Official Report of the Debates of the House of Commons Oxford University Press

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

An Unlikely Duchess National Academies Press

A very proper aristocrat, who always does his duty and never sets a foot wrong, the young Duke of Mitford is on his way into the country to propose marriage, sight unseen, to a young lady of equal virtue and propriety chosen for him by his grandfather and hers. For once in his life, Paul decides to have a little adventure by traveling there incognito and without his usual ducal entourage. He finds the experience disappointing until at an inn one evening he rescues a female from certain ravishment and then learns that she is fleeing from the dreadful fate of having to marry the Duke of Mitford. Before Josephine Middleton discovers the true identity of her rescuer, the two of them are embroiled in a very big, mad adventure after she finds that her would-be abductor has stolen her jewels.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during

the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Nineteenth-century French Realism focuses on metropolitan France, with Paris as its undisputed heart. Through Jennifer Yee's close reading of the great novelists of the French realist and naturalist canon -

Balzac, Flaubert, Zola, Maupassant - The Colonial Comedy reveals that the colonies play a role at a distance even in the most apparently metropolitan texts. In what Edward Said called 'geographical notations' of race and imperialism the presence of the colonies off-stage is apparent as imported objects, colonial merchandise, and individuals whose colonial experience is transformative. Indeed, the realist novel registers the presence of the emerging global world-system through networks of importation, financial speculation, and immigration as well as direct colonial violence and power structures. The literature of the century responds to the last decades of French slavery, and direct colonialism (notably in Algeria), but also economic imperialism and the extension of French influence elsewhere. Far from imperialist triumphalism, in the realist novel exotic objects are portrayed as fake or mass-produced for the growing bourgeois market, while economic imperialism is associated with fraud and manipulation. The deliberate contrast of colonialism and exoticism within the metropolitan novel, and ironic distancing of colonial narratives, reveal the realist mode to be capable of questioning its own epistemological basis. The Colonial Comedy argues for the existence in the nineteenth century of a Critical Orientalism characterized by critique of its own discursive foundations. Using the tools of literary analysis within a materialist approach, The Colonial Comedy opens up the domestic Paris-Provinces axis to signifying chains pointing towards the colonial space.

Space and Place in Children's Literature, 1789 to the Present OECD Publishing

Focusing on questions of space and locale in children's literature, this collection explores how metaphorical and physical space can create landscapes of power, knowledge, and identity in texts from the early nineteenth century to the present. The collection is comprised of four sections that take up the space between children and adults, the representation of 'real world' places, fantasy travel and

locales, and the physical space of the children's book-as-object. In their essays, the contributors analyze works from a range of sources and traditions by authors such as Sylvia Plath, Maria Edgeworth, Gloria Anzaldúa, Jenny Robson, C.S. Lewis, Elizabeth Knox, and Claude Ponti. While maintaining a focus on how location and spatiality aid in defining the child's relationship to the world, the essays also address themes of borders, displacement, diaspora, exile, fantasy, gender, history, home-leaving and homecoming, hybridity, mapping, and metatextuality. With an epilogue by Philip Pullman in which he discusses his own relationship to image and locale, this collection is also a valuable resource for understanding the work of this celebrated author of children's literature.

Edouard Vuillard (1868-1940), one of the most admired post-impressionist artists, is best-known for his small easel paintings and their charming portrayals of everyday life. However, a major part of his work during his early life was the painting of large decorative panels in the Parisian homes of wealthy private patrons, produced between 1892 and 1912. These panels - some fifty in total - have been little studied, due principally to the inaccessibility of many of them and the impossibility of their being included in exhibitions.

The book presents a comprehensive and well-organized overview of the family-centered care approaches for child disability, and provides multi-professional contributions from the fields of psychiatry, psychology, and rehabilitation science. The volume is divided into three main sections, that highlights the theoretical

basis, research evidence, and clinical implications of the family-centered approach to child care. Active engagement of parents in the therapeutic and rehabilitative journey of their children with disability is key to the success of early interventions and their long-term benefits. Research and clinical experiences in healthcare services around the world suggest that early supportive programs may promote children's development at its best, with both clinical benefits and economic advantages for the healthcare system. This volume will appeal to a wide readership, from clinicians and researchers in child disability and rehabilitation, to students and professionals in the fields of psychiatry, psychology, and rehabilitation science.

From the exquisitely talented and award-winning author of the *Outlander* Saga come two additions to the oeuvre, both featuring Lord John Grey. This dashing character first appeared in Gabaldon's blockbuster, *Voyager*, and readers cheered him on in the *New York Times* bestselling *Lord John and the Private Matter*. Diana Gabaldon takes readers back to eighteenth-century Britain as Lord John Grey pursues a deadly family secret as well as a clandestine love affair, set against the background of the Seven Years War. Seventeen years earlier, Grey's father, the Duke of Pardloe, shot himself, days before he was to be accused of being a Jacobite traitor. By raising a regiment to fight at Culloden, Grey's elder brother has succeeded in redeeming the family name, aided by Grey, now a major in that regiment. But now, on the eve of the regiment's move to Germany, comes a mysterious threat that throws the matter of the Duke's death into stark new question, and brings the Grey brothers into fresh conflict with the past and each other. From barracks and parade grounds to the battlefields of Prussia and the stony fells of the Lake District, Lord John's struggle to find the truth leads him through danger and passion, ever deeper, toward the answer to the question at the centre of his soul-what is it that is most important to a man? Love, loyalty, family

name? Self-respect, or honesty? Surviving both the battle of Krefeld and a searing personal betrayal, he returns to the Lake District to find the man who may hold the key to his quest: a Jacobite prisoner named Jamie Fraser. Here, Grey finds his truth and faces a final choice: between honour and life itself.

Tennessee Williams's first novel *The Roman Spring of Mrs. Stone* is vintage Tennessee Williams. Published in 1950, his first novel was acclaimed by Gore Vidal as "splendidly written, precise, short, complete, and fine." It is the story of a wealthy, fiftyish American widow recently a famous stage beauty, but now "drifting." The novel opens soon after her husband's death and her retirement from the theatre, as Mrs. Stone tries to adjust to her aimless new life in Rome. She is adjusting, too, to aging. ("The knowledge that her beauty was lost had come upon her recently and it was still occasionally forgotten.") With poignant wit and his own particular brand of relish, Williams charts her drift into an affair with a cruel young gigolo: "As compelling, as fascinating, and as technically skillful as his play" (*Publishers Weekly*).
