*Michael Collins and the
Women who Spied for
Ireland* Roberts Rinehart
Publishers

The most charismatic figure to emerge during the struggles for the independence of Ireland was undoubtedly Michael Collins. This remarkable biography, which draws on much hitherto unpublished material, charts the dramatic rise of the country boy who became head of the Free State and the commander-in-chief of the army.

The Illustrated Life of Michael Collins

Liturgical Press
Few leaders in history have been as mythologized as Michael Collins. Before his death

at 31, he had fought in the Easter Rising, organized the IRA and out-spied British intelligence, negotiated the Anglo-Irish Treaty, and run the first independent government in Ireland. Peter Hart's groundbreaking biography restores humanity to this mythical figure. Drawing on previously unknown sources, delving into Collins's pre-revolutionary past, and assessing the methods—and the costs—of his rise to power, Mick reveals a man of often ruthless ambition, more politician than soldier, whose friendships went no farther than his interests. A work as thrilling as it is authoritative.

Michael Collins Aladdin
When Asquith introduced his bill for Home Rule for Ireland in 1912, he sparked a decade of

turbulence and violence for Ireland and her people. Michael Collins played a crucial role in rekindling Ireland's aspirations for freedom. A leading figure in the nation's bitter and bloody resistance to British Rule, he played a key part in reshaping Ireland's history as we know it today. Ulick O'Connor includes valuable new information about the secret war against England and provides a fresh and highly dramatic account of Ireland's fight for freedom. Using important material from the archives of General Richard Mulcahy, Collins's chief of staff, as well as personal interviews with Mulcahy, Eamon de Valera, and many other leading figures Michael Collins and the Troubles is a vivid and often horrifying account of a crucial time,

the consequences of which are still felt today. *The Twelve Apostles* Farrar, Straus and Giroux Michael Collins and the Making of a New Ireland, which was first published in 1926 as two volumes, was written by Piaras Beaslai, a Major-General in the Sinn Fein army who was an intimate friend of Michael Collins and his senior in the inner councils of the most extreme section of the party. Michael Collins (1890-1922) was an Irish revolutionary, soldier and politician who was a leading figure in the early-20th-century Irish struggle for independence. He was Chairman of the Provisional Government of the Irish Free State from January 1922 until his assassination in August 1922. Collins' family had republican connections reaching back to the 1798 rebellion. He moved to London in 1906 and became a member of the London GAA, through which he became associated with the Irish Republican Brotherhood and the Gaelic League. He returned to Ireland in 1916 and fought in the Easter Rising. He was subsequently imprisoned in the Frongoch internment camp as a

prisoner of war, but was released in December 1916. After his release, Collins rose through the ranks of the Irish Volunteers and Sinn Féin. He became a Teachta Dála for South Cork in 1918, and was appointed Minister for Finance in the First Dáil. He was present when the Dáil convened on 21 Jan. 1919 and declared the independence of the Irish Republic. In the ensuing War of Independence, he was Director of Organisation and Adj.-Gen. for the Irish Volunteers, and Director of Intelligence of the Irish Republican Army. He gained fame as a guerrilla warfare strategist, planning and directing many successful attacks on British forces. After the July 1921 ceasefire, Collins and Arthur Griffith were sent to London by Eamon de Valera to negotiate peace terms. A provisional government was formed under his chairmanship in early 1922 but was soon disrupted by the Irish Civil War, in which Collins was commander-in-chief of the National Army. He was shot and killed in an ambush by anti-Treaty forces on 22 Aug. 1922. *Carrying the Fire* Penguin The last of a

manufacturing dynasty in a dying industrial town, Bill lives alone in the family mansion and works for the Truth, the moribund local paper. He yearns to write long philosophical pieces about the American dream gone sour, not the flaccid write-ups of bake-off contests demanded by the Truth. Then, old man Lawton goes missing, and suspicion fixes on his son, Ronny. Paradoxically, the specter of violent death breathes new life into the town. For Bill, a deeper and more disturbing involvement with the Lawtons ensues. The Lawton murder and the obsessions it awakes in the town come to symbolize the mood of a nation on the edge. Compulsively readable, *The Keepers of Truth* startles both with its insights and with Collins's powerful, incisive writing. [The Path to Freedom](#) Granta Books Reissued with a new preface by the author on the fiftieth anniversary of the Apollo 11 journey to the moon The years that have passed since Neil Armstrong, Buzz Aldrin, and Michael Collins piloted the Apollo 11 spacecraft to the moon in July 1969 have done nothing to alter the

