphabetical order. Each song is listed in the order it was recorded on the album or CD, and the performer of the song is given. The recording is identified by composer, lyricist, and musical director, as well as the date of original production and date of this particular recording. There is a chronology of all shows included in this volume, and there are two indexes: one by performer and one by composer, lyricist, and musical director.

Between Death and Life

An essential piece of Disney history has been largely unreported for eighty years. Soon after the birth of Mickey Mouse, one animator raised the Disney Studio far beyond Walt's expectations. That animator also led a union war that almost destroyed it. Art Babbitt animated for the Disney studio throughout the 1930s and through 1941, years in

which he and Walt were jointly driven to elevate animation as an art form, up through Snow White, Pinocchio, and Fantasia. But as America prepared for World War II, labor unions spread across Hollywood. Disney fought the unions while Babbitt embraced them. Soon, angry Disney cartoon characters graced picket signs as hundreds of animation artists went out on strike. Adding fuel to the fire was Willie Bioff, one of Al Capone's wiseguys who was seizing control of Hollywood

workers and vied for the animators' union. Using never-before-seen research from previously lost records, including conversation transcriptions from within the studio walls, author and historian Jake S. Friedman reveals the details behind the labor dispute that changed animation and Hollywood forever. The Disney Revolt is an American story of industry and of the underdog, the golden age of animated cartoons at the world's most famous studio.

Race in American Film [3 volumes] Saint James Press

From the exuberant excesses of Carmen Miranda in the "tutti frutti hat" to the curvaceous posterior of Jennifer Lopez, the Latina body has long been a signifier of Latina/o identity in U.S. popular culture. But how does this stereotype of

the exotic, erotic Latina "bombshell" relate, if at all, to real Latina women who represent a wide spectrum of ethnicities, national origins, cultures, and physical appearances? How are ideas about "Latinidad" imagined, challenged, and inscribed on Latina bodies? What racial, class, and other markers of identity do representations of the Latina body signal or reject? In this broadly interdisciplinary book, experts from the fields of Latina/o studies, media

studies, communication, comparative literature, women's studies, and sociology come together to offer the first wide-ranging look at the construction and representation of Latina identity in U.S. popular culture. The authors consider such popular figures as actresses Lupe Vélez, Salma Hayek, and Jennifer Lopez; singers Shakira and Celia Cruz; and even the Hispanic Barbie doll in her many guises. They investigate the media discourses surrounding controversial

Latinas such as Lorena Bobbitt and Marisleysis González. And they discuss Latina representations in Lupe Solano's series of mystery books and in the popular TV shows *El Show de Cristina* and *Laura en América*. This extensive treatment of Latina representation in popular

culture not only sheds new light on how meaning is produced through images of the Latina body, but also on how these representations of Latinas are received, revised, and challenged. [International dictionary of films and filmmakers](#) Chicago Review Press Contains over two
