Despite -- and perhaps because of -- increasing global mobility, there are more types of borders today than ever before in history. Borders of all kinds define every aspect of social life in the twenty-first century. From the biometric data that divides the smallest aspects of our bodies to the aerial drones that patrol the immense expanse of our domestic and international airspace, we are defined by borders. They can no longer simply be understood as the geographical divisions between nation-states. Today, their form and function has become too complex, too hybrid. What we need now is a theory of the border that can make sense of this hybridity across multiple domains of social life. Rather than viewing borders as the result or outcome of pre-established social entities like states, Thomas Nail reinterprets social history from the perspective of the continual and constitutive movement of the borders that organize and divide society in the first place. Societies and states are the products of bordering, Nail argues, not the other way around. Applying his original movement-oriented theoretical framework "kinopolitics" to several major historical border regimes (fences, walls, cells, and checkpoints), Theory of the Border pioneers a new methodology of "critical limology," that provides fresh tools for the analysis of contemporary border politics.

Si hay una obra clásica que revolucionó la visión del cristianismo es esta. El autor propone tesis pioneras como que la figura de Jesús esta muy por encima de los evangelios.

This report aims to 'crack the code' by deciphering the factors that hinder and facilitate girls' and women's participation, achievement and continuation in science, technology, engineering and mathematics (STEM) education and, in particular, what the education sector can do to promote girls' and women's interest in and engagement with STEM education and ultimately STEM careers.

Muchos caminos llevan a Líbano. Carlos Martínez Assad transita cada uno de ellos hasta lograr que confluyan en un mapa hecho de palabras, y nos invita a acompañarlo en el recorrido de sus

descubrimientos. Atento investigador de la sociedad y la historia, Martínez Assad estudia el difícil destino de un pequeño país escindido por luchas internas, prolongadas guerras civiles y la intervención de intereses y agresiones extranjeros, en una zona donde cualquier movimiento puede desatar la barbarie y la destrucción de conquistas milenarias. El autor redescubre también, el aliento de la comunidad libanesa asentada en México, el sentido de su propio apellido y la sangre que fluye por sus caminos. Las fotografías que se incluyen - realizadas por él mismo - forman parte de los testimonios reunidos por el autor y no son mero complemento de este libro: contribuyen a hacer de la lectura una experiencia integral en la que percibimos plenamente sensaciones e ideas.

An "intricate literary mystery [of] wrenching effect" by the internationally acclaimed, bestselling author of *The Club Dumas* (The New Yorker). Someone has hacked into the pope's personal computer—not to spy on the Vatican or to spread a virus, but to send an urgent plea for help: SAVE OUR LADY OF THE TEARS. The crumbling Baroque church in the heart of Seville is slated for demolition—and two of its defenders have suddenly died. Accidents? Or murders? And was the church itself somehow involved? The Vatican promptly dispatches Father Lorenzo Quart, their worldly and enormously attractive emissary, to investigate the situation, track down the hacker—known only as "Vespers"—and stay alive. Thus begins a sophisticated and utterly suspenseful page-turner that has taken its readers by storm. "An elegant thriller that is as much about the elusive quest for happiness as it is about solving the murders." —The Denver Post "An indelible tale of love, faith, and greed." —People, Page-Turner of the Week
