Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup’s moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe’s Uncle Tom’s Cabin, Northup’s story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War. **Shakespeare's Sexual Language** Pantheon Excerpt from Public Library of the City of Boston: Lower Hall; Poetry, Drama, Collections, Periodicals, and Miscellaneous Works; July 1870 Library Of French me moirs. 6v. *Man Into Wolf* Legare Street Press

This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half-century. In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio (1573-1610), Michael Fried offers a transformative account of the artist's revolutionary achievement. Based on the A. W. Mellon Lectures in the Fine Arts delivered at the National Gallery of Art, The Moment of Caravaggio displays Fried's unique combination of interpretive brilliance, historical seriousness, and theoretical sophistication, providing sustained and unexpected readings of a wide range of major works, from the early Boy Bitten by a Lizard to the late Martyrdom of Saint Ursula. And with close to 200 color images, The Moment of Caravaggio is as richly illustrated as it is closely argued. The result is an electrifying new perspective on a crucial episode in the history of European painting. Focusing on the emergence of the full-blown "gallery picture" in Rome during the last decade of the sixteenth century and the first decades of the seventeenth, Fried draws forth an expansive argument, one that leads to a radically revisionist account of Caravaggio's relation to the self-portrait; of the role of extreme violence in his art, as epitomized by scenes of decapitation; and of the deep structure of his epoch-defining realism. Fried also gives considerable attention to the art of Caravaggio's great rival, Annibale Carracci, as well as to the work of Caravaggio's followers, including Orazio and Artemisia Gentileschi, Bartolomeo Manfredi, and Valentin de Boulogne.

**The Horse as Cultural Icon** Heinemann-Raintree Library

Reprints and reminiscences from the magazine’s first decade: “Fun to flip through . . . Where

would American humor be without the National Lampoon?”—The New Yorker From its first issue in April 1970, the National Lampoon blazed like a comet, defining comedy as we know it today. To create Drunk Stoned Brilliant Dead, former Lampoon illustrator Rick Meyerowitz selected the funniest material from the magazine and sought out the survivors of its first electrifying decade to gather their most revealing and outrageous stories. The result is a mind-boggling tour through the early days of an institution whose alumni left their fingerprints all over popular culture: Animal House, Caddyshack, Saturday Night Live, Ghostbusters, SCTV, Spinal Tap, In Living Color, Ren & Stimpy, The Simpsons—even Sesame Street counts a few Lampooners among its ranks. This is the story of a band of young talents who “irrevocably rewrote the landscape of American humor” (Publishers Weekly). “A vivid picture of a tight-knit family of twentysomething humorists at the dawn of their careers.” —Newsweek “The other night I started laughing so hard I had to leave the room . . . And then I realized that I hadn’t laughed so hard in 35 years, since I was a teenager, reading National Lampoon.” —The Wall Street Journal “If you grew up with the Lampoon, this book is a trip down memory lane like no other; if not, it will demonstrate that the much maligned 70s could produce humor that has never been surpassed.” —Vanity Fair **Pachyderme (SelfMadeHero)** Top Shelf Productions This collection brings together all the poems published by James Joyce in his lifetime, most notably Chamber Music and Pomes Penyeach. It also includes a large body of his satiric or humorous occasional verse, much of which is fugitive and little known to the general reader. In addition, the volume provides the text of the surviving prose Epiphanies, Giacomo Joyce - the fascinating Trieste notebook that Joyce compiled while finishing A Portrait of the Artist and beginning Ulysses, in which he first explored the world of his autobiographical novel.

The suppression of family history is the initial thread that ties together The Love Bunglers, featuring Hernandez's longtime Love and Rockets heroine Maggie. Because these secrets can't be dealt with openly, their lingering effect is even more powerful. But Maggie's ability to navigate and find meaning in her life - despite losing her culture, her brother, her profession, and her friends - is what's made her a compelling character. After a lifetime of losses, Maggie finds, in the second half, her longtime off and on lover, Ray Dominguez. Much like John Updike in his four Rabbitnovels, Jaime Hernandez has been following his longtime character Maggie around for several decades, all of which has seemed to be building towards this book in particular.

What could change two brothers from an unstoppable team into a pair of bitterly estranged loners? How does the work of one middle-aged nurse reveal the scars of an entire community, and can anything heal the wounds caused by a century of deception? Set in an imaginary version of Jeff Lemire's hometown, ESSEX COUNTY is an intimate study of an eccentric farming community, and a tender meditation on family, memory, grief, secrets, and reconciliation. With the lush, expressive inking of a cartoonist at the height of his powers, Lemire draws us in and sets us free.

*Jimmy Corrigan: The Smartest Kid on Earth* A&C Black

Originally published in 1981. This study concentrates on one aspect of Victorian theatre production in the second half of the nineteenth century – the spectacular, which came to dominate certain kinds of production during that period. A remarkably consistent style, it was used for a variety of

dramatic forms, although surrounded by critical controversy. The book considers the theories and practice of spectacle production as well as the cultural and artistic movements that created the favourable conditions in which spectacle could dominate such large areas of theatre for so many years. It also discusses the growth of spectacle and the taste of the public for it, examining the influence of painting, archaeology, history, and the trend towards realism in stage production. An explanation of the working of spectacle in Shakespeare, pantomime and melodrama is followed by detailed reconstructions of the spectacle productions of Irving's *Faust* and Beerbohm Tree's *King Henry VIII*.
