Bach's Oratorios Hassell Street Press
The major choral works by Johann Sebastian Bach--the Christmas, Easter, and Ascension Oratorios, and the St. Matthew, St. Mark, and St. John Passions--stand as the most frequently-performed and penetratingly discussed of the genre. Renowned Bach scholar Michael Marissen has assembled a compact, well-designed and ideally useful treatment of Bach's oratorios, providing the full German texts with literal English translations and copious annotations. He provides strict literal translations of these texts, with citations from the Luther Bible as it was known in Bach's day, along side

extensive footnotes that provide information addressing the interests and concerns of today's Bach community. These are the first translations of the librettos from Bach's oratorios to accommodate the many sense-clarifying allusions to the readings of the Luther Bibles in Bach's day, to explore from historical dictionaries the meanings of previously unnoticed archaic usages, and to contrast relevant findings from modern biblical scholarship. Marissen's insights are particularly helpful, his thoroughness is impressive, and the book will be a longstanding, definitive, and essential reference for choral directors, performers, audience members, and Bach scholars alike.

Nicht nur, dass er sich in Esther verliebt. Killer sind hinter Esther her, die von der Polizei gedeckt werden. Und während Esther spurlos verschwindet, tritt die Frau im blauen Mantel in sein Leben ... Widely celebrated as the greatest German playwright of the twentieth century, Bertolt Brecht was also, as George Steiner observed, "that very rare phenomenon, a great poet, for whom poetry is an almost everyday visitation

and drawing of breath.” Hugely prolific, Brecht also wrote more than two thousand poems—though fewer than half were published in his lifetime, and early translations were heavily censored. Now, award-winning translators David Constantine and Tom Kuhn have heroically translated more than 1,200 poems in the most comprehensive English collection of Brecht’s poetry to date. Written between 1913 and 1956, these poems celebrate Brecht’s unquenchable “love of life, the desire for better and more of it,” and reflect the technical virtuosity of an artist driven by bitter and violent politics, as well as by the untrammelled forces of love and erotic desire. A monumental achievement and a reclamation, *The Collected Poems of Bertolt Brecht* is a must-have for any lover of twentieth-century poetry.

Las Vegas, 1966. There are parts of *Sin City* the neon lights don't reach, and only the desperate and dangerous venture into the city's seedy backstreets, where gangsters rule, the floating poker games never stop, and people disappear without a trace. Ruby Gordon is desperate. She has nowhere else to go when her brother opens his home to her. He runs an off-the-books juke joint, and she is fascinated by the most dangerous - and handsome - of his clientele. Tim Kelly is dangerous. His father never achieved notoriety with the Chicago Outfit, but Tim has aspirations to strike out on his own. He has plans, and they don't include a naive newcomer. Jake Wheeler is both. The Airman-turned-rodeo-rider is as gorgeous as he is foul-tempered, and he's Tim's not-so-friendly rival. When he notices Tim's interest in Ruby, he's determined to derail Tim's plans. The three of them are on a collision

course, but there's only one rule in Vegas: The house always wins.

Xerxes: The Fall of the House of Darius and the Rise of Alexander Michael Joseph Adding some 20 percent to the original content, this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's Gravity's Rainbow. Weisenburger takes the reader page by page, often line by line, through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. Weisenburger fully annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk, drug lingo, and military slang as well as the more obscure terminology of black magic, Rosicrucianism, and Pavlovian psychology. The Companion also reveals the underlying organization of Gravity's Rainbow--how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel. The Companion is keyed to the pages of the principal American editions of Gravity's Rainbow:

Viking/Penguin (1973), Bantam (1974), and the special, repaginated Penguin paperback (2000) honoring the novel as one of twenty "Great Books of the Twentieth Century."

Bach's Chorals: The hymns and hymn melodies of the cantatas and motetts Dark Horse Comics (Single Issues)

An anthology of Rilke's strongest poetry and prose for both aficionados and new readers. Here is a mini-anthology of poetry and prose for both aficionados and those readers discovering Rainer Maria Rilke for the first time. John J. L. Mood has assembled a collection of Rilke's strongest work, presenting commentary along with the selections. Mood links into an essay passages from letters that show Rilke's profound understanding of men and women and his ardent spirituality, rooted in the senses. Combining passion and sensitivity, the poems on love presented here are often not only sensual but sexual as well. Others pursue perennial themes in his work—death and life, growth and transformation. The book concludes with Rilke's reflections on wisdom and openness to experience, on grasping what is most difficult and turning what is most

alien into that which we can most trust.

Sin City W. W. Norton & Company

The legacy of Bertolt Brecht is much contested, whether by those who wish to forget or to vilify his politics, but his stature as the outstanding political playwright and poet of the twentieth century is unforgettably established in this major critical work. Fredric Jameson elegantly dissects the intricate connections between Brecht's drama and politics, demonstrating the way these combined to shape a unique and powerful influence on a profoundly troubled epoch. Jameson sees Brecht's method as a multi-layered process of reflection and self-reflection, reference and self-reference, which tears open a gap for individuals to situate themselves historically, to think about themselves in the third person, and to use that self-projection in history as a basis for judgment. Emphasizing the themes of separation, distance, multiplicity, choice and contradiction in Brecht's entire corpus, Jameson's study engages in a dialogue with a cryptic work, unpublished in Brecht's lifetime, entitled *Me-ti; Book of Twists and Turns*. Jameson sees this text as key to understanding Brecht's critical reflections on dialectics and his orientally informed fascination

with flow and flux, change and the non-eternal. For Jameson, Brecht is not prescriptive but performative. His plays do not provide answers but attempt to show people how to perform the act of thinking, how to begin to search for answers themselves. Brecht represents the ceaselessness of transformation while at the same time alienating it, interrupting it, making it comprehensible by making it strange. And thereby, in breaking it up by analysis, the possibility emerges of its reconstitution under a new law.

The Art of Sin City ISSN

This historical epic, set in the world of 300, tells of the upsurge and decline of the Persian King's empire, and the ascent of the Grecian realm through Alexander. Written and illustrated by comics luminary and legend, Frank Miller (*Sin City*, *The Dark Knight*, 300), and colored by Alex Sinclair (*Batman: The Dark Knight III: The Master Race*), this companion to Miller's epic masterpiece, 300, brings the historical story of Xerxes to the graphic novel audience with grit and visual style! The ongoing Greek rebellion against Persian tyranny reaches a turning point after the destruction of the city of Sardis

and the later battle of Marathon: on a military campaign to vanquish the city of Athens and silence the Greeks once and for all, Xerxes, Persian Prince, watches as his father, King Darius, falls in battle . . . The mantle of king is passed and while his newly-inherited fleet retreats toward home, Xerxes' hatred is cemented toward Athens--and his incentive to build the Persian empire is fueled. Xerxes becomes the king of all countries--the king of Persia, ruler of Zion, and Pharaoh of Egypt--and his empire is unlike any the world has ever seen, until . . . The mantle is again passed, the god king dies and Darius III continues as the king of all. But then, from the west, a tiger force strikes in Asia Minor and is on a course for collision with Persian forces. This will be the beginning of the end for Persia and the launch of Alexander the Great's rise to power!