fundamental wonder of the event: man reaching the moon remains one of the great events—technical and spiritual—of our lifetime. In *Carrying the Fire*, Collins conveys, in a very personal way, the drama, beauty, and humor of that adventure. He also traces his development from his first flight experiences in the air force, through his days as a test pilot, to his Apollo 11 space walk, presenting an evocative picture of the joys of flight as well as a new perspective on time, light, and movement from someone who has seen the fragile earth from the other side of the moon. *Michael Collins and the Civil War* Pickle Partners Publishing

In this book, Francis Costello allows Michael Collins to speak in his own words. He traces Collins' career from his schooldays to his tragic death at the age of 31, through a series of edited extracts from Collins' writings, speeches, letters and memoranda. *First Man* Simon and Schuster

Concentrates on the crucial role played by women in Collins' personal and working life. Women like Kathleen Clarke, Leslie Price de

Barra, Peg Barrett, Nancy O'Brien, Madge Hales and Collins' sister Mary Collins Powell, Madeline (Dilly) Dicker, Moya Llewelyn Davies and Lady Hazel Lavery are woven into this fascinating narrative of Collins' life.

Michael Collins: The Lost Leader Mercier Press Ltd

Published to mark Pope John XXIII's canonization in April 2014, this short biography describes how an Italian peasant boy with little aptitude for academic work went on to lead the world's largest Church.

Michael Collins and the Making of a New Ireland Columba Press (IE)

On July 20, 1969, the world stood still to watch American astronaut Neil A. Armstrong become the first person ever to step on the surface of another heavenly body. Upon his return to Earth, Armstrong was celebrated for his monumental achievement. He was also—as NASA historian Hansen reveals in this authorized biography—misunderstood.

Armstrong's accomplishments as an engineer, a test pilot, and an astronaut have long been a matter of record, but Hansen's access to private documents and

unpublished sources and his interviews with more than 125 subjects (including more than fifty hours with Armstrong himself) yield the first in-depth analysis of this elusive, reluctant hero. *Michael Collins* Roberts Rinehart Publishers

Collins became the first commander-in-chief of the Irish Army while still in his twenties. This book—published to coincide with the release of the film *The Big Fellow*, based on Collins' life, starring Liam Neeson and Julia Roberts—contains 30 of Collins' articles and speeches in which he evaluates Ireland's heritage and charts its future.

Michael Collins Gill & Macmillan Ltd

When the Irish nationalist Michael Collins signed the Anglo-Irish Treaty in December 1921, he observed to Lord Birkenhead that he may have signed his own death warrant. In August 1922 that prophecy came true when Collins was ambushed, shot and killed by a compatriot, but his vision and legacy lived on. Tim Pat Coogan's biography presents the life of a man whose idealistic vigor and determination were matched by his political realism and organizational

abilities. This is the classic biography of the man who created modern Ireland.

Michael Collins Farrar, Straus and Giroux (BYR) ?Michael Collins is one of the most famous figures in Irish history. He became the most wanted man in the British Empire, a minister in the first Irish government and Commander-in-Chief of the army. This is an action-packed biography of a great Irish hero.

Michael Collins and the Making of a New Ireland Vol. II Gill & Macmillan Ltd From the moment that Jorge Mario Bergoglio stepped onto the loggia of Saint Peter's Basilica, having taken the name of Francis, history already had been made. To identify himself in that moment as the Bishop of Rome rather than Pope already suggested a different approach to the Petrine ministry than what we have come to know. Pope Francis's words and actions since that day have only confirmed it - dramatically at times. Who is Francis, Bishop of Rome? In this short biography, Fr. Michael Collins, international author and Vatican expert, introduces readers to the man now called to lead the Catholic Church. *Michael Collins and the*

Making of the Irish State London : G.G. Harrap [1926]

