## KENZIE SANAI

*Alpha, Bravo, Charlie* Simon and Schuster  
The Way of True Zen is a compilation of the most influential writings of Master Deshimaru, covering a broad array of Zen and Buddhist related ideas. Explored are such topics as the "Fukanzazengi" (Dogen's instructions on zazen sitting practice), "The Spirit of Zen", and "Hishiryo" (beyond thinking and non-thinking). These are core teachings in Soto Zen, and Deshimaru offers them in a very readable modern dialogue.

Michael Schumacher: the greatest of all time. A champion with a reputation founded on records, the man who has brought most glory to Ferrari in the modern era. With a dramatic coda to the story that we like to think of as a pit stop before a return to the race, to normality. Michael Schumacher enthralled a generation of fans, but not all the episode in his remarkable career are widely known. While it is true that it is in the nooks and crannies of life great novels are born, in this book there is a search for that which in the emphasis on celebration and success has gone unnoticed, painting a picture of a Schumacher full of enthusiasm but with a degree of fragility. The man behind the driver, with his loves, his manias, his passion concealed behind a veil of stubborn reserve that is by no means violated but rather observed from a certain distance, over time, in all its guises and nuances.

A graphically stunning, first-ever volume of nautical codes for children This extraordinary visual reference is an introduction to maritime communication through nautical flags, along with morse code, the phonetic alphabet, and semaphore signaling. Today's system of international maritime signal flags was developed in the 19th century, and is still used for communication between ships, or between ship and shore. Each flag, boldly colored for visual distinction at sea, stands for a letter as well as a phrase relevant to seafaring. The resulting code is both beautiful and functional, inviting readers to code and decode messages of their own! Created for ages 6-8 years

Many of the Ferrari single seaters and sports racers that won world championships were born of the imagination of Mauro Forghieri and designed by him. That was the case with the John Surtees 1964 158 F1 and the unbeatable Ts of the Lauda-Regazzoni era. The same can be said of the 250 P, the 330 P3 and P4, as well, naturally, as the 312 'PB', the unquestioned protagonists among the sports racing cars of the 1960s and 1970s. The life of the outstanding Mauro Forghieri is told in this book, in which noted stories, especially those that have remained unpublished for years, intertwine in an riveting narrative, supported by a wealth of absolutely unpublished illustrations, a large portion of which come from the publisher's archives.

Guy Colwell's 1970s underground comic book series Inner City Romance tread new territory: it was filled with stories about prison, black culture, ghetto life, the sex trade, and radical activism. It portrayed the unpleasant realities of life in the inner city, where opportunities were limited and being on the lowest end of the economic ladder meant that one's vision of the American dream was more about survival than lifestyle choices. Every issue of Inner City Romance is included in this collection, as well as many of the highly detailed paintings Colwell created at the time. In an accompanying text piece, Colwell provides context for the material.

Taking an unconventional approach to autobiographical writing, this work serves

as a double memoir, told in dialogue between a mother and a daughter. The conversation takes place in a medieval town high up in the Italian mountains, as the author, a Canadian writer, draws out her mother's childhood memories of life in southern Italy at the beginning of the 20th century. As they re-create that vanished world, the pair also finds greater understanding of the tumultuous relationships that sometimes exist between immigrant mothers and their children.

The complex subject is explained with completeness and simplicity of expression, so that it can be read and understood by everyone. The motor racing wing is at the center of the story, while the picture is completed by the entire aerodynamic behavior of the racing car. The volume also includes a specific chapter on CFD (fluid dynamics computation). Hundreds of illustrations enhance this work, which is an indispensable starting point for people who want to know all about this complex but fascinating subject.

Stuart Horten - ten years old and small for his age - moves to the dreary town of Beeton, far away from all his friends. And then he meets his new next-door neighbours, the unbearable Kingley triplets, and things get even worse. But in Beeton begins the strangest adventure of Stuart's life as he is swept up in quest to find his great-uncle's lost workshop - a workshop stuffed with trickery and magic. There are clues to follow and puzzles to solve, but what starts as fun ends up as danger, and Stuart begins to realize that he can't finish the task by himself . . . The first children's novel by Lissa Evans, this is a fast-moving blend of comedy and magic.

In 1956, Enzo Ferrari's son Alfredino died and, in remembrance, Enzo named the Formula 2 V6 engine that he was working on after his son, calling it Dino. From then on, all V6 and V8 Ferrari engines were known as Dinos. There have been many such cars and engines bearing this honorable name. Dinos have powered three World Champions, numerous sports-racing car victories, and even two mountain championships. Four series of road cars have been so successful with their Dino power that they form the bulk of car sales in modern times for Ferrari. DINO is a full historical analysis of all these outstanding cars the like of which has never been researched and published before. Here, at last, true credit can be given to the Ferrari V6 and V8 cars, the cars of the principdom of Alfredino. The book contains heavily-detailed appendices, details on drivers and championships, and a wealth of road test material from the best accredited sources. *Lamborghini* Cambridge University Press Motorcycles as motorcycles are meant to be: radical, stylish, subversive, raw. A devoted fascist changes her mind and her life after witnessing the horrors of the Holocaust First published in Italy in 1979, Luce D'Eramo's *Deviation* is a seminal work in Holocaust literature. It is a book that not only confronts evil head-on but expands that confrontation into a complex and intricately structured work of fiction, which has claims to standing among the greatest Italian novels of the twentieth century. Lucia is a young Italian girl from a bourgeois fascist family. In the early 1940s, when she first hears about the

atrocities being perpetrated in the Nazi concentration camps, she is doubtful and confused, unable to reconcile such stories with the ideology in which she's been raised. Wanting to disprove these "slanders" on Hitler's Reich, she decides to see for herself, running away from home and heading for Germany, where she intends to volunteer as camp labor. The journey is a harrowing, surreal descent into hell, which finds Lucia confronting the stark and brutal realities of life under Nazi rule, a life in which continual violence and fear are simply the norm. Soon it becomes clear that she must get away, but how can she possibly go back to her old life knowing what she now knows? Besides, getting out may not be as simple as getting in. Finally available in English translation, *Deviation* is at once a personal testament, a work of the imagination, an investigation into the limits of memory, a warning to future generations, and a visceral scream at the horrors of the world.
