The Parisien now wants to be a paysan, but it's easier said than done . . . How do you plant leeks in cement-hard French soil, impress Gallic neighbours with your non-existent gardening credentials and survive a seven-hour celebratory communion lunch (followed by dinner)? What skills are required to cope with suicidal French mice (souricide?), resist the advances of an attractive but desperate lady cheese-maker during an English lesson, buy wine from Mr Grump the grower, and -- last but not least -- stoop so low as to snap up the plastic trophy in the annual garden competition? AN ENGLISHMAN A LA CAMPAGNE is a wonderfully warm and witty follow-up to the author's account of his first year living in Paris. Now broadening his affectionate embrace to include the myriad facets of the French countryside, Sadler makes you laugh, makes you think, and makes you love the place . . . even Donges, which won first prize in his competition for the grottiest village in France.

Surrounded by water and located at the heart of a fertile plain, the Island of Montreal has been a crossroads for Indigenous peoples, European settlers, and today's citizens, and an inland port city for the movement of people and goods into and out of North America. Commemorating the city's 375th anniversary, *Montreal: The History of a North American City* is the definitive, two-volume account of this fascinating metropolis and its storied hinterland. This comprehensive collection of essays, filled with hundreds of illustrations, photographs, and maps, draws on human geography and environmental history to show that while certain distinctive features remain unchanged – Mount Royal, the Lachine Rapids of the Saint Lawrence River – human intervention and urban evolution mean that over time Montrealers have had drastically different experiences and historical understandings. Significant issues such as religion, government, social conditions, the economy, labour, transportation, culture and entertainment, and scientific and technological innovation are treated thematically in innovative and diverse chapters to illuminate how people's lives changed along with the transformation of Montreal. This history of a city in motion presents an entire picture of the changes that have marked the region as it spread from the old city of Ville-Marie into parishes, autonomous towns, boroughs, and suburbs on and off the island. The first volume encompasses the city up to 1930, vividly depicting the lives of First Nations prior to the arrival of Europeans, colonization by the French, and the beginning of British Rule. The crucial roles of waterways, portaging, paths, and trails as the primary means of travelling and trade are first examined before delving into the construction of canals, railways, and the first major roads. Nineteenth-century industrialization created a period of near-total change in Montreal as it became Canada's leading city and witnessed staggering population growth from less than 20,000 people in 1800 to over one million by 1930. The second volume treats the history of Montreal since 1930, the year that the Jacques Cartier Bridge was opened and allowed for the outward expansion of a region, which before had been confined to the island. From the Great Depression and Montreal's role as a munitions manufacturing centre during the Second World War to major cultural events like Expo 67, the twentieth century saw Montreal grow into one of the continent's largest cities, requiring stringent management of infrastructure, public utilities, and transportation. This volume also extensively studies the kinds of political debate with which the region and country still grapple regarding language, nationalism, federalism, and self-determination. Contributors include Philippe Apparicio (INRS), Guy Bellavance (INRS), Laurence Bherer (University of Montreal), Stéphane Castonguay (UQTR), the late Jean-Pierre Collin (INRS), Magda Fahrni (UQAM), the late Jean-Marie Fecteau (UQAM), Dany Fougères (UQAM), Robert Gagnon (UQAM), Danielle Gauvreau (Concordia),

In this richly documented work, Serge Courville tells the geographical history of Quebec from the appearance of the first humans through to the present day. This detailed and erudite book maps major stages of Quebec's development, providing a geographical record of the many social relationships that over time created a sense of place. Landscape, Courville shows, is the keeper of memory, the record of successive changes, and a witness to the genesis of the new. Places that were once agricultural, then left to waste and ruin, are today revived by tourism. Areas that now house office buildings were long ago open playgrounds where children ruled. Drawing on vast research, Courville shows how, in spite of the turbulence Quebec often endures ♦ or perhaps because of it ♦ the land itself may be seen as an important participant in the history of its peoples. *Quebec: A Historical Geography* was originally published by Les Presses de l'Université ♦ Laval as *Le Québec: Gen ♦ ses et mutations du territoire*.

Alex rêve de rêves et d'aventures. Cette moto récemment acquise dans l'Himalaya et sur laquelle il fonce tel un météore sur l'asphalte indienne en est un concentré. 190 kg d'acier qui suintent l'huile et la liberté. En explorant ce pays incroyable il espère retrouver Veena, beauté orientale dont la voix résonne en lui tel un solo de saxophone. Mais au détour d'une route de montagne il se perd dans un endroit étrange, à la fois si proche et si loin, juste à portée d'imagination. Débute une odyssée mystique au côté de Jasmine, petite vieille amnésique et muette. Il trouve alors bien plus que ce qu'il est venu chercher. À quel prix ? Sera-t-il capable de franchir à nouveau le miroir ou restera-t-il prisonnier de ses propres réalités? Comme dans la vie, ce qui compte vraiment dans un voyage ce n'est jamais la destination. Comme dans la vie, ce qui compte vraiment c'est...