Re-issued with an introduction by Neil Jordan, 'The Big Fellow' is the 1937 biography of the famed Irish leader Michael Collins by acclaimed author Frank O'Connor. It is an uncompromising but humane study of Collins, whose stature and genius O'Connor recognised. A masterly, evocative portrait of one of Ireland's most charismatic figures, 'The Big Fellow' covers the period of Collins' life from the Easter Rising in 1916 to his death in 1922 during the Irish Civil War. The author, having served with the Anti-Treaty IRA during the Irish Civil War, wrote 'The Big Fellow' as a form of reparation over the guilt he felt with regards to taking up arms against his fellow Irishmen and Collins' untimely death. Liam Neeson has said that he found the book of great assistance when preparing for the role of Collins in the 1996 film directed by Neil Jordan. *Michael Collins Himself* Mercier Press Ltd Michael Collins and Eamon de Valera were the two most charismatic leaders of the Irish revolution. This joint biography looks first at

their very different upbringings and early careers. Both fought in the 1916 Easter Rising , although it is almost certain they did not meet during that tumultuous week. Their first encounter came when Collins had been released from jail after the rising but de Valera was still inside. Collins was one of those who wanted to run a Sinn Féin candidate in the Longford by-election of 1917. De Valera and other leaders opposed this initiative but the Collins group went ahead anyway and the candidate won narrowly. The incident typified the relationship between the two men: they were vastly different in temperament and style. But it was precisely in their differences and contradictions that their fascination lay. De Valera, the political pragmatist, hoped to secure independence through political agitation, whereas the ambitious Collins, with his restless temperament and boundless energy, was an impassioned patriot who believed in terror and assassination. T. Ryle Dwyer examines the years, 1917-22 through the twists and turns of their careers. In an

epilogue, he considers the legacy of Collins on de Valera's political life.

Michael Collins and the Civil War Messenger Publications

In print continuously for more than thirty years, this book is long established as a reliable and affectionate portrait of Michael Collins. First, published in 1971, its great strength is that the author was able to interview Collins' surviving contemporaries and was offered unrestricted access to personal and family material. Michael Collins: The Lost Leader has been praised by authorities such as Robert Kee and Maurice Manning and remains compulsive reading even today.

Newman Mercier Press Ltd
The life of Michael Collins who fought for Irish independence, "destroyed the British intelligence system in Ireland ... effectively drafted the constitution of the Irish Free State and founded the Irish army, becoming its first commander-in-chief."--Jacket

Good Pope John Simon and Schuster

Jeter Publishing presents the second nonfiction biography in a brand-new series that celebrates men and women who

altered the course of history often without recognition. On July 16, 1969, a Gemini rocket lifted off from Kennedy Space Center in Florida. Previous launches had focused on getting astronauts into space, docking two spacecraft, and even walking in space, but this mission was different. Apollo 11 was designed to land two astronauts on the moon and then bring them back to Earth. Four days later, two astronauts, Neal Armstrong and Buzz Aldrin, did walk on the moon. But did you know that there were actually three astronauts aboard the rocket on July 16? Michael Collins didn't get to walk on the Moon, but his contribution is just as important as Armstrong and Aldrin's. Prior to joining NASA, Collins was in the Air Force and flew fighter jets. After joining NASA, he made two trips into space, performing one of the first EVAs or Extravehicular activities (in other words, walking in space) as well as making that trip to the moon. Collins continued to contribute even after leaving the space program. He took a job in the State Department and even served as director of the National Air & Space

Museum and as undersecretary of the Smithsonian Institution in Washington, DC. He may not have walked on the moon, but he's one of only twenty-four people to travel there. In fact, without Michael Collins, that first moon landing might never have happened.

Michael Collins' Own Story Gill & MacMillan

In this completely revised and updated book, T. Ryle Dwyer, offers a fresh perspective on Collins' activities. With new information about his role in organising the IRB in London in his youth right through to his death in 1922, Dwyer's analysis supports the case for Collins as the chief architect of the Irish victory over the British Empire. Michael Collins co-ordinated the sweeping Sinn Féin election victory of 1918 and put structure on the organisation of the IRA. He was the prototype of the urban terrorist and the architect of the war against the Black and Tans. While many have questioned whether Collins ever fired a shot at an enemy of Ireland, he did order the deaths of people standing in his way, and he even advocated kidnapping a

US President.
